

### NOTEWORTHY ADDRESSES AT C. B. A. BANQUET

Especially Cordial Were Expressions of Sympathy Between Men of Canada and U. S.

Ottawa, Sept. 2.—(By Canadian Press)—Noteworthy addresses marked the annual dinner tonight of the Canadian Bar Association, and especially cordial were the expressions of sympathy between representative men of Canada and the United States.

"We know not whence it cometh, or whether it goeth," he declared, "now that the heart of the American people beats with loyalty to the Mother Country, from which it has derived its fundamental principles of liberty and equality and the administration of justice."

On the other hand, Hon. Arthur Meighen, Prime Minister of Canada, was no less emphatic that "while this country is determined and genuinely British, it is determined and genuinely friendly to the United States."

Sir Robert Borden touched on the subject of the League of Nations, expressing the view that sufficient preparation had not been made for consideration of such relations at the Imperial Conference next summer, and expressing the hope that the question would not be taken up without the gravest possible consideration.

Judge William Wadhams, of the court of general sessions, New York, definitely took the stand that the United States would join the League of Nations. "We shall join the League of Nations, and we shall do it wholeheartedly," he exclaimed, his words being loudly applauded.

In Judge Wadhams' view, too, it was "the serious obligation of the United States" whether we are members of the League or not. If we were the only State left in the world that could furnish the millions and men in order to preserve Poland against enemies that would destroy her independence, if we were the last resort between a reign of terror and despotism and the maintenance of the peace of the world, it would be our high privilege to furnish such power as was at our command.

The New Officers Canadian Bar Association today elected officers for the ensuing year as follows: Hon. President, Right Hon. C. J. Doherty, Minister of Justice; President, Sir James Aikins, Lieut-governor of Manitoba; Hon. Secretary, Hon. E. Fabre, Surveyor, Montreal; Hon. Treasurer, G. P. Henderson, K. ### GAS IN THE STOMACH IS DANGEROUS

Recommends Daily Use of Magnesia to Overcome Trouble. Caused by Fermenting Food and Acid Indigestion.

Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis accompanied by serious stomach ulcers. Food ferments and sours, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Bismarck Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and sour out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Bismarck Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

### DAMAGING EVIDENCE AGAINST MRS. NOTT

Who is Held As Aiding and Abetting the Murder of Her Husband.

Bridgeport, Conn., Sept. 2.—Mrs. Ethel Hutchins Nott, Elwood B. Wade and John E. Johnson, jointly held in connection with the killing of George B. Nott, husband of the woman, at his home last Sunday, were called to the witness stand to testify this afternoon in the closing session of the inquest conducted by Coroner Phelan. Neither of the three principals answered questions directly concerning the alleged murder, on advice of counsel.

Testimony by Sergeant Lyddy, police stenographer, regarding interviews between Captain John H. Regan, of the detective bureau, and Mrs. Nott, Wade and Johnson, at which Lyddy was present, was introduced in an effort to show that Mrs. Nott had "kicked the pipe" to Wade, during the latter's struggle with Nott, urging Wade to "finish" her husband to stop the latter's "hollering."

So far none of the neighbors are coming; shut him up," Mrs. Nott is alleged to have told Wade.

### LUXURY TAXES SEND CANADA'S INCOME HIGHER

Total Revenue for August Was More Than Double That of Previous Year.

Ottawa, Ont., Sept. 2.—With an increase of \$6,331,171.68 as respects war tax collections (which included sales and luxury taxation for the month of August just closed) as compared with August of last year, the new taxes have begun to make their weight felt in the National Treasury.

Canada's total revenue for the month just closed was \$11,374,280.28, as against \$5,251,801.41 for the corresponding month of last year. The increase in the amount of war tax wiped out the decrease of \$198,915.78 in the total amounts received from excise and seizures, fines, methylated spirits and law stamps, and left a net increase in inland revenue for the month of \$6,122,489.57.

The total revenue for the fiscal year ending March 31st last was slightly over \$540,000,000. A conservative estimate, based on the August totals, places the total collections for the current year at approximately \$115,000,000. However, it is expected that the total revenue for the fiscal year will be \$150,000,000 or more.

### GERMANY ACCEPTS FRENCH DEMANDS

The demands differ on one point from those formulated in the note of August 31. The French Government contends that the regrets of the German Government shall be made at the Embassy by the Prussian Minister of Foreign Affairs and Interior.

### COMFORT BABY'S SKIN WITH CUTICURA SOAP AND FRAGRANT TALCUM

Great Britain Has Sent Communication to Washington.

DEFINE FRENCH AND BRITISH AGREEMENT

Is Both Commercial and National in Its Effect—U. S. May Enter Protest.

(Copyright, 1920, by Public Ledger.) Washington, Sept. 2.—Great Britain has forwarded to the United States government its explanation of the agreement entered into between England and France at the San Remo conference for the division of the oil supply of Mesopotamia and other near Eastern territory to be controlled under mandates.

The communication, according to officials of the State Department, was "garbled in translation," but it is understood that it does not go into the matter as fully as this government would like and that there probably will be further exchanges in order that this government may determine absolutely the policy that is to be pursued by Great Britain and France in the development of territory placed under a mandate.

The original effort of the United States was to determine whether or not the agreement entered into by the countries dealt with commercial companies or was an understanding between the two nations. The answer, it is said, develops that the agreement is both national and commercial. The correspondence is to be made public as soon as the contradictory mail copy received from the American embassy in London.

That the position of the foreign powers does not yet coincide with that of the United States is apparent from the intimations that were thrown out today. The United States is opposed to any action that would tend to close the doors of commercial exploitation anywhere in the world, more especially in territory where any particular nation may have been granted a mandate.

Went Mandatories Defined. This government does not uphold the contention of the Allies that there is further necessity for rationing of raw material or for the intervention of any of the poorer nations will be benefited by development of the closed door type. There are in the terms of the peace treaty several definitions of the powers that shall secure a mandatory, but it is the opinion of officials of this government that the situation which has arisen over the Mesopotamian agreement calls for further explanation, so that the United States may become aware of the rights and obligations in a mandatory.

The reply made by Great Britain, it is believed, sheds considerable light upon the position taken by that government and will enable the United States to take a more responsible part in territory where any particular nation may have been granted a mandate.

Nothing is to be done until the British government has called for a meeting of the League of Nations. The Executive Council of the League, which has been here for a number of days, has shown a marked interest in the matter. It is believed that the British government will not be able to avoid a meeting of the League of Nations.
