

## Miscellaneous.

The Russian military manoeuvres next autumn, as now planned, will possess peculiar interest from the fact that they are to be practically a rehearsal of the invasion by Napoleon of 1812. The army will be divided, and the invading force will attempt to reach Moscow.

The marvellous extension of electric railway systems in all parts of New England, combined with the popular use of the bicycle, is credited with being the cause of the present depression in the horse-trade which prevails everywhere. The breeding of horses is in a fair way to become one of the lost arts.

MR. W. A. REID, Jefferson Street, Schenectady, N. Y., 22nd July, '94, writes:

"I consider Acetocura to be very beneficial for La Grippe, Malaria and Rheumatism, as well as Neuralgia, and many other complaints to which flesh is heir, but these are very common here."

Countts & Sons, 72 Victoria St., Toronto.

And now we hear that some of the Oxford graduates say they can't bear Matthew Arnold, because "Oh, we are brought up to feel that way now. You see, in the first place, he couldn't write English; in the second place, he was no poet; and then, finally, he was a dreadful prig, you know!"

JACKSONVILLE, Fla.,  
18th August, 1894.

To whom it may concern—and that is nearly everybody.—This is to certify that I have used Countts & Sons' "Acetocura" on myself, my family and hundreds of others during the past fifteen years for headache, toothache, rheumatism, sciatica, sprains, cuts, boils, abscesses, scarlet fever, chills and fever, and also with good success on myself (as I was able) in an attack of yellow fever. I can hardly mention all the ills I have known its almost magical power in curing, such as croup, diarrhoea, biliousness, and even those little but sore pests to many people—corns. The trouble is with patients, they are so fond of applying where the pain is—and not where directed, at the nerve affected. And the trouble with the druggists is that they also want to sell "Something just as good," which very often is worse than useless.

Wishing you every success in your new establishment, and that a more enlightened public may appreciate the blessings of your Acetocura, is the fervent wish of

Yours truly,

CAPT. W. M. SOMERVILLE.

Late of U. S. Engineer Service, and formerly of the Marine Department, Canada.

The most extensive salt mines in the world are located at Wieliczka, nine miles from Cracow, an Austrian city, in the crown land of Galicia. These mines are worked on four different levels and have a total length of 40 to 50 miles. They are cut out in the shape of longitudinal and transverse galleries, the large, vaulted chambers being supported by many massive pillars of pure rock salt. The salt deposit is of an average depth of 1,200 feet and has been worked continuously for upwards of 700 years. The lower level of this immense mine is occupied by the miners and their families, who there have a regular village in the bowels of the earth. About 1,200 people live in this underground village, and many never saw daylight.
