

BOTTLE CURED THREE PEOPLE, AND SOME TO SPARE.

MORT. HANNAH, Chedoke P. O., says:—I had a bad cough and I got a bottle of **PARKE'S COUGH BALSAM**; it cured me; my mother used it, and it cured her, and I gave it to my boy and it cured him, and then I had some to spare. I consider it a very cheap and good cough medicine.

A FAVORITE COUGH REMEDY.

M. BRAIDWOOD, 25 Clarke Ave., city, says:—I have used **PARKE'S COUGH BALSAM** in my family for the past two years, and I am persuaded that nothing else will be found to give the same relief.

ONE DOSE AND NEVER COUGHED AGAIN ALL NIGHT.

R. W. BROWN, of Gill P. O., says he got a bottle of **PARKE'S COUGH BALSAM** about a year ago, and it gave him the greatest possible relief. He had tried all the doctors around the place without any benefit.

GOT BLACK IN THE FACE AND NOSE BLEED.

FRANK HOWARD, Burlington, says:—I had a very bad cough, in fact would start coughing and get black in the face, and often cough until my nose would bleed. I took doctor's medicine for two months, and took three bottles of patent medicine—no effect. My doctor, Mr. Springer, recommended **PARKE'S COUGH BALSAM**, and two bottles cured me. Early a year ago, and I have not had a cough since.

FEARED INFLAMMATION OF THE LUNGS.

MRS. D. FRANCIS, Ancaster, says:—My children had grip colds, and after using a lot of cough syrups which did no good, I got a bottle of **PARKE'S COUGH BALSAM** and less than a bottle cured both of my children of what I feared would be an attack of inflammation of the lungs. I recommend it very heartily for coughs and colds.

You will find a printed guarantee on every bottle. You have had proof enough that there is no preparation of cough medicine which is equal to **PARKE'S COUGH BALSAM**. Don't delay, but get a bottle. Put it in the house and then you will have it when you need it. The dose is very small (one-half to one tea-spoon), and this makes it the cheapest Cough Remedy sold.

PARKE'S COUGH BALSAM contains a very healing balsam. It is this balsam which makes it so effective. It heals and soothes the inflamed mucous surface of the lungs and bronchial tubes, and cures the cough.

Eminent physicians recommend consumptives to go to the Adirondacks. Why? Because they abound in trees that contain this very Balsam, and the air is impregnated with the odor and virtues of it. After a long amount of trouble and manipulation we have succeeded in incorporating this balsam with a valuable preparation of a celebrated lung specialist, and the compound is **PARKE'S COUGH BALSAM**.

1 Bottle, or 5 Bottles for \$2. Will send 5 Bottles, Express Paid, on Receipt of \$2, or 2 Bottles for \$1.
