FLORAL EXHIBITS

Expert Gardening Are Seen This Year.

WOMEN LIKE FLOWERS

One of the Buildings Most Visited by Lovers of Beauty.

Women naturally converge to flowers and those at the Exhibition are no exception to the rule, consequently where the horticultural display is spread out to the eye of the spectator in gorgeous colors and wonderful growth, the women are much in evidence.

Year after year Canadian flora shows development and the beautiful products of many varieties are this year shown in especially fine varieties. One of the handsomest exhibits ever produced by Toronto gardens is that of a large plot of caladium from the conservators of the Manual Fronties of the Ma servatories of Sir Henry Pellatt, the great pink and green leaves of many shades alternated with delicate maienhair fern being much admired.

A display by the Reservation Fark of the city delights young and old, the children calling it a "darling" and the elders appreciating its many artistic points. It is a model for a decorative bit of landscape and includes a rustic bridge, a lily pond and a miniature birchbark house, and surrounding trees

South, In-

st, or Depot

In table decorations there are several arrangements to attract the femi-nine visitor. One arranged by A. H. Leake and designed by S. A. Frost was the loadstone that drew many eyes. The centre was of crichids and lily, bordering a miniature fountain in which the water rose from the mouths of white swans. The corners were ornamented by crystal vases holding pale pink and vellow bloom. The first prize was won with decor-ations in mauve and pale yellow in

PALE, WEAK GIRLS

Grow Into Weak, Despondent Women-How to Overcome the Trouble.

Healthy girlhood is the only path to healthy womanhood. The passing from girlhood to womanhood lays a new tax upon the blood. It is the overtaxing of the blood that makes growing girls suffer from headaches and backaches, from paleness and weakness and weariness, from languor, despondency and constant ill-health. Unhealthy girlhood is bound to unhealthy woma life of misery. Nothing but the blood-building qualities of Dr. Williams' Pink Pills can save a girl when she undertakes the trials and tasks of womanhood. That is the time when nature makes new demands upon the blood supply. Dr. Williams' Pink Pills actually make new, rich blood to meet these new demands. In this simple, scientific way Dr. Williams Pink Pills give growing girls new Pink Pills give growing girls new health and make their dawning womanhood bright and attractive. Miss A. Sternberg, Halleybury Road, New Liskeard, Ont., says: "I have New Liskeard, Ont., says: "I have much reason to be grateful to Dr. Williams' Pink Pills, as they restored me to health, if, indeed, they did not save my life. In 1914 I began to feel saye my life. In 1914 I began to leer run down, and the doctor who was called in said that mine was a bad I lost flesh, always case of anaemia. I lost flesh, always felt tired and I get so nervous that I felt tired and I get so nervous that I could searcely hold a cup to take a drink. My heart would flutter alarm-The dector did not seem to be able to help nie at all, and my family and friends all thought that I was in a decline and could not recover, 1 was in bad for some weeks when an aunt came to see me and urged that I try Dr. Williams' Pink Pills. My father got a supply, and by the time I had taken three boxes there was a noticeable improvement, and from that on I steadily progressed toward recovery. I continued using the pills for some time longer, and they restored me to my old-time health and strength, I shall never cease to praise this medicine, and to urge all weak, run down girls to give it a fair trial, as I have proved in my own case their great merit." You can get these pills from any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams Medicine Company,

PROCESS BUILDING A BIG ATTRACTION WHERE SHELLS MADE

Some Excellent Samples of Hun Destroyers Are Here Turned Out as in Real Factories.

MANUFACTURE GOODS

Other Lines of Intricate Work Are Illustrated to Public.

More interesting than ever before is the process building this year. War and its influence on Canadian manufac-tures is here reflected in the *plendid exhibition of the making of 18-pound shrapnel shells by the W. H. Bandeld Company.

In a large central space the heavy

In a large central space the heavy lathes and other mechinery weighing many tons have been installed, and crowds daily watch the skilled mechanics turning the dark rough eastings into the beautiful highly finished, intricate and deadly Hun destroyers. From the time the rough casting is picked up and cut to length, thru each step, planing, cutting to fine measurements, turning the nose, loading the shrapnel balls, to the correct weight, putting on the cap and painting the the shell, may be watched as it is passed from the hands of one skulled workman or woman to another, until workman or woman to another, until at last the bright delicate mechanism

at last the bright delicate mechanism has been inspected and painted and set aside for loading.

The number of operations and the fine judgment that has to be used by the makers as well as the almost human ability of the machines that perform the fine cutting and shaping. is a revelation to many visitors, who
