The modern wringer has ball bear much expedition as they (the Russians) have shown in the preparation of their response. Monday, therefore, is expecting a great deal of attention in Europe, both here and on the continent. And that no substantial concessions on the main issues will be Germany, it would seem as though they concessions of the main issues will be Germany, it would seem as though they made is the belief both in Russian and Japanese circles. Tonight in the inner camps of both plenipotentiaries the camps of both plenipotentiaries the deepest pessimism reigns. M. Witte it is positively known, believes the prospocets of an agreement are so remote as to be practically nil. He has no desire to prolong the agony and instead of fencing when the plenipotentiaries come together when the Japanese have had the opportunity to examine the reply there is strong tason to believe he will not only welcome, but will insist upon an immediate discussion of all the proposed bases.

## GERMAN SYNDICATE SECURE COAL FIELDS.

As Best Feeling Does Not Prevail Between England and Germany in Matters of Commerce.

(Special Cable to the Star.) LONDON, August 12—The subject of the purchase of the Whitworth coal the purchase of the Whitworth coal has created intense satisfaction all

Mr. Bonar-Law said that it must not be assumed that the mere shipment of coal to foreign powers in the ordinary course of trade had ever been objected to by the present or by any other government. What they did object to would be anything like a monopoly of steam coal by foreigners or foreign governments. The government had no official information about the coal field referred to, but it was understood to have been in the market for some time, and it did not produce steam coal.

Mr. Gibson Bowles inquired whether

It is anticipated that his business associations with the International Boring Company will facilitate his operations.

The extent to which German or other foreign capital is interested in the last of the part of the venture has not yet been disclosed. The development of British coal fields in its initial, and not improbably in its subsequent stages by German labor in the interests of German capital appears to have been regarded with a great deal of alarm in Great Britain.

Here in Germany the movement is regarded as purely economic. A partner of the A. C. De Freitas Company states that the total area of the purchase in New South Wales amounts to 26 square kilometres. Th controlling interest in twelve of largest Prussian coal fields was ac quired simultaneously by the syndicate, which will be known as the English Company, Limited. The shares will be issued in London, and the capital will amount to about \$3,000,000. I is estimated by experts that the middle and deep seams of the Whitworth mines, which have still to be opened

Intense Satisfaction.

EDINBURGH, August 12.-The announcement that His Majesty the King is to hold a review of volunteers in LONDON, August 12—The subject of the purchase of the Whitworth coal field by a German syndicate has been attracting a great deal of attention throughout Great Britain—more so perhaps than the matter really warrants. But at the present time when the best of feeling does not prevail between Great Britain and Germany, especially in matters of commerce and trade, the proposition naturally approaches the realm of politics. When, to this is added the fact that for years the fear that the coal supply of Great Britain may give out has haunted not only the naval authorities but persons interested in the commercial development of the Empire as well the importance of the transfer of large mining properties to a German syndicate cannot be overestimated.

In an official sort of a way the subject to get his majesty to hold a review on something like the scale which Queen Victoria held in August, 1881, when almost 40,000 volunteers were on parade from every part of Scotland. The arrangements are in the hands of the military headquarters in Scotland, who now occupy spacious offices in the palatial buildings of the "Scotsman."

It is believed that the military authorities in Scotland have already put themselves in communication with the war office, with a view to ascertalning what allowance is to be made towards the expenses of the volunteers who may come to the review from a distance.

As soon as definite information has the other in English. Upon the two crucial points, indemnity and the cession of the island of Sakhalin, the reply is an absolute non possumus. Other points are accepted as bases for discussion, while still others accepted as conditionally. The reply is rather long because in enumerating the conditions upon which discussion is admitted and those upon which consideration is decidened. Owing to a combination of circumstose upon which consideration is decidened, reasons and arguments are given. The Japanese plenipotentiarles are expected to ask for an immediate additional two crucial points, indemnity and the cession of the sale of a german syndicate cannot be overestimated.

In an official sort of a way the subject was first brought up by Sir Howdown as definite information has been obtained upon this point no time and viting the purport of those conversations were, but certain indications seem to suggest that they turned largely upon the gathering, for ficial information to the effect that the sale of the Whitworth estate coal fields, 6,000 acres in extent, to a German syndicate and of a way the subject was first brought up by Sir Howdown and information has defined upon this point no time will be lost in communicating with commanders of corps throughout the sale of the Whitworth estate coal fields, 6,000 acres in extent, to a German syndicate on beautiful to the sale of the Whitworth estate coal fields, 6,000 acres in extent, to a German syndicate on beautiful to a German syndicate on beautiful the conditions.
