

#### 4.6 Use of Figures 1 to 6

- 4.6.1 Figures 1 to 6 are based on an effective power of 1 kW radiated from a half-wave dipole in free space which produces an unattenuated field strength at one kilometre of about 107 dB above 1  $\mu\text{V}/\text{m}$  (221.8  $\text{mV}/\text{m}$ ). For an ERP other than 1 kW, the ordinate scale (field strength in dB above 1  $\mu\text{V}/\text{m}$  for 1 kW ERP) should be changed by the appropriate dB value.
- 4.6.2 The F(50,50) curves in Figures 1, 3 and 5 give the estimated field strength in dB above 1  $\mu\text{V}/\text{m}$  exceeded at 50% of the locations for at least 50% of the time for channels 2-6, 7-13 and 14-69, respectively.
- 4.6.3 The F(50,10) curves in Figures 2, 4 and 6 serve the same purpose as Figures 1, 3 and 5 except that they give the estimated field strength exceeded at 50% of the locations for at least 10% of the time for channels 2-6, 7-13 and 14-69, respectively.

### 5. PROCEDURES FOR NOTIFICATION

#### 5.1 General

- 5.1.1 Proposed assignments, allotments and changes thereto, shall be notified by an exchange of correspondence between the Federal Communications Commission and the Department of Communications; such proposals may be presumed to be acceptable if they conform to the technical criteria set out in this Arrangement. Each Administration shall have forty-five (45) days, from the date of receipt of the notification, to reply thereto. If an objection is raised in this period, the letter shall state, with as much particularity as the circumstances permit, the basis for the objection. The proposing Administration may then have an opportunity to meet the stated objection by suitable amendments to its proposal. If no reply is sent within the 45 day period prescribed, a notified proposal shall be considered approved. In all cases, notification procedures shall be completed prior to domestic grant of authorization.
- 5.1.2 Each calendar quarter, the Administrations shall forward to each other a recapitulation of all notifications made during that three month period. Each year both Administrations shall exchange, verify and reconcile the complete database.
- #### 5.2 Notification of Changes to Allotments
- 5.2.1 Notification of changes to allotments shall contain community name, state or province, reference coordinates and pertinent channel changes.
