THE "IMPERIAL" Marine Motor Engine

"The Motor that Makes the Mark."

**Well Designed
Well Built
Well Equipped**

The "Imperial" is manufactured by a well known and reliable firm of Iron Founders. They also manufacture Steam Engines, Boilers, etc., in a city where living rates, taxes and labor are cheaper than in most cities. They are thus enabled to furnish a

Higher Grade Motor and Better Equipment

for the price charged than most manufacturers.

The "Imperial" has been especially designed for the use of Fishermen, and is guaranteed by the manufacturers to be well built of the best material obtainable, and if properly installed and operated to give good satisfaction.

The "Imperial" is extremely simple in design, and all parts are easily accessible. The most improved muffler, giving the least possible noise, no heat, no muffler explosions, no back pressure, etc., is supplied with "Imperial" motors.

You can run the "IMPERIAL" slow enough to set fishing gear or to fish on a line without any back-firing or other fuss. This engine has some other special features.

I have cancelled all my sub-agencies, and I will in future sell only the "Imperial," having been appointed by the manufacturers as their Agent for Newfoundland.

In order to introduce the "Imperial" to the Fishermen of Nfld. I am quoting a very special price on 3, 4, 5 and 10 h.p. for this season. Call and see engine, or write for full particulars and special price.

AN IDEAL TONIC

When your head is dull and heavy, your tongue furred, and you feel done-up and good for nothing, without knowing what is really the matter with you, probably all that is needed to restore you to health and vigor is a few doses of a reliable digestive tonic and stomachic remedy such as Mother Seigel's Syrup. Take it after each meal for a few days and note how beneficial its action upon the stomach, liver and bowels—how it restores tone and healthy activity to these important organs, and by so doing enables you to gain new stores of vigor, vitality and health.

BAY ROBERTS, FRIDAY, Nov. 5, 1915.

Election Day

Nov. 4th, 1915, the day on which Prohibition of the importation, manufacture and sale of intoxicating liquors was either won or lost, has come and gone. The day was dull but fine, and the weather conditions were favorable for a large vote.

At this writing we have very little information regarding the vote, except in this section. At Bay Roberts, Coley's Pt., Country Road and Shearstown, including the booth in St. John's, about 700 votes were cast, the larger number of which we believe will favor Prohibition.

This is a splendid result considering the many handicaps. The date set for the election was too early owing to the lateness of the season. The Prohibitionists were handicapped also because of the many voters absent in Canada, the United States and elsewhere. Some had not reached home from the fishery. Then there were the young men of the Naval Reserve and the Regiment at the front, and those who since 1913 have died. All these to all intents and purposes automatically voted "No," because the Prohibitionists had to roll up 40 per cent. of the total number on the Voters' List for 1913, which amounts to about 25,000 votes.

We regret that the vote here was not even larger than it was, but if other parts of the Island done equally as well as this section, Prohibition is sure.

Credit must be given to the earnest and practical way in which the Campaign was conducted here, and although sacrifices of time and leisure were made, nobody we feel confident who took an active part in the matter regret the stand he or she took.

There can be no difference of opinion regarding the evil effects of the liquor traffic on hundreds of our otherwise good citizens, and if not carried now the flag is not far distant when the day of Prohibition will float over Newfoundland.

Germans Arrested in United States

New York, Oct. 25.—Lieut. Robert Fay of the German Army, who was arrested yesterday afternoon with his brother-in-law, Walter L. Scholz, a German resident holding first citizenship papers, while experimenting with explosives in the woods at Grantwood, N. J., admitted to-day that he came to this country with expense money and a commission from the German Government to destroy munitions factories and ships carrying munitions of war to the allies. Fay denied, however, that he had blown up any munition plants or ships.

A third prisoner, Paul Daeche, a German who has lived in this country three years, was arrested at 5 o'clock this morning at his home, No. 141 Hutton Street, Jersey City. He is accused with Fay and Scholz of conspiracy.

NEWS IN A LINE

The Prohibition Entertainment, organized by the Women's Auxiliary Prohibition Committee, held in the Public Building on Wednesday night, was a great success. The building was packed, and the programme was rendered interestingly and efficiently.

Don't forget the Women's Patriotic Association's Hot Supper and Entertainment next Wednesday night. See advt. for particulars.

Miss Winifred Bradbury, who spent two weeks at St. John's, returned home by Saturday night's train.

The Nfld Naval Reservists, including Jack Parsons and Wm. R. Daws, have arrived safely in England.

Four freight cars jumped the track about a mile west of T'psail on Wednesday night. The engine was partly derailed. No one was injured.

Mr. and Mrs. W. R. Seekins left Bay Roberts en route to Halifax by Tuesday's express. Mr. Seekins has been transferred to the Halifax office of the Direct United States Cable Co., where he takes a position as electrician. During their stay in Bay Roberts, Mr. and Mrs. Seekins endeared themselves to all with whom they came in contact, and their departure is regretted by a large number of friends.

GET RID OF HUMORS AND AVOID DISEASE

Humors in the blood cause internal derangements that affect the whole system, as well as pimples, boils and other eruptions. They affect all the organs and functions, membranes and tissues, and are directly responsible for the readiness with which some people contract disease. For forty years Hood's Sarsaparilla has been more successful than any other medicine in expelling humors and removing their inward and outward effects. It is distinguished for its thoroughness in purifying the blood, which it enriches and invigorates. No other medicine acts like it, for no other medicine is like it. Get Hood's Sarsaparilla today. Insist on having Hood's.

'The War, Cause For Optimism'

It has not been infrequently stated by thoughtful people, that Germany's present position is better than at the outbreak of the war, that the war has not yet reached her soil, that her enormous military supplies both in men and materials, have not been seriously depleted, that her food supplies still hold out wonderfully well, and that the great mass of her people is still in favour of the war and confidently expect victory.

It is true that the Allies are yet a long way from the boundaries of Germany. Not only that, but German armies overrun all but a few square miles of Belgium, all of Luxembourg, part of north eastern France, all of Galicia, all of Poland, and are crowding through to Riga on the north and pounding through Serbia toward the Dardanelles in the South. That is the most that can be said for Germany as to territorial losses. How about her valuable colonies, outlying dominions and dependencies are gone. They are unquestionably and irrevocably in the hands of the Allies.

What about the success of the invasions of her enormous armies in Europe? Is the most essential feature and at the most important strategic points she has consistently failed. Did Germany reach Paris or Calais? Has she been able to launch her hordes against England from Calais? She was enormously prepared, equipped beyond our wildest dreams, but she was merely a vast intricate but powerful machine with conquest and merely destruction as her aim. She was checked before Paris, and headed back from her drive toward Calais and now, all along the western front she is slowly but surely letting go her hold before the irresistible pounding of the Allies. We too are completing an enormous war machine, every bit the equal of that of Germany. But, in addition, we have behind it the spirit of defence, protection, and justice, a powerful and lasting force in itself. On the eastern front Russia has for some time turned the tables and is now forcing Germany back through Galicia and retaking towns and country recently taken from her by Germany. Only in the north west around Riga is Germany causing any serious trouble to Russia and even there it seems to be slowly turning in favor of Russia. The country, climate, and all natural elements are strongly favorable to Russia and even more unfavorable to Germany.

She tried tremendously hard to capture a large part of the Russian army but they always just escaped. Now she finds herself in a very bad fix, far from supplies and reinforcements and in danger of being broken and captured by the Russian forces. In the Southwest, Italy is having splendid success all along the line, continually pushing back the Austrians and daily taking more territory. In fact, the only weak spot in the whole war is Germany's momentarily successful rush against Serbia, with the co-operation of Bulgaria. The Allies are sending a force by way of Salonika to help Serbia and to intercept the German armies on their way to the Dardanelles, whether they are supposed to be headed. It is said that this is to be an expedition of 500,000 men, many of whom have already landed. It is probable that Germany will be headed off and quite possible that a large part of her armies will be destroyed in this last effort to break the ever tightening ring of the Allies. She has tried Belgium, France, and Russia and has failed in all. Now she is striking desperately at Serbia and is doomed to another failure, we may be sure.

And what of the German fleet? It is well preserved and harmless, as we all know. From the first check of the German armies before Paris there has been continual batterment and increasing strength and progress on the part of the Allies. Ultimate victory, of the only kind acceptable to the Allies is daily becoming more and more clear and tangible. Certainly, there has not been greater cause for optimism at any period of the war than at the present.—News.

Some Remarkable Cures

EFFECTED BY
Arctic Indigestion Cure

Salmon Cove
District Bay de Verde
July 23, 1915.

For seven years I was a wonderful sufferer from heart disease and weak stomach. I feared away very often and friends spent a lot of time watching over me. I was a dying woman, but two bottles of Arctic Indigestion Cure cured me. I cannot praise this medicine too much, for it did wonders for me. I had 8 doctors and tried all kinds of medicines, but all failed to cure me. But A. I. C. came along in time as a great means saving my life. I cannot thank you too much for your great remedy which has saved my life. Now a word to the people who are suffering. Don't be afraid to give this great medicine a trial, for it does all that it is recommended to do.
