TUBE REPORT AND RECOMMENDATIONS.

Messrs. Jacobs and Davies' report on the proposed tube system, in so far as it deals with the technical matters submitted to them, is entitled to full consideration. This will, in due course, be given, but it may meantime be remarked that the recommendations made not only ignore the special circumstances created by the refusal of the street railway company to extend into the annexed districts, but presume that the determination of the city to resume its transportation franchise, is wrong in principle. On this point the advice of Messrs. Jacobs and Davies was not asked, and it embodies a matter of policy upon which their opinion has no expert value. They have no doubt been influenced by United States conditions, and looking to the rotten character of civic government in the republic, they may have a measure of warrant in pronouncing against public operation. But on this point Toronto will be inclined to take its lead rather from the United Kingdom and the progressive British states of the southern hemisphere. Certainly, after their experiences with the street railway company they would be foolish, indeed, were they to refuse the opportunity to regain independence and commit themselves for an extended term to its tender mercies.

DRY SWEEPING NUISANCE.

Dry street sweeping is the most pestilential process long-suffering citizens have to put up with.

With a single eye to their work the sweepers up Yonge-street, north of Bloor, throw great force into their sweeps, and whether the wind is blowing the sweepings into the throats, the mouths and the lungs of persons waiting for a car or not, the sweepers keep on sweeping.

Again, the Yonge-street shopkeeper who dry-sweeps the pavement in front of his shop at 8.30 or 9 a.m., just when pedestrians are thronging the street on their way to work, is a pathetic germ-breeder, and that is terrific.

Dry sweeping, in fact most of the sweeping and the cleaning of our streets, should be done at night or in the early morning hours. Citizens should not be put out by unnecessary dust-raising. Besides dry-sweeping during the hours when citizens are on the streets in numbers, is unhealthful. Citizens were not made for the sweepers, but the sweepers are employed for and by the citizens.

THE CITY BATHING STATIONS.

Now that the season is about to close notice may fitly be taken of the remarkable success attending the city bathing stations. Every credit is due Commissioner Harris for the admirable manner in which these have been conducted and for the arrangements for the benefit of the crowds of young people who have taken advantage of the opportunities afforded. The only accident that, unfortunately, occurred was shown to be the direct result of disobedience, and considering the difficulty attending close observation of a throng of lively juveniles, the record for the summer must be classed as highly satisfactory. Commissioner Harris showed good judgment in selecting the supervisors, and they have justified their appointment.

The season on the bay has again been marred by many fatalities, some no doubt under circumstances that precluded chance of escape. But many might have been avoided by more careful handling of boats, or had the victims been swimmers of moderate skill. The World hopes the day is soon coming when that invaluable art will have been acquired by everyone who boats or bathes in Toronto waters. Boys and girls learn quickly how to swim and the city council will act wisely by developing still further along the lines that have proved so beneficial and erecting more swimming baths throughout the city. The success of the bathing stations was aided by the free car service and acknowledgment is due Mr. R. J. Fleming for its provision.

JACK JOHNSON COMING.

Jack Johnson himself, undisputed heavyweight fighter of the world, will be with next week's attraction at the Star Theatre.

It can be taken for granted that the theatre will be packed twice daily.

Another Cook Arrested.

Steven Dalrymple, head cook on the R. & O. steamer Kingston, was arrested yesterday charged with theft of provisions from the boat. This is the sixth arrest in this case. Dalrymple objected to the arrest, saying he had paid \$50 to the chief cook not to prosecute. This will be enquired into.

By the direction of His Grace Archbishop McEvoy, a collection will be taken up in all the Roman Catholic Churches of the Toronto Diocese during the month of October, the money to be used for the education of young men to the priesthood.

BREAD DELIVERY LABOR DAY

Owing to Labor Day coming during the extra rush of Exhibition, we find that we will be unable to make sufficient bread to supply our customers till Tuesday, and have, therefore, decided to send out all our bread wagons as usual on Monday. Our wholesale cake wagons will not go out, and uptown retail stores will not be open on Monday.

MON. W. J. HANNA DEFENDS DOWNEY APPOINTMENT

Says That Reorganization of the Orillia Institute Will Satisfy the Doubting.

Hon. W. J. Hanna, provincial secretary, returned yesterday from his vacation on the western coast. His trip happened to follow more or less the route of the Laurier party, and Mr. Hanna in his humorous manner remarked that in most of the places they left the bunting up until he had passed thru.

The trip was a pleasure trip and the provincial secretary had nothing to say in regard to any of the questions at the present time creating interest in the west, but when asked as to the criticisms of the appointment of Mr. Downey as superintendent at Orillia, he said:

"We some time ago decided on a reorganization of the Orillia Institution, our idea being to place a layman in charge of the general administration of the business of the institution; and with him to place a medical director with a suitable assistant, the two medical men to devote themselves exclusively to the scientific side of the work. We have in mind for the position of medical director a man who is perhaps as well qualified for the position as any man in the province. His heart is in the work, and he has given special attention to what is being done in the best institutions elsewhere, and he will enter upon his duties well prepared."

"In adopting this reorganization we are but following the organization found in some of the best institutions of the world over. I refer particularly to two of the very leading and most modern institutions in England for the treatment and care of the feeble-minded—one located at Sandbridge (near Manchester), and another at Starcross

(near Exeter), each presided over by a layman with a medical officer and staff in charge of the medical treatment of the patients.

"In the United States there are several similar institutions and was succeeded over by laymen. Prominent amongst these is the well-known institution for the feeble-minded located at Newark, New York, with an average population of 600 patients. We are confident of getting the very best results from the new organization.

Some Nearer Home.

"It may be of interest to those who would criticize to know that of the many general hospitals in the province, with permanent general superintendents, but five or six have appointed medical men. Some of the best have laymen as general superintendents. The General Hospital in London, Ont., and has a layman as superintendent. I believe that the Royal Victoria Hospital at Montreal, as well as a layman as general superintendent. You know it is on record that a former editor of the Globe, Mr. Dymond, was appointed superintendent of the Brantford institution for the Blind, and was succeeded in that position by the editor of the Hamilton Times. In the case of the institution for the Deaf and Dumb at Belleville, K. Matheson, a former Liberal editor, was appointed general superintendent. I am not aware that these appointments were criticized by any section of the press.

Results Will Show.

"I shall be content to refer to the institution itself, as it will be in twelve months from now, as determining the wisdom of the reorganization and of Mr. Downey's appointment. It is understood that Dr. Herriman, assistant superintendent at Toronto Asylum, may be appointed as medical expert at the Orillia institution."

A PLUCKY BOY.

Walker Rockwood, a small boy from the Mimico Industrial School, fell at noon at the model playground at the exhibition grounds and broke both forearms. Dr. H. L. Smith of Detroit and Dr. Pollett fixed him at the emergency hospital on the grounds, and shortly after one o'clock he was out on the grounds again, enjoying himself.

Each organ is marked at a fraction of the original price, and all are guaranteed in first-class condition, having been thoroughly overhauled before they are put out for sale. The early removal of Heintzman & Co. to their new warehouse, 193-197 Yonge-street, makes this clearing imperative.

WINNIPEG STANDS FIRST

Displaces Minneapolis as the Largest Wheat Market on the Continent.

WINNIPEG, Sept. 1.—(Special.)—The figures of general reports at Winnipeg show that this city is now the largest wheat market on the American continent, displacing Minneapolis, which has held the leadership for a long time.

For the crop year, ending last night, receipts were 83,263,330 bushels. Figures for the same period at Minneapolis are not available, but for the calendar year ending December 31 last receipts were 81,111,310 bushels. During the past few months there has been a falling off in receipts at Minneapolis, while deliveries at Winnipeg have continued to increase. Buffalo and Duluth still rank high in the list, but old time grain centres like Chicago, Kansas City and Milwaukee are dropping down. In case Winnipeg is easily the largest market outside of Chicago. Receipts were 30,838,900 bushels. New York came next with 22,117,662.
