

# THE Winter Problem Solved!

After twelve years of experimenting I have succeeded in solving this great problem of wintering bees without loss. I have also overcome Spring Dwindling so perfectly that with me it is a thing of the past. Four years ago I built my first underground clamp and since that time I have each year wintered a large number of colonies without the loss of one. It is positively the only perfect system of wintering and springing bees. See Canadian Bee Journal, Nov. 18, 1885, page 531.)

## I Am Making Models of this Clamp in Cardboard

with three hives packed in 't as I prepare them for winter, with printed directions for using, for the

*Small Sum of One Dollar.*

*The Model Is so Complete and Simple that a child can understand it.*
