Grain and Milling Notes.

The Lake of the Woods Milling Co. intend erecting a wheat drier at Kee-

Stephen Nairn, who is well known in the grain trade, of Winnipeg, is seriously ill.

Flour advanced another 10c at Minneapolls dast week. This makes the price of best patents \$2.45 per sack.

Work on the construction of the elevators at Montreal by the syndicate, of which W. H. Conners, of Buffalo, is head, was commenced on Tuesday.

Wm. Stephen, president of the Virden Agricultural society, Manitoba, has been given the highest award at the Paris exhibition for his collection of Manitoba wheat, barley and oats. It was the same exhibit took the prize a year ago at the Winnipeg fair.

President Van Alston, of the Headingly Milling company, is assuming active management of the business himself. Hitherto he has carried on a real estate business at Winnipeg.

Assistant General Freight Agent Shaw, of the C. P. R., has received a sample of fall wheat from the Pincher Creek district. The wheat was sown in August 1809, and harvested on August 3, 1900. The wheat went 50 bushels to the acre. Settlers are growing fall wheat in the Alberta country, north of Calgary, where a series of satisfactory experiments have been made. have been made.

have been made.

The flax crop of the northwestern states is in a bad way. The dry weather of June and July retarded growth and the rains of the harvest season have kept the crops so green that recent frosts have done them considerable damage. There was a greatly increased acreage thit year which should have yielded large crops but as things are now the yield will be greatly curtailed.

Notwithstanding the fact that On-

be greatly curtailed.

Notwithstanding the fact that Ontario winter wheat is this year of unusually good quality dealers are finding it difficult to make sales to old country millers in the face of competition from Kanss' and other American states where a variety of winter wheat is grown which is preferred by English millers. It is reported that many Ontario farmers contemplate a change of seed by ador ing this Kansas variety which closely resembles hard spring wheat.

At a meeting of the Winniper grain

this Kansas variety which closely resembles hard spring wheat.

At a meeting of the Winnipeg grain and produce exchange last week the following motion, notice of which was given at the last regular meeting, was passed:—"That trade term No. 12. 'In Store,' be amended by addition of the following words after the word buyer' in the second line-but the charges for outward inspection and outward weighing must be borne by the buyer." As amended, the term now reads, "The term 'in store' to mean that grain is free of all charges to the buyer, but the charges for outward inspection and outward weighing must be borne by the soller weighing must be borne by the soller weighing must be borne by the soller to give the buyer not less than five clear days free of storage from date of delivery of documents." A committee was appointed to interview the C. P. R. authorities and endeavor to get them to make Winnipes an "order" point, so grain could be consigned here, and after inspection, sold on samula Wester and the second of the solution o deavor to get them to make Winnipes on "order" point, so grain could be consigned here, and after inspection, sold on sample. Notice was given that at the next meeting a motion
