The triennial convention of the C. M. B. A. will be held this year in Ottawa, beginning on Wednesday, August 10, and promises to be one of the most important in the history of the association, as many weighty subjects are to be dealt with, and a great many delegates will be present from various quarters. The three local branches are in a prosperous condition, and will be well represented at the convention at the capital. Richard J. Walsh, Patrick McMurray, and Thomas Morrison leaving for Ottawa on Monday as delegates.

A very important matter which will be debated at the conference is an amendment to the constitution to the effect that any person engaged in the manufacture or sale of intoxicating liquors will be debarred from membership in the order. This amendment is being very favorably considered by the members, and will be strongly supported by a large following. Another proposed amendment relates to the payment of half his policy to any member who has for twenty-five years been in good standing, the remainder to be paid his beneficiary, on condition that the assessment be continued until death.

ANOTHER BUSY DAY IN THE POLICE COURT

Peanut Case Dismissed—Fishermen Warned for Sunday Fishing—Liquor Selling Case Postponed

There was another busy session this morning in the police court when several matters came before the court. Only three prisoners were on the bench, but several other cases of different natures came up for hearing.

The three prisoners, Annie Deberry, Edward O'Brien and Bernard Barry were each fined \$8 on charges of drunkenness, while Barry was remanded on a charge of stealing four pounds of Bologna from John Irons, Main street.

The case against James McCarron reported for throwing peanut shells on the sidewalk, in Charlotte street, was dismissed, and James McCafferty, against whom a similar report had been made, was also allowed to go.

D. Jack, at whose instance the report was made, was present and asked that Policeman Sullivan be called. It was stated that the latter had been detailed for police duty at a picnic, a fact which was strongly commented upon by the court. Because of Sullivan's not being in court McCafferty was given the benefit of an existing doubt as to whether or not he had thrown the peanut shells on the sidewalk.

Four fishermen, George Wilson, Joseph Yell, Byron East and George Hampton were before the court and pleaded guilty to fishing in the harbor on Sunday night last. The report was made by Inspector Belyea. The men were warned not to fish again on Sunday and were told that if they were caught at it, their fishing outfit of boat and nets would be confiscated. They were allowed to go.

The case of Robert Campbell charged with selling liquor on unlicensed premises in Carleton, was dealt with. The charge was dated May 28. The evidence of Samuel Aude had been given the case was postponed. Aude took the stand in a very shaky and nervous condition and told of buying liquor in Campbell's beer shop on May 22. Louis Kindred and a man named Hadam were also present. J. B. M. Baxter, K. C. appeared for Campbell, and George E. Henderson conducted the prosecution.

In the case against Robert Beckwith, reported by I. C. R. Policeman Smith for violating the rules as applied to hackmen at the Union depot, two other coachmen named Garvin and Northrup, swore that there had been no violation, and the case was dismissed.

A DROP OF MILK

Mrs. Hayes, Colored, Has Maudie Moore, Colored, in Court on Milk Throwing Charge

A young colored girl, Miss Maudie Moore, was charged this morning in the police court with having assaulted Mrs. Mary Hayes, also colored, in the home of the latter, Elm street, on Saturday night. The trouble arose when Mrs. Hayes on seeing Maudie carrying a milk pail up to a friend from whom she had borrowed it, expressing a desire to "get a whack at it," at the same time throwing a stick of wood at the crockery, narrowly escaping the head of Miss Maudie's fiance, who was sitting a few feet away.

Mrs. Moore moved herself quite agreeably to the request of her colored lady friend, and also showed that she possessed to a certain extent some of the ability which made Cy Coombs famous for she promptly upflung her arm, threw a slight drop of the milk pail and landed squarely in the face of Mrs. Hayes.

The result was that proceedings were at once taken by the latter, and the athletic Maudie was in court this morning. After two witnesses had testified concerning the case, it was adjourned until tomorrow morning.

MUSIC TREAT AT FAIR

Famous Ladies Orchestra a Magnificent Feature

Music lovers are quite rightly contemplating ten days of delightful music at the Dominion Exhibition in St. John, N. B., September 24 to 33rd, and judging from the newspaper comment in American editions their expectations will be fully met.

Madame Belle Yastou Renfrew's Ladies' Orchestra of twenty-five players will discourse programmes twice daily beneath the new music gallery in the main building. This organization is one of the finest of its kind in existence and is a favorite at important musical events, being billed in the same programme with the famous United States Marine Band of Washington, Creator's Italian Band, Sousa's Band, and Arthur Prior's Band.

In Pittsburg last year the Renfrew orchestra made a sensational hit, and after the big exhibition was closed in that city played a successful week's engagement in one of the leading theatres at the request of a discriminating public. The following sample programme will indicate the versatility of Madame Renfrew's players: Coronation March, "The Roseary," "African American sketch," "Swanee River," "Mylodillon Selection from 'Carmen,'" "Bisot Overture," "Oberon," "Weber Waltz," "Artist's Life," "Strauss Violin Solo," "Second Polonaise," "Wieniawski Mexican Idyl," "The Mesa Grande," Descriptive fantasia, "Americans Abroad," National Anthem.

NEARLY FOUR INCHES OF RAIN IN JULY

According to the records of D. L. Hutchinson, director of the weather bureau, the rainfall during the month of July, 1910, was 1.27 inches greater than in July last year. The total rainfall last month was 3.88 inches, and in the corresponding month last year, was 2.61.

The maximum temperature during the month was 78.5, a decrease of 3.7 from July, 1909, which the record shows was 82.2. The minimum temperature registered 49.7 last month, as against 43.7 in 1909. The average for the month was 61.2, compared with 60.8 in July, 1909.

INCREASE IN RECEIPTS OF INLAND REVENUE

The inland revenue receipts for July show an increase over last year of \$86.33. Following is a comparative statement: Inland revenue receipts for the month of July,

July, 1909	1009	1010
Spirits	\$13,504.33	\$11,614.19
Tobacco	49.66	...
Cigars	979.09	732.90
Raw Leaf	498.78	500.84
Bonded M'frs.	384.33	645.75
Other Receipts	57.97	1,092.35

DEATH RATE SHOWS SLIGHT INCREASE

The records at the board of health office show an increase of five in the death rate for July 1910, compared with the same month in 1909. The number of deaths in July 1906 totalled 42, whereas for the month just closed there were 47. It is, however, noticeable that there are fewer cases of contagious disease in the city ever before, and the reason for the higher death rate last month may be attributed to the fact that the number was greatly increased by the more common maladies such as heart trouble, cholera, pneumonia and other such causes.
