TO CORRESPONDENTS.

A Subsching,—Marshal Ney was tried for high treason, by the French House of Peers, and sentenced to be shot. It is not alleged that the Duke of Wellington signed any sanction or approved of the decision of the Chamber of Peers, but that if he had interposed, he might have saved Ney's life,

J. T .- Affinity signifies relationship by marriage only; consanguinity, relationship by blood.

GEO. II .- The calculation is quite simple. You can count 160 or 170 a minute, but suppose you go as far as 200 in a minute, then an hour will produce 12,000; a day, 288,000; and a year or 365 days, 105,120,000. Supposing that Adam, at the beginning of his existence, and begun to count, and continued to do so, and was counting still, he would not now, according to the usually received chronology, have counted nearly enough. It would require 9,512 years 342 days 5 hours and 20 minutes, according to the above rule, to count a billion, or a million times a million.

Jor .- It was long a fashion with royali_t writers to represent Oliver Cromwell as a monster of cruelty and hypocrisy; a man who made use of religious phraseology, merely to subserve his own ambitious ends. Such a view, after the researches of Carlyle, Guizot, and others, can no longer be upheld. Cromwell's religion, instead of being a mere profession, seems to have been the very essence of the man. Neither can the charge of bigotry be sustained against him; for so far as he could effect his purpose, he would suffer no one to be prosecuted for religious opinions. Cromwell grasped power and was often arbitrary, but we think all caudid men must ad-mit that he sought earnestly to promote the prosperity, happiness and glory of his native land.

ENIGMA.

ENIGMA.

Nor form nor substance in my being share,
I'm neither fire nor water, earth nor air.
From numerons sources, I my birth derive,
Yet ne'er can die, for never was alive;
And yet with such extensive empire reign,
That very few escape my magic chain.
For time, nor place, my wild excursions bound,
I break all order, nature's laws confound.
I break all order, nature's laws confound.
And make apparent contradictions Join.
The sleeping dead I summon from the tomb
And oft anticipate the living's doom.
Awed by no checks, my roving flight, can soar
Beyond imagination's active power,
Can view each country of the spacious earth,
And visit realms that never yet had birth.
So swift my operations, in an hour.
I can destroy a town or build a tower;
Oft to the good by heaven in mercy sent.
I've armed their thoughts against some dire event,
As oft in c'alms the hardened villain bind.
And haunt with restless fears the guilty mind.
