Deadly Missiles Shower in City Streets

1000 Extra Police Go On Duty To-Day

ONE MAN KILLED BY A STONE AND SCORES ARE INJURED

Chicago, May 2.-(Special to the World.)-Rioting and bloodshed in all parts of the city, resulting in the death of one man and the injury of scores of others, marked the progress of the teamsters strike to-day. While the strike did not spread to any new establishments, the mobs seemed to throw all restraint to the winds, and attacks were made on non-union drivers with a recklessness that stunned the police.

Mayor Dunne has ordered the swearing in of 1000 additional police from the civil service list, who will be on duty to-morrow, making a total of 2700 men on strike duty. Fears are expressed that even this force will prove inadequate to cope with the lawless element which gathered in the wake of the weapons of the Employers' Teamsters Company.

State-street merchants to-day demanded of the mayor that police protection be furnished their drivers, as they intended to make deliveries of goods to-morrow at all hazards.

Federal injunctions for each of the seven railway express companies were granted by Judge Kohlsaat to-day, and to-morrow United States marshals will begin to serve processes on nearly 100 persons citing them to appear and show cause why they should not be punished for contempt in violating the federal injunction issued by the court of the Employers' Teamsters Company.

ROCKS FLY LIKE HAILSTONES

Hundreds of men are pouring into the city hourly to take the places of strikers, and two of the most serious riots to-day are traceable to this cause.

About 200 negroes arrived from Kansas City, and while they were being escorted to the non-union headquarters they were attacked by a mob, with a desperate battle was waged between the mob and the non-union men, and police and private detectives guarding them. Rocks flew thru the air like hail stones, shattering the windows on both sides of the street.

It was in this riot that Charles Beard was struck on the forehead with a stone and killed. The non-union men were hurric into a cold storage building at Rush and Michigan-streets, while the police stood guard with teamsters' strike to-day. While the drawn revolvers till reinforcements arrived.

SCORES OF SHOTS FIRED

Another fierce battle between a mob and non-union men took place near the non-union headquarters at 305 State-street. For a time the police battled with the mob, and scores of shots were fired. An accurate list of those injured could not be procured, as dozens of men, who were not seriously injured, were taken away by friends.

An ambulance was called to take away those seriously injured. Shooting was also resorted to by colored non-union men to-day at Harrison-street and Wabasha-avenue. Three wagons being driven south on Wabasha-avenue were surrounded by a large crowd, who threw sticks, tiling, broken bottles and other missiles at the drivers and guards. F. E. Carter, one of the colored guards, drew a revolver and shot Henry Schultz in the left side.

Schultz ran for half a block, when he fell. The crowd closed in on the non-union men. Altogether more than scores were fired, the men were beaten fearfully. Seventy policemen dispersed the crowd with vigor.

ARMED MEN ON WAGONS

Crowds of pedestrians riding on the sidewalks to-day and watched the unusual spectacle of armed men on wagons. The Frank E. Scott Transport Company sent out ten of its wagons to-day, with one man driving the horse and another sitting by his side with a rifle in his hand.

With the strike gathering in force each day, rumors that there was a serious division among the employers could be heard, although they were promptly denied by the employers themselves. That the employers have failed to drag the transfer companies into the controversy, however, is certain.

TEAM OWNERS NOT IN IT

The Chicago Team Owners' Association, employing 6000 truck drivers, held a meeting this afternoon and refused to go to the aid of the big merchants of the night. They will stand by their union drivers, and not ask them to deliver goods to any of the stores now on the strike list.

AUTOMOBILISTS ELECT OFFICERS

W. A. Kemp is President-International Licenses Discussed.

The Toronto Automobile Club's officers for the ensuing year were elected at the King Edward last night. The meeting discussed the question of international and inter-provincial licenses, which are designed to prevent the nuisance of being compelled to take out new licenses on leaving the boundaries of the province, and the directors were asked to report on the matter.

The officers are as follows: President, W. A. Kemp; vice-president, M. C. Elliott; secretary-treasurer, F. W. H. Hall; John C. Egan, John J. Parker, S. Frank Wilson, J. J. Main, Cromwell Gurney and Dr. P. E. Deolittle.

MAN SHOT AND ASSAULTED AT VERY HEART OF CITY

Presbyterian Minister Accused as Strike Breaker—Hundreds Witness Violence.

Chicago, May 2.-(Special to the World.)-The mob which gathered at every opportunity, met being shot down within 200 feet of the police station in the heart of the city, on the corner of the Auditorium Hotel in plain view of hundreds of women, who were compelled to run from the mob and save their own lives. In many instances men walking along the streets, who had no active connection whatever with the strike, were assaulted by the hoodlums, who beat them with sticks, after accusing them of being strike-breakers.

A notable instance of this kind was that of Rev. W. K. Wheeler, pastor of a Presbyterian church, who while on his way to the Pennsylvania depot was attacked by three men, who knocked him down and beat him until the police rescued him. One of the assaults was made while at work in a lunch room a mile from any former scene of rioting, was accused of being a strike breaker. He was pounced on by the mob, and was taken to the hospital, where his injuries were pronounced severe. Besides these 30 others were injured. Three on the list of injured are police.

A. S. Utley, floor manager for Montgomery, Ward & Co., who has been active in the interests of the firm since the commencement of the strike, was attacked by three men, who think that he had been following him for several days, while passing a vacant lot. They knocked him down, kicked him about the head and face and then escaped.

FORGED CHEQUE ON TORONTO BANK

German Ne'er-Do-Well Also Invented Local Firm.

New York, May 2.-(Special.)-Representing himself as E. Ruch, son of the senior member of the lace-making firm of Ruch & Sporbach, Barmen, Germany, a young German was held to-day on a charge of passing a forged cheque, which was given to Ernest Miller, last Friday, after banking hours, he asked Mr. Mechbach, a representative of Ruch & Sporbach, to cash a cheque for \$40, drawn upon the Bank of Commerce, Toronto, which bore the signature of the Toronto Lace & Braid Manufacturing Co. Mechbach telephoned the National Trust Bank and the cheque was cashed there. It was in this riot that Charles Beard was struck on the forehead with a stone and killed. The non-union men were hurric into a cold storage building at Rush and Michigan-streets, while the police stood guard with teamsters' strike to-day. While the drawn revolvers till reinforcements arrived.

TOGO'S STRANGE ABSENCE IS CAUSE OF ROMY'S HAIR

Russian Admiral Afraid to Leave China Sea Last He Stumbled Into Nest of Hornets.

Hue, Cochin China, May 2.-(Special to the World.)-A French despatch boat arriving here in quick succession with official advice for the foreign office in Paris, report sighting Japanese ships in the South China Sea, off a point 43 miles north of the Kamran Bay, and the Russian ships were seen between Cape Auricia and Perforated Rock, and were standing out to sea, but going at half-speed. It was believed that Admiral Togo's movements are confounding the Russians in their short but up and down contest with the Japanese, who are showing a hand in any particular. It is not even known whether Togo is in the Philippines, it is also there is a growing impression that Admiral Togo is making an opportunity for a dash at the Russian fleet, and that he is making a dash as possible to the weaker vessels of the Russian fleet.

Admiral Togo has massed a strong force at Formosa to cooperate with Kammura in the most widely accepted opinion as to his present disposition.

NORTH TORONTO CONSERVATIVES

Newly Formed Association Takes Over Work of Ward Organization

The North Toronto Conservative Association met in Simpson Hall last night and adopted the new constitution with the exception of the last clause, which provides that no amendment shall be made except at an annual meeting. A resolution to adjourn the meeting for a week, in order that a larger number might be voted at the election of officers, was ordered at the election of officers, and the meeting was adjourned.

The following resolution, moved by William McCutcheon and seconded by John Harris, was carried:

"The North Toronto Liberal-Conservative Association hereby expresses its belief that the best interests of the party will be served by the assumption of other organizations and that permanent local self-government are earnestly to be desired, and, therefore, this association hereby pledges itself that from this date it will select delegates for conventions, nominate candidates, conduct elections and do all such political work as circumstances may require within the confines of the electoral division of North Toronto." Ward 3 members were elected: President, Dr. G. Sterling Hyerson; vice-president, W. H. Stewart; Secretary, W. D. Seymour Corley; Ward 4 Chas. Elliott; Ward 5 Dr. Close; Secretary, J. A. McElvaine; Treasurer, William McCutcheon; Executive, Dr. Phillips; W. D. Goddard, M. Rawlinson, A. H. Birmingham, A. H. McConnell, J. Harris, S. Blackburn, Chester Dies, F. J. Scott, Edward Troubridge and seven to be elected at a subsequent meeting.

SEEDLESS APPLE HAD A CORE

It Also Had Unusual Pips—Called a Canadian Fraud.

(Canadian Associated Press Cable.) London, May 3.-(Special.)-The seedless apple, for the propagation of which there is said to be several nurseries in Canada, has been pronounced a fraud by the crown experts. Messrs. Shearn purchased a pair of seedling apples from a grower in Ontario, and sent them to the King Kipples, who challenged them to open theirs. This was done by sawing them in two and found to contain just as many seeds and indeed a larger core than the most apple.

The Shearns state they will bring action against the firm for misrepresentation of the apples.

TEN PAGES—WEDNESDAY MORNING MAY 3 1905—TEN PAGES

A SERIOUS LINE DISPUTE.

HOUSE DIVIDES TO-NIGHT WITH FORECAST 145-60

PREMIER HAS PLAYED BOTH HIS PARTY AND HIS COUNTRY FALSE

(Canadian Associated Press Cable.) London, May 2.—Herman W. Marcus, editor of The British Empire Review, writes to The Daily Chronicle expressing surprise at the "audacious and misleading statement" made by Senator Fulford in his previous letter about the education crisis in Canada. Mr. Marcus says the crisis is portentous, and, in fact, has shaken the stability of the government to its foundations, since the premier minister has completely gone back upon his own word and played both his country and his party false.

WANT PEDAGOGIC CHAIR IN TORONTO UNIVERSITY

President Loudon Will Recommend That Hamilton Normal College Be Transferred to Toronto.

The suggestion of John Seath regarding the qualifications, in a letter to The World, is very largely shared by Principal Loudon, president of Toronto University, who has expressed the opinion before and is still of the same idea, that "all teachers should pass a state professional examination." In regard to the suggestion that a university degree should be the qualification for a assistant teacher in the high school, he says "that would be a step in the right direction." Of the scheme to have at least part of the professional work taken up during the undergraduate years, he says "that could be done if there was a chair of education at the university. Prospective teachers would then take up in advance some professional work." Principal Loudon's report has been handed in to the government and is being printed. In this report he advocates the establishing of a chair of education in the university. This means that during their course of study students could take a certificate in education, a privilege which all the large universities on the continent afford their students. At present there are lectures given in the Normal College at Hamilton. Prof. Loudon in his report advocates that this college be transferred to Toronto, where it might be joined with the university. The University Act provides for a chair of education; but it has never been filled. As a result, the history of education, methods of teaching languages and science are not taken up at the university. The Normal College at Hamilton only a technical work and the practice of it in connection with the high school, which would be greatly to the advantage of students and the college if it were in connection with the university. The students would then have the privilege of attending the university lectures in any department in which they were deficient in some branch. He believes that instruction should not be merely pedagogic, but should be general, and that the German system of general education should be introduced in the college students and high schools of the country to gain experience in teaching a good one, but, he says, there should be no difficulty in finding room for them in the collegiate institutes and high schools of the city.

"I Know Those 12 Men Won't Hang a Girl on Oratory"

—Nan Patterson

Case Goes to Jury This Afternoon—Attorney Rand Says Defence is Based on Fabrications.

At the close of the argument to-day, the Prosecuting Attorney Rand had arranged her in the most scathing terms, had said her silence in this trial was a confession of her guilt, had declared that her sister had lied on the stand, and that her counsel had based his plea for her life on a foundation of fabrications. Nan Patterson said she still felt confident the jury would bring in an early verdict of acquittal.

Dynamiter is Luckily Foiled

or Lives Would Have Been Lost

Daring Attempt Made to Destroy Mine Buildings at Roche Perce, Assa., Only Partially Succeeded Thanks to Manager's Vigilance.

Winnipeg, May 2.-(Special.)-A dynamite outrage, which was partially successful, was attempted at Roche Perce, Assa., last Wednesday night, when some desperate individuals tried to blow up the buildings of the Roche Perce Mining Company. The dynamiter was discovered before he had time to properly ignite the box in which the explosive was placed, and this saved the works from complete destruction.

FORGET IN LEVIS.

By-Election Will Probably Be Brought on Once.

Ottawa, May 2.-(Special.)-It is very probable that the government will bring on the by-election in Levis without delay. It is said that the Liberal candidate will be Dr. Forget, who represented that constituency many years ago in the house of commons.

NEED BRITISH IN WEST.

(Canadian Associated Press Cable.) London, May 2.—R. Whittaker, who is traveling in Canada as an emigrant and writing a series of articles to The Standard, says in large numbers to the Northwest to assimilate the foreign element, otherwise the future population will not be predominantly British.

MRS. MARCHEM DEAD.

Montreal, May 2.-(Special.)-News comes from St. John, Quebec, of the death of Mrs. Marie Hersebe Marchand, wife of the late Hon. F. G. Marchand, the late prime minister of Quebec.

TO-DAY IN TORONTO.
McMaster Alumni. Discussion on federation. Women's Auxiliary—Annual meeting at Guild Hall, 2:30.

Redstone High Pressure Packing

ONE CENT

THE INTRODUCTION OF HON. FRANK OLIVER YESTERDAY LEADS TO FURTHER CHALLENGE TO GOVERNMENT TO OPEN SEATS.

MACDONELL OF S. TORONTO WILL SUPPORT AMENDMENT

Ottawa, May 2.-(Special.)-The end is at hand. To-morrow the debate on the second reading of the autonomy bills makes its last gasp. Then comes the division, just about the time the hands of the house clock are hovering round the witching hour of midnight. Then all will be over but the inevitable Liberal shouting. There have been many wagers laid around the lobbies regarding the probable size of the majority. The general impression is that it will figure around the ninety mark, although several sporting bets have been made that it will be less than eighty-five. Taking everything into consideration, it would appear that eighty-five is a fair estimate of the majority in favor of the proposed legislation. The World man figures it ought to result as follows:

In favor second reading.....145
Against.....60
For Borden amendment.....145
Against.....60
Majority for and against.....85

The house is kept up to the highest pitch of anticipation to-night. Nine Conservatives from Quebec are expected to vote in favor of the bills, and two from Ontario (Pringle of Stormont and Lewis of West Huron). The vacancy in Levis, owing to the death of Mr. G. H. Levesque, and the absence of Messrs. Logan, Greenwood and Sutherland will pull down the Liberal vote. The members to speak to-morrow are Hon. Charles Fitzpatrick, Mr. Baker (Hamilton), Mr. Maclean and Sir Wilfrid Laurier. The attendance to-night is large, and the division on the second reading of the most important legislation since confederation is being attended by more than customary interest.

Enter the New Minister.

Before the orders of the day were directed in the house Mr. Brodeur, who asked the government when the vacancy on the supreme bench of Nova Scotia would be filled, told the minister he had received no complaint on the subject. This did not mean, however, that the vacancy would not be filled.

Hon. Mr. Brodeur, minister of inland revenue, has assumed the chair in his debate. He defended the bills on constitutional grounds and declared that in his opinion the proposed legislation would be a benefit to the country. He also stated that the minister of justice had received no complaint on the subject.

During the course of the day Mr. Brodeur's speech Sir Wilfrid Laurier, who is expected to speak to-morrow, appeared. A few moments after he appeared, in his opinion, the minister of justice should have taken the opportunity to state that the bill of the opposition that the government dare not open a constitutional issue, was a challenge to the government to open a constitutional issue.

Mr. Brodeur's speech was well received, and he was well supported by the opposition. He stated that the minister of justice had received no complaint on the subject.

There is a greater interest in the debate than there is to be seen in the galleries. This is because of the fact that something was doing in the house.

There is a greater interest in the debate than there is to be seen in the galleries. This is because of the fact that something was doing in the house.
