

TUESDAY MORNING

RECENT HAPPENINGS
IN PORCUPINE CAMPMiners Fighting Forest Fires—
First Passenger Train to
Frederickhouse.

E. A. Sutton, correspondent of Scott, Dawson and Paterson, in the Porcupine, wires under date May 21.

Four core drills are now running on the West Dome vein; they are cross-cutting it from the foot wall side; one hole now down 400 feet. They will tap the vein at about 750 feet of vertical depth. The inclined shaft is down 60 feet, and the latest orders are to make it the deepest hole in the camp in a hurry. Messrs. Timmins, McMartin and Dunlop are in conference at an impending big deal are prevalent.

The Standard gold mines are down 60 feet in their No. 2 shaft, which is being sunk on a contact between schist and porphyry. They are following a pay chute in the porphyry about six feet wide, which it is stated averages \$33 per ton to a depth of 25 feet, where it dipped out of the shaft at 100 feet. The cross-cut will be run to it and drifting commenced, to determine its length. Another vein on the south claim, apparently in a shallow, is reported to average \$12 for some distance on the surface.

Upon the completion of date of the 200 feet of drifting at the 100-foot level on the main vein of the Viper, there is no diminution in width or value.

Delay may be expected in the completion of the power plant at Sandy Falls. The dam, which was built supposedly on hard pan is leaking badly and bed rock will have to be reached. The first passenger train was run yesterday over the Porcupine branch of the T. and N. O. to Frederickhouse River. Passengers changed at Kelso immediately upon arrival and were landed at the river at 11 o'clock at night. There is a stopping place there and launches leave early in the morning for Hills. A track has been laid five miles beyond the Frederickhouse River.

Big forest fires raging all thru the Porcupine district since early this morning, and a 50-mile an hour easterly wind has been blowing in a northeasterly direction, and many serious fires at the mines are reported, but it is impossible to determine the extent of the damage because of the destruction of the telephone lines. Arrivals from the Standard Mines, Porcupine Imperial and West Dome say that the early buildings of the mines are in danger. Latest reports from the Dome Extension and Foley-O'Brien are that all the miners have been ordered out to fight the flames, which threaten on all sides. The Town of South Porcupine has had a narrow escape, and even at the present time it is impossible to say whether it will be saved. All of the guests of the King George Hotel have moved out and the majority of them have taken their baggage across the lake in the launches.

Counter fires are being set and bucket brigades are doing valiant service. Some small stores at the western extremity of the town have been completely consumed and a dark pall of smoke hangs over everything. The hospital at Golden City has been destroyed, but there is no danger of a slight possibility of any further damage at the north end of the lake. A wild game is blowing across Porcupine Lake, and the launches are having a difficult time in transporting more than a few passengers at a time. The greatest excitement prevails and it is a loss up whether South Porcupine can be saved.

A PROPER PORCUPINE

the lots to the public, the townsite management figure that the south and west of Tisdale are to grow and become important as a mining town, and that this property, thru its proximity to the railway station, and general situation as regards the most important mining property, will become the centre of the town which is bound to grow up at the south end of Porcupine Lake. The elevation on the south end of the lake is located could not be more ideal, as it passes from east to west for a distance of a mile, and spreads out to the south for a half mile.

In a short time motor launches may run up the river from Porcupine Lake to the townsite. The Townsite Company's office. The entire front that borders on the lake is to be chopped down and burned, giving a good view of the entire lake. Now, a cool breeze shows its effect, and undoubtedly there will be no more enjoyable spot on the entire lake than on the south end of the Porcupine Centre townsite elevation.

A Good Place to Live.

G. M. Rounds, formerly with the Porcupine Development and Improvement Co., the holders of the lots in old Porcupine City, is the agent on the ground.

In speaking of the work so far done in making the townsite presentable, Mr. Rounds said to The World: "The main road that runs along the boundary line of Whitney and Tisdale, is to be chopped out, cleared and burned at once. This road is the only route into the townsite from the north, and also into the northeastern part of Deloro, where the mines are now operating. Following this work, the road to be chopped and cleared, and then corduroyed. And, with the road open from this townsite to the West Dome Mines, that whole section of Tisdale and Deloro will have an outlet to the railway. Workmen will be able to live in this section, removing all the lumber from the mines. It will mean more comforts for them all round; public are buying lots in this townsite at from \$100 to \$700 per lot. An important lumber company has bought a block of lots adjoining the railway, and will make this their distributing centre for the mines."

Twin City Earnings.

For the second week of May the earnings of the Twin City Rapid Transit Co. were \$143,652, an increase over the same week last year of \$204, or 2.76 per cent, and \$1,716 over the corresponding period of 1909.

BEAVER CONSOLIDATED

TO STOCKHOLDERS OF THE BEAVER CONSOLIDATED COMPANY, AS WELL AS
OTHERS WHO ARE WATCHING THE MAKING OF A BIG MINE OF THE COBALT
CAMP.

WITHIN THE PAST WEEK there have been two strikes on Beaver Consolidated property, both of which are of tremendous proportions. In fact they have been such momentous as to warrant interests closely identified with the company to express the belief that Beaver Consolidated is due for a rise to around \$1.50 a share. The finds were made in the main, of No. 5, vein. The first was on the 350 level, where an 8-inch vein running 5,000 ounces of silver to the ton was encountered, and the strike proved conclusively that exceedingly high values ran through the entire four levels, or directly from the surface. The second was in the slope above the 200 level, where a vein running from 8 to 12 inches in width, carrying 7,000 ounces to the ton, was encountered.

THERE are many holders of Beaver Consolidated who have bought stock above prevailing quotations, but who have been patient, and confident in the future of the property. We advise that those holders do not sell their stock for small profits, as the advance in the Beaver carries the market price above the original purchase price. This is only the beginning of Beaver's prosperity. At the present time the management is opening up the rich ore bodies at deeper levels, and that their efforts to add tremendously to the reserves will be rewarded there is no doubt in the minds of those who are in close touch with the property. Remember, it is the patience that has been exercised by the mine to the stage it is their confidence in the management of the company, that has brought the mine to its best to-day. The present management is conservative as well as aggressive, and is exerting its best efforts to make Beaver Consolidated a giant of the Cobalt camp. We are of the opinion that what has been done already on the Beaver will not only sell at a higher price than has ever been recorded, but that it will be one of the most generous dividend payers of the camp in the near future. We also recommend new commitments in the stock, both for an increase in market valuation and for generous dividends.

A FULL REPORT OF BEAVER'S FINANCIAL AND PHYSICAL CONDITION, COVERING 2,000 WORDS, WILL BE MAILED TO ALL INTERESTED FREE UPON REQUEST.

HALF A MILLION DAMAGE
AT PORCUPINE MINESHollinger Loses \$300,000—Will
Rebuild at Once—All Fires
Out Now.

PORCUPINE, May 21.—(Special.)—Panned by a wind blowing forty miles an hour fire swept over the Pearl Lake section, destroying nearly half a million in property. The dynamite magazine on the Hollinger property exploded. The estimated losses are as follows:

Hollinger, total loss, \$300,000; Pearl Lake Gold Mines Office, storehouse, small buildings and cordwood, \$15,000; McIntyre office, bank house and north power house, \$50,000; all other business places safe; Pearl Lake settlement and other small houses, \$15,000; stores and other houses, \$15,000.

Noah Timmins and John McMartin are here and announce that the Hollinger will be rebuilt at once. Six months will be required to do the work. It was also decided to build a standard gauge of corduroy from the end of the railway line to the Dome-Hollinger plant, over which mine machinery will be taken. The work starts tomorrow. Timmins, McMartin and Engineer Robbins are on their way out to place an order for machinery.

Heavy rain last night checked all work. The Dome and West Dome sections are entirely safe. No other damage in the district is reported, except that the telegraph and telephone company wires suffered badly in places.

A NEW REA IDEA.

It was announced from New York yesterday that the inside broilings between the inside interests in the Rea Consolidated Mines Co. has been amicably settled, and that the whole difficulty has been successfully cleared up. A block of 20,000 shares of the stock has been thrown on the market by one of the promoters, who has been chiefly concerned in the friction among the insiders, and this has been responsible for the sharp decline of the last few days.

In yesterday's market several big lots of the shares were put out, and under the New York out, and the price dropped back to \$5.48, but a sharp rally occurred, and as support was rendered, and the stock sold back to six dollars in short order.

The passing of the Rea difficulty will do much to clear up the market situation.

SCHOOL CHILDREN WILL
CELEBRATE EMPIRE DAYHis Excellency to Review Cadets'
Parade From Steps of Parliament Buildings

Empire Day in Toronto will be celebrated in the usual manner by the decorating of monuments and a parade of public school cadets in Queen's Park this afternoon.

The parade of flower companies and cadet companies will be the largest on record. The 4th Highlanders will form a guard of honor for His Excellency Earl Grey.

His excellency and party will view the parade from the steps of the parliament buildings, and afterwards the ten battalions will march past his excellency on the university lawn. The monuments will be decorated before the march past. The flowers will be received at the monuments by the following gentlemen:

1. At Queen Victoria's monument, by His Excellency Earl Grey, Mr. Leveson, Mr. Conboy.

2. At Governor Simcoe's monument, by the Hon. Dr. Pyne, Mr. W. W. Hiltz and Mr. J. W. Jackson.

3. At Sir John A. Macdonald's monument, by Mr. W. W. Hodgson and Dr. Mackay.

4. At the Honorable George Brown's monument, by Mr. W. O. McTaggart and Mr. W. H. Shaw and Mr. W. Dineen.

5. At the monument to the volunteers who fell at Ridgeway (1866), by Mr. A. Wheeler, president of the association; General Cotton, Mr. C. A. B. Brown and Mr. A. G. Lewis.

6. At the monument to the volunteers who fell in the Northwest rebellion (1865), by Captain World, Mr. R. D. Fairbairn, and Mr. F. B. Hartney.

7. At the monument to the volunteers who fell in the Northwest rebellion (1865), by Mr. R. D. Fairbairn, and Mr. F. B. Hartney.

8. At the monument to the volunteers who fell in the Northwest rebellion (1865), by Mr. R. D. Fairbairn, and Mr. F. B. Hartney.
