DANISH EXPLORERS MEET HANDSHIP IN GREENLAND

Captain Koch and Party Reduced to Eating Flesh of Pet Dog.

EXPEDITION SUCCESSFUL AFTER A TERRIBLE YEAR.

Forced to Kill Some of Ponies to Afford Fodder for Remainder—Finally Rescued by Passing Ship.

Copenhagen, Aug. 14.—The story told by Captain Koch, the Danish explorer, of the crossing of Greenland in company with three companions, shows that the dangers and hardships to be encountered on the great inland ice field have not decreased since Rear Admiral Robert E. Peary and Dr. Fridtjof Nansen made their journey over a portion of the same deserted water.

The Danish leader and his three companions, Dr. Wagners, a German, Larsen, a sailor and Sigurdson, a native of Iceland, were reduced during their journey to eating a pet dog, the only animal left. After landing from their ship on July 24, 1912, the first mishap encountered by the expedition was the loss of a number of ponies. Shortly afterward their motorboat disappeared through the thin ice and the explorers were obliged to wait until nearly the end of September before the ice was sufficiently thick to carry their sledges and horses. When they were ready to start Dr. Wagners fell, with the result that one of his ribs was broken.

The expedition arrived at about ten miles to the east of Queen Louise Land on October 13, and went into winter quarters there.

"Cannibal" Ponies.

The shortness of fodder necessitated the slaughtering of all the ponies with the exception of five, which were gradually trained to cannibalism by being fed on the flesh of their brothers.

During a sledging trip, Captain Koch fell forty feet into a crevasse, breaking his right leg. This accident kept him helpless in the hut throughout the winter in a temperature generally fifty degrees below zero.

On April 20, this year, the four men broke camp, and with five sleds each, drawn by a party of ten men, they proceeded on their march to the west coast. During the first forty days violent blizzards raged, practically without cessation. The ponies became snow blind and so exhausted that the men were obliged to kill three of them. Later the sun's rays tormented the travellers and burned the skin from their faces, which soon had the appearance of raw beef, while the temperature at night was thirty below zero.

Ponies on Snowshoes.

Snowshoes were fitted to the feet of the two remaining ponies, and proved of wonderful assistance to them in the loose snow. But for the Continued on Page Two.

NEW YORK STATE NOW HAS TWO MEN AFTER GOVERNOR'S JOB

Lt. Governor Glynn Will Demand Executive Chamber Today—Impeached Governor Sulzer Looks His Doors and Will Fight—Interstate Complications Already Develop.

Albany, N. Y., Aug. 14.—Lt. Governor Glynn will make a formal demand upon Governor Sulzer tomorrow for possession of the executive chamber at the capitol, and thus bring to an issue the question as to who is governor of the State of New York. This was announced tonight by friends of the lieutenant-governor.

Governor Sulzer, it is said, will refuse to relinquish possession of the chamber, and in anticipation of such a demand is understood to have already prepared a letter flatly declining to accede to it.

What further action will then be taken by Mr. Glynn was not indicated tonight, but the general expectation was that the rival claimants to the governor's chair would resort to the courts for a test case under an agreed statement of facts.

Word came from Saratoga tonight that Secretary of State May would refuse to recognize Mr. Sulzer as governor, unless Attorney General Carmody should render an opinion to the contrary. Adjutant General Hamilton formally recognized Mr. Glynn as governor this afternoon.

Complications Already.

Already the double exercise of authority has precipitated complications with two other states—New Jersey and West Virginia.

The impeached governor signed requisition papers today from the governors of each of these states for the extradition of prisoners in the custody of the State of New York.

TROOPS PATROL STREETS OF NANAIMO; NO VIOLENCE

Numbers of Militia Seems to Have Awed the Strikers.

DAY PASSED WITHOUT NEW DEVELOPMENTS.

The Men Sullen and Silent—Secret Conference at Strike Headquarters May Portend Further Trouble.

Vancouver, August 14.—One full regiment of the militia of Vancouver, of the regular five hundred men, has been summoned to Nanaimo. The call was issued this afternoon, and called for the Seventy-second Squadron. A wire received from Colonel Roe, of Victoria, to Lieut. Lackie, this afternoon, was the first intimation that the local force would be needed. The order was at once issued for the men of the Squadron to parade at their headquarters at six o'clock in full marching order, with greatcoats and provisions for 24 hours in their haversacks.

The intention is to have them land at Nanaimo about daybreak tomorrow. Besides the infantry, detachments of the engineers of North Vancouver and the field ambulance from this city will go along.

Nanaimo, B. C., Aug. 14.—The militia, comprising detachments from three Victoria regiments, marched to town at 10 o'clock this morning through streets thronged with sullen miners. The five hundred men comprising several companies, each from the Fifth regiment, the 8th Buffers, and the Royal Canadian artillery, swung along in silence only revived now and then by a sharp command of the officers. Each of the soldiers carried rifles with solemn, sullen miners. Their ammunition pouches sagged heavy, indicating that they were prepared for business.

What most impressed the five hundred strikers gathered along the streets through which the troops marched was the presence of two Maxim guns, which were drawn by a Canadian Artillery company. The timbers of the gun carriages held several thousand rounds of ammunition, which was also another grim indication of the serious nature of the militia's mission.

Col. Hall halted his troops on Front street where the forces commanded the main business section as well as the approach to the wharf. The strikers crowded the sidewalks in the vicinity and although some of the miners hurled taunts at the soldiers there was no attempt to openly oppose them.

After preliminary arrangements for feeding the troops had been made by Colonel Hall, he sent his men to breakfast, one company at a time, while other companies were posted across each corner of the street approaching the blocks where the troops were massed. The entire situation is regarded as extremely critical.

The strikers are sullen, yet determined and there have been many hurried conferences and meetings in the U. M. O. Hall since the arrival of the militia this morning. There is an air of mystery about the strikers' headquarters, and indications are that they have not played their cards yet. So far as wind velocity goes one of the worst storms of recent years hit this city full blast early this evening and played havoc generally up and down the business streets, carrying away a number of vacant corner signboards, driving in plate glass windows and generally turning everything movable upside down.

Winnipeg, Aug. 14.—A cyclone is reported to have struck Rivers, Manitoba. The storm is general throughout Manitoba and is growing worse. Telegraph and telephone service is completely disorganized.

The crowd had reached home safely from the stampede when, shortly after six o'clock, a heavy thunderstorm which had been working from the west, broke up, accompanied by sheets of rain. An hour later, the storm center worked directly over the city.

Luckily no pedestrians were on the street, for many corners on Main street and Portage Avenue are strewn with heavy wreckage.

All wires working out of Winnipeg are very hitched and many sections of the city are in total darkness.

TWELVE HUNDRED DEAD IN CANTON FIGHTING

Soldiers Join Chinese Rebels in Campaign of Pillage.

ATTACK ON FOREIGN CONCESSIONS FEARED. Authorities Powerless to Keep Order—Huge Fire Destroys Barracks—Reports from the Provinces.

Canton, China, Aug. 14.—Twelve hundred were killed in the fighting between the rebels in Canton City yesterday, and pillage is in progress everywhere. Half of the soldiers have joined the rebels, and together they have looted the principal goldsmiths' and silversmiths' stores. The local generals are powerless owing to dissensions among themselves. An attack on the foreign concessions at Shamen is believed by foreign residents to be in contemplation by the disorderly elements and the detachment of Indian native troops stationed there as a guard was reinforced today from Hong Kong in preparation for eventualities. The foreign quarter serves as a buffer between the two forces.

A huge fire broke out today destroying thirty barracks, and as a result of the accompanying rioting, the exodus of the civilian population continued without abatement. Traffic on the Hankow Railway has been suspended.

From Fay Yen to the north of Canton, a report was received today of a rising of brigades, and from other parts of the province of Kwang Tung news has reached here that a state of chaos exists.

General Lugs-Chui-Kuang, with his northern troops, has retired from the vicinity of the city.

WILL PROBE WHOLE SYSTEM

Police Department of Montreal Likely to be Investigated—Provincial Authorities Asked to Make Inquiry.

Montreal, Aug. 14.—Application, it is said, has been made to the provincial authorities for a complete investigation of the police department of Montreal and its methods.

Further, it is announced that it is more than likely that the investigation of the John H. Roberts charges against Chief of Police Campeau, which the board of control has decided shall be a judicial affair, adds the charges which will result from the twelve affidavits will be heard together, if possible. This will result in an immediate investigation of the department, and will be used as a lever toward getting the provincial government to probe the whole system.

ST. JOHN PROFESSIONAL GOLFER WAS FIFTEENTH IN TOURNAMENT

Blue Ribbon of Canadian Golf Now Being Contended for in Montreal—"Dark Horse" from Fort William Makes Splendid Showing Against Cracks.

Montreal, Aug. 14.—The first day's play in the open championships of the Royal Canadian Golf Association closed with a comparatively unknown player in the lead, the dark horse being J. Burke of Fort William, who completed the 36 holes two shots ahead of Albert and Charlie Murray. This is Burke's first appearance in Canadian golf, and though he had won championships in the Western States, he was an altogether unknown quantity in this part of the country, and his good work in the morning passed almost without notice, most of the attention being centered on Davie Black of Ottawa and Charlie Murray, who were paired to play together during the day. The Royal Montreal professional was in much better form than at Beaconsfield and he and his club-mate, Desjardins, were the sensations of the morning, both turning in a card of 73.

N. Thompson, of Hamilton, made a good start, and at the turn had made the best score for the first nine holes. While he finished the day in fourth place, Thompson did some remarkable brilliant work holes out in three or better, no less than twelve times, a feat unequalled by those who succeed in turning in better cards than his. The morning's play saw Charlie Murray and Desjardins in the lead, while only a shot behind were Albert Murray, Holden of Lambton,

Burke of Fort William, who while not playing a conspicuous game at the start, was improving steadily, and Bell, of Scarborough, who duplicated his Tuesday performance by putting up a brilliant game in the morning and falling behind on the afternoon's play. Bell's score of 34 for the last nine holes of the morning was not equaled throughout the day, but the rest of his play was very loose.

In the afternoon Charlie Murray and Desjardins both fell off, the latter's card of 80 being especially poor. Murray seemed unable to negotiate the short holes and relinquished the lead to Burke, who with a card of 73, finished the 36 holes two shots ahead of Albert and Charlie Murray. Among the amateurs, Charlie Grier, only player to show real form. His score of 77 for the morning and 80 for the afternoon was easily the best among the amateurs, who scored 168 and 170 respectively.

F. Rickwood, of St. John N. B., was fifteenth in list of competitors with a score of 81 in the morning and 80 in the afternoon, a total of 161.
