

WINNIPEG PAPER PRINTS LAST ISSUE

Telegram Amalgamates With Tribune—New Paper Called Winnipeg Tribune.

Winnipeg, Oct. 16.—The Winnipeg Telegram will make the following announcement in this afternoon's issue: "With this issue, the identity of the Winnipeg Telegram as such disappears. Its city and country subscribers will from this day receive The Winnipeg Tribune, which under an agreement completed last Thursday, takes over the plant and equipment of The Telegram, and its circulation lists as well. Every subscriber of The Telegram will be provided for."

"The transaction was rendered possible by the change in ownership of The Telegram, which took place on July 1 last. To The Telegram publishers it is a matter of sentimental significance that Mr. M. E. Nichols, the new managing director of The Tribune, was for a number of years editor of The Telegram."

BONNIE PRINCE CHARLIE'S SWORD IS NOW IN U. S.

Washington, Oct. 17.—The sword of "Bonnie Prince Charlie," worn by him at court, and one of the romantic blades of Scottish history has come to the United States. It is the gift of Lord Garloch, only son of the Earl of Mar of Scotland. Mrs. Clarence Crittenden Calhoun of Washington, one of the descendants of the house of Mar on her mother's side. The historic sword was delivered thru the British Embassy where it came in care of the ambassador, Sir Auckland Geddes.

The words of presentation which accompanied the claymore, declare it was sent "in view of the fact that it was for their adherence and loyalty to the cause of the Stuarts that the Earls of Mar suffered so greatly in their estates and fortunes that some of the family in exile sought refuge in America."

HIS WIFE AN AMAZON

New York, Oct. 17.—Samuel Latrunk, known on the vaudeville stage as Senator Francis Murphy, said, "his heart went out to any man who would dare place a finger upon his wife with menacing design," when answering a charge of cruelty preferred by his better half in a separation suit, recently. "She has a fiery and uncontrolled temper; is in excellent physical condition; is my superior in combat," he said in defence. "What an idiot I would be, knowing all these things, to commit the alleged violent assault."

MAN IS FOR PEACE; WOMAN FOR FIGHT

Democratic Candidate for Illinois Governor—This Makes Striking Contention.

Chicago, Oct. 17.—Woman, by nature, is not for peace and "is for a fight," James Hamilton Lewis, democratic candidate for governor of Illinois, declared the other night in an address before the banquet of the Illinois Equal Suffrage Association. "Man is for peace," he added, "but woman's nature is to demand conflict, if necessary, to establish principles she feels necessary to the government of home."

FARMERS OF U. S. PRESS DEMANDS

Return of Railroads to Government Ownership Is Favored.

Washington, Oct. 17.—(By Canadian Press)—Farmers of the United States represented in the national board of farm organizations are starting a drive to force thru congress a big agricultural program. Every candidate for the house and senate is to receive a questionnaire in which he is asked to go on record. Among the items on the program are the right of free speech and assembly, the railroad question, control of natural resources, the right of farmers to organize associations for marketing their products, creation of new rural credit system for short term loans, a practical farmer for secretary of agriculture, government manufacture of fertilizer, tariff legislation for agriculture, control of the big packers, stringent immigration laws and opposition to compulsory military training.

The question on the railroads remains one of the great problems of agriculture. If at the end of a reasonable time of further trial of private ownership the railroads fail to render reasonably satisfactory service to the public, will you then favor reopening the railroad question?

PRUSSIAN POLICE DISBANDED

Berlin, Oct. 17.—The Prussian security police, organized on a military basis, have been disbanded and have been replaced by a body of 85,000 civil police who are fundamentally local in character, under the control of the local civil authorities. The substitution was made in accordance with the demand of the entente powers.

NIAGARA BOULEVARD TO JOIN THE LAKES

Magnificent Extensions to Old Fort Erie and Niagara-on-the-Lake.

Bridgeburg, Oct. 16.—(Special to The World)—The Canadian-Niagara boulevard, which now extends eighteen miles from Bridgeburg to Niagara Falls, said to be the finest stretch of highway in Ontario, owing to its beautiful scenery, is to be extended thru to Niagara-on-the-Lake at one end, and to old Fort Erie at the other end.

The boulevard now runs into Fort Erie proper, but is to be extended to the old fort ruins. To complete the extension of the other end of the highway the Canadian-Niagara Boulevard Commission has just completed the purchase of a right-of-way eight miles in length and several hundred feet in width.

FARMERS MAY MAKE MATCHES AND TOBACCO

Winnipeg, Oct. 16.—Telegrams are passing between the Grain Growers Association of the west and the United Farmers of Ontario, in regard to the lack of market for the tobacco crop of Essex and Kent in Ontario. The discussion turns on the starting of a farmers' tobacco factory, to make straight smoking and chewing goods for the farmers of Canada. They are also getting figures on matches. Figures have been got on an idle match plant, also an idle tobacco factory.

JUDGE NAMED OFFICER OF S. S. ASSOCIATION

Tokio, Oct. 16.—Justice Seth Leet, of the sessions court of Montreal, has been elected as an honorary vice-president of the World's Sunday School Association at its convention here. The following Britishers were named as vice-presidents: Rev. Carey Bonner, London; Sir George Crolydon Marks, London; and Rev. J. C. Harlitzel, Methodist Episcopal Bishop of South Africa. The convention decided to maintain international headquarters in New York instead of dividing it between New York and London.

CARUSO'S IGNORANCE

Omaha, Neb., Oct. 17.—Enrico Caruso, the famous tenor, did not know that Brooklyn had won the National League pennant and thought Babe Ruth was a singer, but confessed he had never heard "her" sing. "What is her voice?" he asked the reporter recently when asked what he thought of Babe's performance this year.

PLENTY OF TEN-CENT SUGAR IN NEW YORK

(From The Sunday World.) New York, Oct. 17.—(By Canadian Press).—Following the announcement yesterday that a chain of grocery stores in this city had reduced the retail price of sugar to 10c a pound, came information today that a general reduction to this figure was likely within a week or ten days.

Both the grocers and the refiners are inclined to attribute the decrease in sugar prices to the frugality of the housewife, who buys in small quantities when the price is high. The American Sugar Refining Company and others said this custom was largely responsible for the surplus of sugar they had on hand. Prices were cut to get rid of the surplus.

SUGAR ORDER NOT DUE TO COLLUSION

Meighen Flatly Denies Cabinet Influenced Board of Commerce.

(From The Sunday World.) Ottawa, Oct. 16.—Statements current that the sugar refiners saw certain members of the cabinet in the absence of the prime minister, and induced them to refer the sugar situation to the board of commerce, are authoritatively described here as "pure invention." What happened it is stated, was this: The sugar refiners interviewed members of the government. The prime minister was present throughout the interview, which was terminated when Mr. Meighen left to take a train. Sir George Foster, minister of trade and commerce, and Hon. C. J. Doherty, minister of justice, did remain behind for a few moments, but there was no further discussion with the refiners, who in fact, left when the interview terminated.

Refineries to Blame. The prime minister was asked last night with regard to a report in a morning paper in which it was stated that the sugar situation had been referred to the board of commerce by the government. Mr. Meighen said that such a report was false.

There was no action of the government regarding the sugar situation to the board of commerce," it was stated today. "The refiners made certain representations of which consideration was promised, but the government was not in any way responsible, and no members of the government, acting in the absence of the prime minister, were responsible for the reference to the board of commerce. In going before the board, the refiners acted entirely on their own initiative."

SMALLPOX IN BROCKVILLE

Brockville, Ont., Oct. 16.—Because of an outbreak of smallpox at Morrisburg, Dr. Paul J. Maloney, provincial officer of health, has ordered all public amusement places and pool rooms to be closed. Several cases have been reported and more are expected.

If Every Hydro User Cut Out One Lamp

—5,000 horse-power would be saved each day in Toronto to relieve the power shortage.

The season when Power Shortage is likely to be experienced has now arrived and the co-operation of all Hydro users is earnestly requested in the endeavor to reduce general inconvenience to a minimum. The following suggestions are made as general lines along which substantial economies can be effected without inconvenience and which will release power vitally needed.

In the Home.

Cut out heaters and other current consuming devices at times of shortage. Switch off every lamp not actually needed. Use the most efficient type of lamps procurable, and discard blackened or old-fashioned lamps which waste current and give poor light.

Commercial Lighting

Reduce display lighting to a minimum and cut out signs during hours of shortage. Use the most efficient type of lamps and switch off all not absolutely necessary.

Power Users

Cut out every possible idle machine, or lamp, not actually required in use. See that the plant is operating under most efficient conditions.

While it is impossible to predict with any certainty when shortage will be experienced during September and October, it occurs most frequently between 8 a.m. and 11 a.m., and 4 p.m. and 6:30 p.m., particularly on cold or dark days.

The Last Word Re Oakoal Before Advance in Price

If You've Not Read the Story of Oakoal, Read This Final Announcement Before Curtain Closes on Present Prices.

If a coal mine were discovered under the City of Toronto and YOU were offered stock in the mine—chances are you would invest every dollar in it you could spare. You would take that chance, wouldn't you? Yes, because that would be a gamble—a gamble in that you nor no one else could tell the extent of the mine—how deep or long or wide it would be—or when it would run out. But you hesitate when the top of the ground mine—a real fuel industry—offers you something better than a mine. We know, as hundreds of others know, and as you know, that our raw material will not become exhausted—wastes of cities and mines increase with increased populations. These wastes enable us to produce two tons of OAKOAL per thousand of population, and at a good profit.

Then, why hesitate to buy OAKOAL stock? Scores and scores of bank managers, manufacturers, wholesale, professional and scientific men are among Oakoal shareholders, because they know the Company—know the product—know the process—know the possibilities—know the demand for the product—know their money is going to make them annual dividends and multiply in value—therefore, you must appreciate OAKOAL'S value as an investment.

You do yourself an injustice when you refuse to believe what we tell you of OAKOAL. If all men were afraid of good investments there would be mighty little industry, and no wealth. The world is full of wealth, and the reason you do not get your share is because you deny yourself the right to get it.

You cannot get it by labor, or by bank savings. Some Real Estate investments are good, not all. Mortgages are good, but slow increase. Bonds are good, but interest is small. Nearly all the wealth that is made quickly and easily comes to men and women through industrial investments. You deny it? Then ask any rich man and hear his reply.

The man who gets into a new thing that fills a long-felt want is the man who grows wealthy in proportion to his investment. If you are poor, it is your own fault, because you have had opportunity—and have it today. You hesitated, because you were afraid it might not turn out good. You must, of course, use judgment. Take the things that "do not turn out good." Do you find Bank Managers, Manufacturers, Wholesale and Professional Men behind them? No. Their promoters are usually exploiters or novices.

OAKOAL has the recognition of Government officials, Universities, Colleges, Industrial and Technical Institutions. It is headed by practical, successful business men, who have proven their ability to make OAKOAL a reality. Nor is the stock held by promoters. Less than two per cent. of OAKOAL stock was used for promotion—an unusual record. No combination of selfish interests control its stock. It is a shareholders' Company, and it will remain such—so that there will be "no freeing out" by "financial hogs."

Its plant and equipment are the finest among briquetting plants on this or the European Continent, as a visit to the plant at the foot of Booth Avenue will attest. There you will also see nearly 16,000 tons of No. 1 Anthracite screenings—this will insure an output of some 35,000 tons of OAKOAL within the next six months—representing nearly a half million dollars cash. A large amount of this will be profits—dividends for shareholders. You can enjoy a share of these profits, and if you get in now before the night of the 20th—next Wednesday—you will secure the Common Stock at just one-half what the price will be on Thursday, and we have every reason to believe, at one-quarter of what the price will be before Christmas.

The present plant is only one of some thirty that will be operated by this, or its subsidiary companies, so you must appreciate OAKOAL'S possibilities and the opportunity that is yours now—the like of which the public will never get again in many years—because OAKOAL will be one of the greatest industries of the world, and it is not often that the public is given the opportunity of participating in the world's greatest industries. Nor would you have this opportunity if present heads of the Oakoal Company had accepted the offers of financial kings for their future. That's the story.

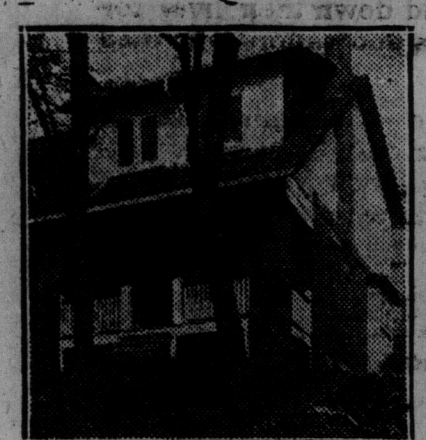

Now, you have only three days more to get in—as others have done. Men who investigated—sifted, shrewd men—it is good enough for them, and they know what they are doing. Surely their judgment is good enough for you. If this article does not convince you and you desire to know more before losing this opportunity, or before investing, come in and talk it over, and be satisfied that you are serving your best interests by turning it down or buying as much as you can afford.

All that we ask is that you appreciate this opportunity and investigate it now, before Wednesday—that you may start yourself on the road to multiplied wealth. In plain words—do not be prejudiced, do not confound us with other concerns, remembering this stock was never less than \$5.00 per share, and that this stock has never been offered for sale through small ads. in the daily papers.

This stock is OAKOAL—the plant is at the foot of Booth Avenue—the office at 43 Scott Street, corner Colborne. OAKOAL is the only Company publishing the result of Government, University and Industrial tests of its product. OAKOAL is Anthracite's best substitute. It is, in many respects, BETTER THAN ANTHRACITE—a statement that cannot be refuted. We have proof; call and see it.

Remember only three days more to buy at the original price, then the common stock advances from \$5.00 to \$10.00 per share.

A View of One of the Houses

The E. W. Goulding Co., Ltd., offer

19 New Houses at Bargain Prices

Semi-detached, solid brick and stucco, six rooms, ideally located, offered for three days only at

\$5,500 and \$1,000 cash only

This is, we believe, one of the most remarkable offers of small houses yet made in Toronto. The builders erected twenty-one houses. Two were sold as soon as completed, several more are completed now, and the others will be ready in a few weeks. In order to dispose of the entire 19 at once the builders have consented to accept a reduction in price and terms. The price of \$5,500 means an actual cash saving, as these houses are exceptionally good value at \$5,500. And to make it possible for almost any family to take advantage of this offer we will accept one-half of the usual cash payment—or only \$1,000—and the balance on mortgage at easy terms. For 19 families who are weary of paying exorbitant rent this is a wonderful chance to buy your own home, in the heart of the city, at an outlay no greater than rent.

Sale Lasts Three Days Only

There are only 19 of these houses and they go on sale at this price Saturday night. If any are left on Monday evening the price will be increased. Do not overlook this great chance.

Points About This Sale

- (1) You get a new house for \$5,500.
- (2) You need pay only \$500 cash and \$500 when completed.
- (3) Your total cost of upkeep, including taxes, fuel, interest and payments, is less than the rent of a six-room apartment.
- (4) You get a location not excelled anywhere in the city at near this price.

The Houses

Built of solid brick and stucco, semi-detached, each pair different in outer design, giving a pleasing variety. Six rooms and bath, hardwood floors up-stairs and down, open plumbing, hot air furnace, with hot water boiler attached, wash-tub in cellar, kitchen, dining-room and living-room on ground floor, three bedrooms, each with closet. All rooms bright and cheerful. Wonderfully comfortable and compact homes.

The Location

These houses are situated on the north side of Davenport Road, just west of Dovercourt, running to Northcliffe Blvd. They are ideally located, about fifteen feet above street level, backed by the hill and with southern exposure that affords abundant sunshine most of the day. Protected from the north by the hill, these houses will be easily and cheaply heated. Shade trees and terrace lawn add greatly to the attractiveness. Only a few minutes from Dovercourt, Harbord or St. Clair cars and close to Oakwood School.
