"Suddenly I noticed some eight or ten suddenly I noticed some eight or ten the them, grinning men with inery eyes careying bits of human botics. The sight was hideous. Brown and bleeding detached legs and arms were danging over the conquerors' shoulders, and limbless trunks were bundled under their arms. The meaning of the scene was only too plain.

The bushmen had been beaten and the
prisoners cut up to supply food for the

great feast of rejoicing.
"A few hundred yards from my house was a large open space. To this place the wariors repaired; fires were lit, and the mutilated remains of the slain were cooked and eaten. This was my first and only experience of a cannibil feast. Horror-stricken with the revolting sight, we ndered when our turn was to come."

In 1879, Mr. Cole, of the Church Missionary Society, first commenced his mis-sionary work in South Africa. He reached Durban on his outward journey subsequent to the Zulu war. Thence he crossed the Zanzibar, and then crossed over in a na-tive dhow to Sadani on the mainland and made final preparations for his tramp in-

Native carriers were secured armed to the teeth, and paid in advance. Many of them, of course, soon deserted. After 26 days' weary travelling Mr. Cole reached Mpwapwa, a sort of Clapham Junction for the s'ave-dealers, whose trade this party was thus enabled to suppress to a large extent by sending down the names and descriptions of the largest dealers to Zanzibar where they were apprehended on their arrival.

The natives of Mpwapwa are the Masai, said to be descendants of the Shepherd Kings of Hyskos of Lower Egypt. The Masai were at that time greatly oppre by the tribe Wagogo on one side and the Wahche on the other. The first were the great cattle raiders, and the second a sort of brigands, accustomed to ambush the Masai and hold them up to heavy ransom. It can easily be imagined that under these conditions Mpwapwa was in a con-

tinued state of warfare.

Matters came to a crisis when the Wagogos, in large numbers, came down near the mission house on a cattle-raiding ex-

About the Discords.

Washington, June 26.-The officials here receive with regret and concern the re-ports from Che Foo that discord existed between the Russians and the so-called Anglo-Americans. Coming from the officers of the Terrible it is considered as largely "sailor talk." At the same time it has been recognized from the outset that such a heterogenous force gave opportunities for serious division, as it i vell known that the sailors and soldiers under British commanders and that Britinclination to take orders from a foreign superior. But it has been hoped that the peril of the moment would lead all differences to be sunk in order that a common purpose might be executed against a common enemy. One of the chief dangers apprehended has been that the foreigners would separate into factions, no only reducing their power against the Chinese, but opening up the more serious possibility of an international breach be-tween the forces of the foreign powers. Besides this it is felt here that the Rus sian authorities, always sensitive, will quickly resent the imputation of barbarism and cruelty. The officials here accept the charges with great allowance and they particularly express their displeasure at having the Americans brought into an apparent disruption with the forces of another power. Thus far the United States has acted concurrently with all the powers with no one more than any other, and the authorities here will use every effort to prevent bickerings and backbitings.
