NEW YORK, Dec. 24.-New York went home early to-day bundle-laden The People's Institute and happy in the prospects of the merriest Christmas in many years. Yule-tide for the past two years was affect-ed by the panic of 1907, but this year's celebration was clearly indicative of the better industrial conditions.

Wall-street made a record marks this year for generosity. The stock exchange to-day distributed a purse of over \$11,000 among the employes. The banks and trust companies were good to their working forces. The Central Trust Co. gave each of its employes 50 per cent. of his annual salary, while numerous other companies gave their men a 25 per cent. bonus.

The mayoralty struggle will be officially resumed Monday night, when Controllers Hocken and Geary will hold several meetings. The pace has been warm and both are glad of the holiday truce,

During a mayoralty campaign, so say students of municipal affairs, tides of public sentiment seem to ebb and flow. From apparently reliable sources comes the information that the present outlook is that both Joel Marvin Briggs and Robert Buist Noble are in serious danger of defeat.

This is a condition (or disease) to which doctors give many names, but which few of them really understand. It is simply weakness—abreak-down, as it were, of the vital forces that sustain the system. No matter what may be its causes (for they are almost numberless), its symptoms are much the same; the more prominent being sleeplessness, sense of prostration or weariness, depression of spirits and want of energy for all the ordinary affairs of life. Now, what alone is absolutely essential in all such cases is increased vitality—vigour.
