In a few weeks the usual summer exodus abroad in search of novelty and educational inspiration will begin. Much money will be spent and time wasted in search for things which may be found right at our own door, did we but know it.

Possibly the Royal Museum at the corner of Bloor and Avenue road is still so new that there is excuse for its existence being still unknown to many thousands whom it might benefit after years of search and preparation by those who have the museum in charge, it is now open to the public the finishing touches are still in progress. Old Linen Tapestry.

An attractive display that meets one on entering, is that of velvets and tapestries. Gothic velvet of quality, such as our modern looms do not evolve, are represented. Ond linen tapestry of the third or fourth century is curious and interesting. The old cream colored background has animals and scrolls in a dark red shade, like little trees, worked over its surface. In the same section there are specimens of Italian, Bulgarian and Turkish embroidery, every piece of which is typical and attractive.

There is a beautiful collection of laces, a great number donated by Mrs. Warren, of Toronto. The most exquisite specimens of Brussels, Swiss and silk pillow lace of the 18th century are here. A mural decoration, which was here. A mural decoration, which was

HOME RULE BILL

Redmond's Last Appeal. "I think in the present circumstances there is nothing for the house of commons to do but proceed with the home rule for Ireland bill as it stands." This was the closing sentence of a speech delivered today in the house of commons by John R. Redmond, leader of the Irish Nationalists, who made the final speech on behalf of the Nationalist party on the second read-

If the proposal were made for a renewal of the conversation between the leaders of the two parties, as Sir Edward Grey had suggested, the opposition would accept it, but he feared that nothing would come of it while Mr. Redmond exercised the power to veto any proposals put forward by the opposition.

Carson's Offer Repeated.

Sir Edward Carson then repeated his offer that if the government would agree to allow parliament to decide at the end of the six years' period of exclusion whether or not Ulster should have the continued right of local option, he would call an Ulster convention and submit the question to it.

The only solution, declared Sir Edward, was to leave Ulster out of the bill until her consent to inclusion had been won.

Sir John Simon, the attorney-general, told the house that the government's offer to Ulster of temporary local option was still open, but that Ireland could not be permanently divided. The government, he said, was aiming at Irish unity, and was therefore unable to concede permanent exclusion to Ulster. If the efforts to reach a compromise should fail, the government was going to carry the home rule for Ireland bill as it stood.

FIGHT GOODERHAM BILL City Will Oppose Measure When It is Brought Before Committee.

There was a conference yesterday between Reeve Syme of York Township and Mayor Hocken over the problem of improving the sanitary conditions of the congested areas outside the northern boundary of the city. Nothing definite was accomplished.

The township has a bill in the legislature which provides that the city be compelled to supply those areas with water. The bill will be before the committee today and the city will oppose it. At the conference, Mayor Hocken urged Reeve Syme to withdraw the bill, promising that the city would apply for legislation at the next session which would arrange a supply of water by the city for those congested areas.

Reeve Syme would not agree to withdraw the bill. He contended that the electorate of York Township insist upon the bill being carried to a decision in the legislature.

suffered for a long time, not knowing what the trouble was. I had doctored with several doctors, but only seemed to be growing worse. The last doctor I had told me the trouble was anaemia, that my bleed was turned to water and that my blood was turned to water and that my condition was serious. But his treatment, like the rest, did me no good. I got so bad that if I excited myself, or went up stairs, I was completely out of breath and felt as if I was going to suffocate. My heart would palpitate violently, and at times I would suffer with terrible pains from it. I had a yellow complexion, my lips had lost their color, and I had we appetite and could not eat. I grew so weak I could hardly drag myself alone, and my feet seemed to have weights on them. I was so completely run down that I thought I was going into consumption.
