The Storm Lined the Island With Wreck-

White Head, Grand Manan, Dec. 10 .-

A coal famine has prevailed in Digby this week. No nut coal has been available, and soft coal is being almost entirely used. The schooner Eltie has been chartered to load coal at New York for W. E. Blarcom at Digby for \$1.50 per ton freight. This is the largest freight ever paid from New York on hard coal for Digby. The average price is about 90 cents per ton. Mr. and Mrs. William Frankland have gone to Fredericton to spend Christmas with Mrs. Frankland's parents.

White Head, Grand Manan, Dec. 10.—
The storm of the 5th inst. was felt here in all its severity and on the following morning the island presented a pitiable spectacle. The beach was lined with wreckage from small craft and it was discovered that in White Head passage alone 17 beats had been lost. One has subsequently been recovered. The road along the sea wall presents a very demoralized appearance. Posts that have been sunk to protect the roads have been completely washed out, bridges gullied out and a general breaking up of the roads effected. Many have had their sheds, slips and smoke houses practically destroyed. At the lowest estimate the island has been damaged to the extent of \$5,000 which, considering the failure of weirfishing this year, is no small item. It has even been gently suggested that as

which, considering the nature of weirfishing this year, is no small item. It has even been gently suggested that as we are so exposed to the wrath of the elements—perhaps more so than any other flocaliary in New Brunswick—that the good government of which many of us are patrons should make some special provision for a case of this kind.

On Wednesday evening the buoy moored off Point Prangle came ashore and was placed beyond high water mark by Wm. and Chester Frankland. The buoy, which is a new one, is undamaged.

Misses Emma and Eva Franklin left by Thursday's boat for St. Stephen where they will spend the winter.

Mr. Nelson Morse and family have removed to Nova Scotia for the winter. They were accompanied by Miss Mabel Small, who will visit friends there.

Schooner Fannie May is loading with medium herring for St. John market. Capt. Chency expects to start on the little.

The special Christmas music at the early mass and at 10.30 o'clock in St. Peter's church will be in the main the same as that at the re-opening of the church, but the Credo will be from Mozart's Seventh Mass. The orchestra, under leadership of Prof. Williams, will assist. Musical vespers will be sung in the evening. There will be midnight service, December 31st.

STORY OF A REGIMENT.

Summary of Work done by Canadians in South Africa.

Today a considerable force of the Cana dian contingent which have been serving in South Africa arrives in England with the Composite regiment of Household Cavalry, says the London Daily Mail ome of the Canadians have already returned to their homes, and have there received the welcome which their services have deserved. Others, for the most part have deserved. Others, for the most part convalescents from the seat of war, have visited England, and, in common with members of other colonial corps, have been inspected by the Queen. But, now that the organized detachment is arriv-ing, a brief summary of the work which has been done by the Canadians in South --Funeral of the Victim of a Terrible Accident.

has been done by the Canadians in South Africa will be of interest. The Canadians have always been eager to help bear the burden of the mother country's military difficulties. In the Crimea a Canadian contingent joined in the operations, while in the earlier Nile campaign a detachment of boatmen was furnished to aid Lord Wolseley in the navigation of the cataracts.

As soon as it was evident that a peace ful issue to the South African trouble was impossible, an organization was set on foot in Canada with the object of offering a contingent of volunteers for

The Mounted Rifles and Strathcona's Horse formed part of Colonel Alderson's corps of mounted infantry. Now that the question of term-razing has been brought into prominence, it is interesting to notice that the first reprisal of this kind, after the tide of war had changed, was made in connection with the Canadian Mounted Rifles. At Leeuwkop, where General Pole-Carew was operating with the view of relieving the pressure on Dewtedorp, the enemy made use of a
