ROCHESTER MEETING.

Te annual meeting of the Rochester Cobalt Mining Co. was held yesterday afternoon at the offices of the company, 15 Toronto-street. Only regular busi ness was transacted.

The statement presented showed a balance of about \$40,000 in the treas-\$00,000 shares issued recently. The old board of directors were re-elected.

WIRES ARE DOWN.

On account of the severe storm on Monday all telegraph wires into Cobalt are down, consequently it was impos-sible to get into communication with the mining camp yesterday. This had a tendency to curb business on the local exchanges and the listless tone which characterized dealings was in some measure due to this factor.

VALUABLE PROPERTIES

Mr. Fraser Offers Immediate Profits.

The big values shown in the Gillies limit have already been more than de-monstrated by the celebrated Wald-man property, and the Yonge and O'-Brien claims. Previous to the uncovering of values on the above two pro-perties, the Gillies limit received litthe attention from mining men, but at the present time more interest is on the trail)—The tendency of Elik City at the present time more interest is being drawn to this district than to being drawn to this district than to perhaps any other section of the camp, unlike any other community of equal the president of a big mining company, who despite his min-It is somewhat peculiar that this part of the camp, which is only about one now W. To one in whose mind remained this vhait dismal picture of a year ago the Esk City of 1909 came as a revelation. Darkness had fallen short-ly after the steamer cleared from Mountain Chutes. Soon the lights could be seen ahead, strong lights that shone decisively in the black setting of the night. It was perfectly clear to me when three miles down the river that Elk City had found new illuminants. The city seemed to spread itself out to the east and west like a blazing fan which cast a grotesque mirage of flame into the water. Lights tively supplementing the religious 43 Scott St. the blackness of the night, was an impressive sight in this country where contrasts heighten the tone of every impression.
