Parlamers are with ungoverneble rage
Place is submission; somer than submit
Let us indee poison all, or ent our throats;
Disaster desperation should inspire; land,
Mr. Size, my brother? I and I but any way
I knew what I would do,
Alex. What woulds't thou do?
Corst. No longer let our may shalk beneath
You walls of stone with caun'n fortified;
But on some favouring and forgy night,
Break, or clude, the Augh, French blockede.
Alex. Unto what end, good brother?
Corst. Marry this.

Coast. Marry, this:—
Some twenty thousand solders to convey,
With whom we would use mit the River Phannes,
As once the Datchmen did; then London barn;
Whitele could we do, I should not care, although
We perish I in the ruins.

We person of in the runs.

Edopress. How commence?

How cause the conflagation to being?

Would you not first deliver that some Thomes

A proy to the devouring element?

Charl. Although I might not set the Thames

Const. Although I might not set the Thames on fire.

I might send would burn the Lord Mayor glive, And slowly roust the Aldermen to death, Chop Gog and Magor guto little birs. Shi up the noise our out the long tongue of Panel. Shi up the noise our out the long tongue of Panel. Blowing the Tower, and leave not of Sr. Paul's Astone upon a stone a likewise destroy? Westminster Abbey and the Houses raze! Of Parkinnent; the National Gallery, British Massimi, and the Post Gible. Buckingham Palace, also I would knock. About their ears who would not be, I hope, At Balmoral, or Osborac. Oh! what games, To wray Great Britain's capital in dames!

Express. Oh! Constanting, Long simpley you

GRAVE OF THE UNKNOWN.

When Dartmouth seut a goodly company of 750 men, and above thirty ships to assist the third-Edward at the Siege of Calais—and when, to avenge himself for wrongs done on six constitute A hinked because at the A hinked because attempted a descent of Dartmouth, and his army was driven greightedly beck into ships, leaving the Lord Datchastel, with other officers of rank slain in fight, and low then the Linearting purty avided them-spices of its security and shipping during the wars of the Roses, Dartmouth was a place of great importance.

The Cusic of Gomerock, towering high do delegt bank of the entrance to the harbour, was deemed a post of considerable atrongly. At the base of the roof on which it was built, a few feet above water, stood a strong square tower scrying as an autwork to the Castle, but more especially in the share that should have been also only the boys of another house, Ecchaller, was alway the farst to avenge the injury and bear the blame that should have been also only the boys of another house, Ecchaller, was always the farst to avenge the injury and bear the blame that should have been also only the farst to avenge the injury and bear the blame that should have been also only the farst to avenge the injury and bear the blame that should have been also only the farst to avenge the injury and bear the blame that should have been also only the farst to avenge the injury and bear the blame that should have been also only the farst to avenge the same that should have been also only the farst to avenge the injury and bear the blame that should have been also only the farst to avenge the same that should have the allowed the same that should have been also the fall the same that should have been also the fall the fall the fall the same that should have been also the fall the fall the same that should have been also the fall the fall the fall the same that should have been also the fall the

base of the rock on which it was built, a few foot above water, stood a strong square tower serving as an outrook to the Castle, our more especially to guard the chain which was laid from theneo to Dartmouth Castle, to protect the haven against the incursions of the enemy.

The spot to which the chain was attached as still to be seen—steps and platforms out in the rock may still be traced though nearly obliterated by this and winter seas. The walls of the Castle of Gamerock are still standing; but those which for him to every direction about formed the tower below it are nearly lost, leaving the saidenty disappeared. His services the total properties are still standing; but those which the part but to no year, and whilst the cargo was discharging he saidently disappeared. His formed the tower below it are nearly lost, leaving the saidently disappeared. of (comerce), are still standing; but those which formed the tower below it are many lost, leaving the port but to for purpose. They could only learn that he had more than out of the self-drock, as proof of that which must have stood upon it. The smaller stones and mortar of which the walls were composed on each more and the self-drock the subject of the self-drock and the stones and mortar of which the walls were composed on each ed the floor, forming a shapeless mass, from one that they exist belonged, where she come, but where the vessel belonged, whence she come, which is subject to the purpose.
