Thought and talk bring truth no neare Trouble lies in douis for me.

List the vision he made clearer;
Grid arise and set mo tree?

Baffled, weary, restless, helpless
I prayed on through all the night;
But God spoke amid the darkness;
Work thy way out list bight.

I am weary for the taces.

Thou hast aken to fly heaven;
I have graped so long for graces.

That issee to others given.

Friends most dear are taken from us, in my path grim evils turk.

What can change these troubles for me And God answers: Ooly work.

Still I orled: O God deliver!

Work is hus the common lot,
And my gricks will last forever
It Thy strong hand belp me not.

But the Massier knew: His answer came in Tresh taxes militipated;
And my prayer for bleesing brought in Chiefly work on every side.

Ohiefly work on every side.

So I took the duties pressing.

Near me, and with patience sought.

To nerform the work: what blessing.

Has the more endeavor wrought?

Work can make the and light-hearted.

Work makes strong the young sind oid.

Work wins treasure: far more couly.

Than the idler's gens and gold.

Therefore work? God calls thee to it,

Not in anger, but in love.

Take thy work with joy, and do it.

As to please thy God above.

All life a beat has not been taken.

While good work remains to thee.

Lat thy heart grow glad in labor:

Love and work and happy be!

The love of the Spirit visits the loneilest and least, comforting all verechadness with an assurance that suffices for
life and death. It is love that recognises
love. Without love one cannot comprehend the love of God. The more loving
the soul is, the more strong the sense of
divine affection.—Mossoundar.

But the sarsaparilla in the same old sersaparilla that made the record—50 yeaven of cures. Why don't we better it? Well, we're finuch in the condition of the Bishop and the raspberry? "Doubtless," he said, "God might have made a better berry. But doubtless, also, He never did." Why don't we better the naraparilla; We can't. We are using the semise of phesses that cured the indians and the Spaniards. It was more than the same of sphess that cured the indians and the Spaniards. It we see ne way of improvement. Of course, if we were making some secret chemical compound we might... But we're not. We're making the same of service themical compound we might... But we're not.
