## LITTLE BITS OF SPORT CHATTER

Catherine Brown is certainly a prodigy of prodigies. Catherine is a New York swimmer of the tender age of nine. She swims a mile each day just for fun, and in the recent three-mile Marathon swim at River-ton she finished twelfth among 32 women who started. A physician, who examined the little mite, was amazed at her condition. "Why, you are not even tired," he exclaimed.

"Ty" Cobb played his first game for Detroit, which was also his first major league game 14 years ago (Aug. 30, 1905), at Bennett Park, in Detroit, against the New York Yankees. Of the men who were in the game that day, few are now playing baseball, and only one, Hal Chase, who acted as an emergency runner, being out of the game because of some injury to his hand or arm, is in the majors. First time up in that game "Ty" led off with a double.

Chief Bender, who is with the Richmond team of the Virginia League, has won 37 out of 39 games. Last Saturday he pitched a three-hit game. He is going to remain with Richmond until the end of the post-season series, which will be between Richmond and Petersburg, who captured the pennant for the first half of the season.

It looks as if the West will have a world's series all its own. Only a miracle can stop the once despised Cincinnati Reds and Joe Gage's particular favorites, the Chicago Whites, from winning their respective championships.

Someone writes: I priced a horse in the market recently, and have since been wondering whether the figure named for it, in this automobile age, was due to demand or to the fact that horses are so scarce they are valuable as curiosities.

Jack Kearns, manager of Jack Dempsey, announced that he would accept an offer just received from the manager of Georges Carpentier, French champion, for a match in England between Dempsey and Carpentier, for a purse of \$175,000.

The offer was received early Monday morning by cable just as the theatrical company of which Dempsey is a member was leaving for Decatur from Detroit.

The Cincinnati Reds now lead the Giants seven and one-half games. They have 20 more to play, the last 15 of which will be on their home grounds. The Giants have 26 games still on their schedule, but most of them are to be played on the road, the majority of which in the West. It should now be easy sailing for Moran.

Apparently Billy Hayes, the New England champion sprinter, does not agree with Horace Greeley's old saying, "Go West, young man." For Billy believes New England is the place for an education and wants to locate at Dartmouth or some other big eastern university this fall. If Billy does locate here he will be unable to compete in the big inter-collegiate games his first season, on account of the one-year residential rule.

Billy Quail made such a hit in his three-mile race at the Scotch games that the former American professional champion regrets that Alvin Karpis, George Meade and Jose Vermeulen, the wonderful French champion, are over on the other side. Quail is confident that he can take the measure of either of these runners over the three or five-mile distances.

Johnny Mack, trainer extraordinary for Yale athletics, has returned to New Haven, predicting one of the most glowing prospects for the coming football season. "I would hate to be any of those non-service men on the teams this fall when some of the overseas boys tackle them," is the way Johnny expressed the coming prospects.

George Baileu, a commissioner of Australian Stadiums, Ltd., has left for the U. S. A. to travel through the Philippines, America, Great Britain and France to draw up contracts with the state stars of all countries to go to Australia and show their ability against that country's best. Mr. Baileu was one time manager in England of the famous Jimmy White and his well-known champion Johnnie Hasham. He has been given a free hand to engage the world's leading boxers.

Jimmy Tracy, the young Australian heavyweight, standing six feet four inches high, weighing 210 pounds, with a reach of 83 inches, and who has won 25 contests out of 30 in Australia, is leaving at an early date for the United States to challenge Jack Dempsey. It is said that he will carry a manager who is backing him to the extent of some hundreds of thousands of dollars.

## GOLF EXPERT AND BOY WONDER IN ACTION

Chicago's golf pennant came fluttering down from the sunshade and was swept away overhead in the wake of that of the Metropolitan district when Charles Braun, Jr., of Edgewater, the title holder, and Robert A. Gardner, of Overland, were both eliminated in the second round of the tournament for the national amateur golf championship on the links of the Oakmont Country Club, in Pittsburgh. Gardner was the first of the pair to go, falling before "Bobby" Jones, Atlanta's "boy wonder," by a margin of 5 and 4 after a game in which there was both brilliant and sensational golf, while Francis Oumet, of Woodland, Boston, dethroned Evans in a contest that went to the thirty-sixth hole and was decided on the last putt, the margin in favor of the Easterner being 1 up.

## MAKING PLANS FOR THE LOUISBURG BIG DRY DOCK

Representative of Leading Liverpool Firm of Shipbuilders Now on the Ground to Make Preliminary Survey.

Sydney, N. S. W., Sept. 3.—J. H. Smith, a member of a leading Liverpool firm of shipbuilders, spent Tuesday in Louisburg inspecting a site chosen there by local interests for the erection of a dry dock. According to report Mr. Smith will shortly have engineers at work making plans of, and surveying for the proposed site, J. W. Madlin and W. N. MacDonald, with several Louisburg men, have been active in the enterprise which has construction of a dock at Louisburg as its purpose. Sometime ago, it was reported that Ottawa had approved of the plan, and it has been understood that efforts were being made to interest Old Country capitalists in the project.

The alleged debt, he said, was a loan of \$8,718.85 made by B. B. Johnson, and the National Commission to the Old Buffalo Club of the International League, to enable it to fight the Federal League. No other club, he asserted, had any responsibility in the matter.

**EGYPT EXCITED OVER REPORTS FROM UNITED STATES**

Alexandria, September 3.—On receipt of a telegram asserting that the foreign relations committee of the United States Senate had decided that Egypt should be independent, great demonstrations by natives were held in front of the American consulate on Saturday and Sunday.

The Egyptian, magnifying the report into a realization of all the nationalist aims formed processions and marched through the streets.

There were demonstrations also at Cairo, where mounted police dispersed the crowds, arresting several persons.

## WEDDINGS

## NEW YANKEE PLAYER

The Yankees, of the American League, have just obtained the services of Pinelli, a most promising youngster from the Sacramento club. Pinelli comes very well recommended to Miller Huggins, the boss of the Yankees outfit. It is expected that Pinelli will get plenty of chance to show his wares, as the Yankees intend to give every recruit a chance before the season winds up.

## Ultimatum To International

National Commission Demands Payment of a Loan—Protection Withdrawn if Amount is Not Paid.

New York, Sept. 3.—Denying that the new International League is indebted to the National Commission, David L. Fultz, president of the league tonight replied to an ultimatum of the commission demanding payment within thirty days of \$700, alleged to be due on penalty of withdrawal of protection from "those clubs which were represented in the old league."

Mr. Fultz said the threat to withdraw protection was of "little concern," but that the International "resented the accusation that the league members have failed to pay their indebtedness."

The alleged debt, he said, was a loan of \$8,718.85 made by B. B. Johnson, and the National Commission to the Old Buffalo Club of the International League, to enable it to fight the Federal League. No other club, he asserted, had any responsibility in the matter.

Justice Sir John Sankey, after considering the question of coal legislation, recommended nationalization of the mines, royalties for the state and just compensation for the owners. His report recommended the immediate application of local administration of mines through local districts and national mining councils, and legislation for acquiring mines after the plan had been worked for three years, with just compensation for the owners.

The coal miners declared themselves in favor of taking a ballot on the question of direct action, and ready to vote in favor of such ballot at tomorrow's meeting of the triple alliance of the transport workers, miners and railway men.

The recommendation of the National Executive Committee that the government scheme for dealing with coal mines be rejected and decided to agitate for nationalization of the mines at the Trades Union Congress at Glasgow on September 8th.

Robert Smillie, the miners' leader, declared the miners were generally convinced that nationalization of the mines was essential in the interests of national industry and the poorer consumers.

William Brace, member of Parliament for Monmouthshire, and President of the South Wales Miners' Federation, said that "coal is more valuable than gold." Mr. Brace asked why the government trifled with a product so essential to the reconstruction of the nation and asserted that the only solution of the problem was the nationalization of the mines.

Sir Nangis, the parti-colored cocker spaniel owned by Bliss A. Smith, St. John, won two firsts in his class at the Toronto exhibition and went to the winners from a field of over sixty entries.

## COAL MINERS WILL NOT URGE STRIKE NOW

If They Are Unable to Secure Adoption of the Sankey Report, Question of Strike Will Be Decided at Glasgow Conference.

London, Sept. 3.—The National Executive Committee of the coal miners, which resolved today to recommend that delegates attending Wednesday's conference reject the government scheme for dealing with coal mines, declares that a strike at this time is not urged to secure adoption of the Sankey report.

They assert, however, that the "adequate" scheme, which meets next week at Glasgow, will be invited to declare that "the fullest and most effective action shall be taken" to secure the government for the owners of Sankey plan for future governance of the industry.

The committee rejects the scheme of the National Executive Committee, under which the government would buy out the owners of coal lands who receive royalties from mining companies, give the miners a share in the control of the mines, organize the mines into districts and establish a fund for improving the living conditions of miners, as "wholly impracticable," and one creating "great trouble."

Justice Sir John Sankey, after considering the question of coal legislation, recommended nationalization of the mines, royalties for the state and just compensation for the owners. His report recommended the immediate application of local administration of mines through local districts and national mining councils, and legislation for acquiring mines after the plan had been worked for three years, with just compensation for the owners.

## Chief Bender Still In Game

Has Been Secured by Cincinnati Reds—Expected That He Will Be Used as Advisor

"Chief" Bender is still in the game, advanced age as a ball player. "Chief" joined the Athletics as far back as 1903 and in 1905 was one of the stars of the World Series of the year, though not of the magnitude of Mathewson. He has been coming back strong with the Richmond club this season. Here is what a fan wrote to Grandstand Rice about the Indians' recent performance:

"On Thursday (this being some while back) he beat Petersburg, on Saturday he won the first game of a double-header; on Monday he pitched again and beat Rube Oldring's club; on Wednesday he again won the first game of a double-header, and in the second game he went in as pinch pitcher, drove out a three-base hit in the 10th frame, scored on the squeeze play, struck out three men in the next inning as a relief pitcher and then scored the winning run. I submit this as an unequalled record."

It may be on account of these things that Pat Moran has secured Bender for the Cincinnati Reds, but it may be, too, that "Pat" thinks the "Chief" may be useful in counsel in case Cincinnati gets into the World's Series.

## LIQUOR INSPECTOR ACCUSED OF VERY SERIOUS OFFENCE

Moncton Having Its Troubles Over Intoxicants, Requiring a Group of Officers to Watch Affairs.

Moncton, Sept. 3.—Milk dealers in Moncton who beginning September 1st jumped their milk from 13 to 15 cents a quart, are to be called to book by the city council. The matter is to be taken up at a meeting of the city council, which the milk dealers are notified to attend, to be held next Monday night.

Some interesting complications developed in a prohibition case brought before the police magistrate today by Provincial Inspector Moore, of St. John. Last night Inspector Moore searched a livery stable run by one

Duthwright, for liquor, also searching every person in the building at the time. No liquor was found. Geo. Crossman, who was included in the search, appeared in court this morning charged with resisting the officer. His counsel, at the hearing, charged that Crossman had been robbed of \$25 by the officer making the search. He alleged that Crossman had \$25 in his pockets, and after the officer searched him it was missing, being taken by the officer, and a demand is made for the return of the money. The case was stood over until next Wednesday when Crossman's counsel promises interesting developments. He also says he can prove Crossman had the money on him when the officer went through his pockets.

Several provincial inspectors have been sent here recently by Chief Prohibition Inspector in an effort to clean up the alleged violations of the Prohibition Act in Moncton.

## BODGERS—ANCESTORS OF THE PROFITEER

(London Express.)

In the year of our Lord one thousand and five hundred and ninety-six, Elizabeth being upon the throne, England, an Order in Council passed against the humble gentry who we now know as profiteers, but the Augustan age of English literature were called by the fine name of bodgers.

In these spacious days methods as spacious also, moreover, her Majesty's Council had no lack of means for restraint of evildoing, apparently, but of course we were to tell the door what it thought of him.

"We understand," so runs the chronicle, "that upon the late death of all kinds of grain and butter, cheese and other victuals in Healm, although Almighty God mercifully withdrawn His hand from the world, we were to tell the door what it thought of him."

Against which foul corrupt and malicious greediness there both many good laws and sundry orders of late given to all justices other public officers to reform a notable abuse, and therefore we are not but charge and command you to cause diligent inquiry to be made in all parts of the country as well in towns, of such as do directly or indirectly thus buy or bargain, that you shall apprehend such, take them home such as they shall lawfully buy, and compel them to give their unlawful bargains and sharp reprehension to seek to take them, but also to certify us of the names, and thereby to avoid the offence of the inferior sort, who are not but be grieved to see such correction in the better sort suffered without restraint. Precisely. That is way to talk to bodgers.

## EMPIRE SETTLERS

Liverpool shipping coteries are interested in an important Government scheme involving overseas settlement within the Empire of ex-servicemen and men—sea, land, and air force—and of ex-servicemen also. For third-class passages will be provided under specified conditions for applicants and their dependants.

It is pointed out that there is much likelihood of the Government of the self-governing dominions being able to provide for ex-servicemen women from this country as settlers in the land during this year, owing to the need for settling or repatriating their own returning troops.

Under these circumstances it has been arranged that applications should be sent in at any time up to the 4th of December, 1920, or within one year from the date of release from service. Ex-servicemen and women, therefore, be in no hurry to put their applications, and they should their own interests make certain beforehand that openings are not available at home. The largest number of opportunities overseas is likely to open to men with agricultural experience and to women prepared to take up work as helps in the home or on farm. Applicants are cautioned that it is desirable not to take any step towards breaking up their household arrangements, etc., to the last possible moment. Arrangements are being made to approve applications with a document which will take the place of a passport—Liverpool Post.

## Postponement In Grand Circuit

Rain Interferes With the Running of Big Races—A Re-arrangement Will Be Necessary in Programme.

Hartford, Conn., Sept. 3.—Five early closing events, with purses totalling \$23,000, are on the programme of Grand Circuit races scheduled for Charter Oak Park tomorrow. The races were called off again today because of rain.

The Charter Oak Stakes for 212 trotters, purse \$10,000, is the feature event of tomorrow's card. Mignola and McGregor the Great are entered in this contest. The three races held over from Tuesday are to be held. They are the two-year-old trot, purse \$2,000; the 2000, who pace, \$5,000, and the 2000 trot, \$3,000. The 2000 trot, purse \$5,000, from today's card, completes the list.

Friday's programme also calls for five events.

## QUOT CHAMPIONSHIP.

Halifax, Sept. 3.—The Maritime Quot championship is creating interest among the quotters. The date set is Tuesday afternoon, Sept. 9th; on the Wanderers grounds. The executives of the different clubs must send the names of competitors to the president of the Maritime Amateur Athletic Association on or before the preceding night. A gold medal goes to the winner, and a silver medal to the second man.
