A woman whose name is believed to Mrs. A. B. Scott, came up in another ca riage and was shown the remains an identified them, affirming that they we those of a young woman named Charlot Hill, who had left the poor house on Tue day or Wednesday morning about the positively that the remains are those the young woman, Charlotte Hill. Mr. Scott is understood to have lived in th same house with the girl. INTERVIEW WITH THIEBAULT.

Through the courtesy of Mr. Rice, the jailor, a Telegraph reporter was permitted | 15 to interview the prisoner briefly. He was 16 naturally questioned as to his relations to 17 the murder. He promptly asserted his 19 the murder of the control of the contro innocence, denied all knowledge of the deed, and affirmed his readiness to prove 21 an alibi, he being the wrong man. Hesays he is the owner of the house, a portion of which is used as a poorhouse, and for such | 25 use he is allowed \$300 a year. He states use he is allowed \$300 a year. He states that the murdered girl lived with him for about three months. He declares that the first intimation he had of her disappearance 30 was on Thursday morning, when his wife told him that she went to call her about 5 o'clock to milk the cows and found that Miss Hill was not there. He professed to be surprised at this.

Touching on another point, he said believed the girl was enciente; but that s had been the mother of four children, eldest of whom, who is 3 years old, still at his house. During the interview he seemed very restless and felt his sit ation keenly.

Besides his wife, Thiebault has a fam of six children-four boys and two gir The eldest of the family is a son, a you man 24 years of age, who, with his other brothers, were working in the woo a short distance from the house, wh their father was arrested.

Thibeault has been fully identified the man met near the scene of the murd and other circumstances point to him

### Telegraphic Notes and News.

News has been received at the War Office from Quettah stating that General Roberts arrived at Candahar yesterday, and, contrary to expectation, in advance of Gen. Phayre. Col. St. John, with a detachment, met Gen. Roberts, on Saturday, about 20 miles outside the city, at a place called Robat. The reinforcing column passed Avoob Khan's position some miles to the left, Ayoob being on the bank of ture at Richibucto a few days ago. It was the Augandabe River, between which and nearly as hot on the Miramichi. the Cabul road or pass, Ligh range of strongly posted in his present position and an attack upon him there, should it be attempted would involve much risk and at the best could not scceed without serious loss to the British. It is stated to open negotiations with General Roberts. will allow the British to leave the country

that Ayoob Khan has already undertaken The purport is understood to be that he unopposed, provided they will evacuate Candahar immediately. General Roberts refused to enter into any such compromise Hassam Khan, Ahmed Khan, Ali Khan, Musa Khan and the late heir apparent's mother are reported to be in Avoob's camp Avoob's Heratee troops are still reported be wavering in their allegiance to him, but they have been sworn on the koran to remain faithful. The Afghan forces or the Angandabe now number about 25,000, and the Ghilzais are rising and joining them in considerable numbers. Gen. Phayre with his entire force, which cannot amount to more than 5,000 men, expects to fight a battle at Taktipa, but whom he expects to fight is not so clear, unless it is the Hillmen, who are in sympathy with Ayoob. Should cultivated levels of the Khushab plain. which would make the only approach to Candahar impassable for waggons, artillery or cavalry, and here a most formidable stand might be made by the tribesmer Affairs are now in such a form that crisis

of some kind must soon be reached. LONDON, Sept. 4. The following despatch has been received from General Roberts, giving details of his

victory over Ayoob Khan : CANDAHAR, Sept. 2.—Report of rec noisances carried out by General Hugh Gough and Col. Chapman, on 31st ult., afforded me all necessary information regarding the enemy's position. I found it quite practicable to turn his right, and thus place myself to the rear of Baba-Wali range, where Ayoob Khan's main camp was. I decided on doing so, and com menced the attack shortly after Line o'clock yesterday morning. To cover my designs I made preparations for a direct attack upon Babi Wali. This feint was entrusted to troops of the Candahar garrison under General Primrose, who also arranged to occupy my advanced positions of the previous day. At the same time a cavalry brigade under General Hugh Gough advanced upon the left, and without diffi culty reached Amandab, where it was well placed for pursuit, should the enemy break either towards Girishk or Kakrez. The attack was made by first and second brigades under Generals McPherson and Baker respectively, with the Third Brigade under General McGregor in support, the whole infantry being under command of General Ross. An elevated village within 1.200 vards of our position was strongly held by the enemy and had first to be taken. This was done in a most gallant manner by the 92nd Highlanders and Second Ghoerkas covered by artillery. Two brigades then advanced through orchards and enclosures, fighting steadily. The left of the Second Brigade being brought gradually round until the villag of Pirspaimal was reached. At this point the enemy was in great force and fought most resolutely, but nothing could resist the determined advance of the British troops. Shortly after this the reverse slope of Babi-Wali was reached and the standing camp of Ayoob Khan became visible. All the enemy's attempt to stem the torrent were futile. By 12 o'clock noon the camp was in our possession with 27 pieces ordinance, which included our own guns lost on the 27th of July. The casualties addition to those vesterday reported include three officers of cavalry slightly wounded, named Major Willock, Lieut. woulded, named Major Willock, Lieut.
Baker and Lieut. Neville Chamberlain.
The Ninety-second Highlanders had fiftyseven woulded, three of whom have since
died. 72nd had 17 wounded, of whom
six died; among native troops 11 were
killed and 72 wounded. Total number
wounded about 210. The cavalry brigade
marches to-morrow to Kokeran, where it
will be well placed, and this will facilitate
supplies heen brought into the city. The

THE BARK EXTRACT FACTORY BURNEL.

The destruction by fire of Messrs. Miller's Hemlock Bark Extract Manufactory at Derby took place on the afternoon and evening of Tuesday last. It appears that the fire began in the centre of the building in which the large vacuum pan is situated, but its origin is not known. Mr. Crocker, book-keeper of the establishment had just been up in the tower where the pan was, for the purpose of noting the pressure and saw nothing amiss, but he had just come his purse containing \$28 in Richibucto on the building there, it was closely watched Monday night. Suspicion points to a party who is now in Kent County Gaol for non-steamer Grip lying at the wharf was also The insurance on the property could not

down and reached the side of the building when the alarm was given. Many of the men about the establishment at once rushed for buckets and endeavored to check the flames, while others got the hose connected with the factory pony engine and that of the other fire engine in readiness, but the fire could not be checked. Word was sent by telephone to Newcastle asking for assistance, but, in the meantime, the work of destruction went on, the means at hand being entirely inadequate to check it. When hope of saving the main factory was abandoned attention was turned to the adjoining warehouse and other property. The factory fire was so fierce that it is doubtful if any ordinary engines could have successfully combatted it after it was fairly under way. Soon the wharf began to take fire and, as there was a large quantity of extract stored in steamer Grip lying at the wharf was also yesterday forenoon the danger was over,

To the Editorof the Miramichi Advance SIR :- It is said Mr. Buck, Government Engineer or Inspector, recently examined the Bridge over the Richibucto River at Kingston in this County, previous to the of the large black sausages which meet contract being taken off Mr. Gallagher's We can hands and the balance of money, if any, being paid. Did Mr. Buck ascertain if mmon or refined iron was used in the turers in Canada for the purpose of forcing Bridge? Did Mr. Buck make any enquiries of what was said by those who ought to know in reference to the stability most damaging of all the charges against this bridge? The bridge as it now stands is a doubtful piece of work and may ere long be the cause of loss of life.

Yours &. More Anon. THE ISLAND PARK HOTEL AND GROUNDS the stove founders did not possess an exat Summerside, have been purchased by J. They cost the late Mr. Holman \$50,000.

SIR LEONARD'S FIGURES:-This is what the London Advertiser says about Sir Leonard Tilley's new system of book-keep-

ing by double entry:-Treasurer of the Association. This sum was to be forfeited if the depositor sold stoves at less than the ring prices, and was found out. They have agreed to put up an additional sum of \$200 on the same terms, having probably discovered that the first \$200 was not sufficient to keep some of the members straight. Nay, so doubtful of their brother man have these monopolists become, that they are binding each other by a secret oath to observe the

FREDERICTON has won an unenviable no toriety by compelling the mechanics, not citzens of Fredericton, who are employed business license. If it were known last winter that Fredericton would pursue so grasping a policy, the result of the agitation for the transfer of the seat of Government might have been different. As it is, the employers who pay in all such

Staple Dry Goods,

Staple Dry Goods, cases, this transaction really means that Fredericton, having the chance, compelled the Province to pay for permission to erect a new Parliament building within its limits.

FATHER FARRELL'S WILL .-- Father Farrell, who recently died in New York CLEARED. directed that his executors should spend on his burial \$100, and no more. The de paid a deserved compliment to Sergt.

Major. Hughes and the valuable work he had done all over the Province.

Lt. Col. MacShane also addressed the whom I could expect to be informed in this matter, and I believe that they and each matter, and I believe that they and each the tyranny, oppression, wrong, and the tyr following inscription is directed to be CHATHAM. the relief of the sober and honest poor of year of Her Majesty's roign, act of Suppression of Voluntary and Extra religion." I believe that the white people of these United States have inflicted grievous wrong on the colored people of African descent, and I believe that Catholics have shamefully neglected to perform their duty NEWCASTLE. toward them. I wish, then, as a white citizen of these United States and a Catho-

### wrong and neglect.' Fate of the Apostles.

lic, to make what reparation I can for the

All the apostles were assaulted by the enemies of the Master. They were called upon an olive tree in the classic land of Greece. John was put into a cauldron of manner and was afterwards banished to Patmos. Peterwas crucified at Rome, with his head bowed downward. James, the greater, was beheaded at Jerusalem James, the less, was thrown from a lofty pinnacle of the temple and then beat to death with a fuller's club. Philip was hanged ub against a pillar, at Heryolis in Phrygia. Bartholomew was flayed alive.
Andrew was bound to the cross where he first stoned, and then beheaded. Barnaous tortures and persecutions, was at length beheaded at Rome by the Emperor Nero Simon Zelotes was crucified in Judea.

## The Paris Abattoir.

The slaughter houses of Paris are located buildings, which are of stone, were constructed in the most thorough manner by the city under government authority. wall, and the grounds are divided into

Through each building runs a series of cours, covered with a glass ceiling, and in these cours the slaughtering is done, the

DIPHTHERIA.—There has been two deaths earned in the spring of the year. I have seen such nests at the headwards of the North West Miramich. I saw them with transport of the Suffix of the North West Miramich. I saw them with transport of the Suffix of t

covements of fish, in which I feel sure he fire and the short bristles quickly burned will be interested. I adopt this means of off. After a thorough scorching, the pigs furnish any reliable instances within their sort of drawing knife, handled by a skillknowledge respecting the local habits of ful operator, who performs his work at the rate of about one pig a minute. Then the bodies are washed and the entrails taken

out and cleaned. Every part of the animal is utilized in Paris, and that which the American throws away as worthless, is made to subserve some use in the Frenchman's economy The pig's blood is used in the manufacture with such extensive sale in Paris. The long bristles are pulled out by hand and go to the brush maker.

MARRIED

DIED At Blackville, on the 28th Aug., after a she lness which he bore with christian resignation
