GRAHAM

“ IF YOU could visit a man, who, for seven lean years, had lain on an invalid's bed—scarcely able to move and able only to distinguish night from day; if you could hear from him the story of how, in the flush of a successful Christian ministry, he felt disease slowly, slowly, insidiously creeping on him, stiffening a joint here, a muscle there, combated by medical science, yet gaining always,—if you could visit this man and find instead of a morbid invalid an optimistic *man*, alert intellectually, talking cheerfully of the value of *altruistic* thinking, firm in his faith in the average man, keenly interested in and commenting acutely on world movements, and consecrated to God as few men are, wouldn't you consider it a rare visit and much worth while? Come. Here is William S. Cochrane's book and his life story as we have outlined it. Read it, this human document, and ponder over it, wonderfully. ❀ ❀ ❀ ❀
