

CANADA'S FERTILE CROP AWAY SHORT

Less Hay and Clover by 2,000,000 Tons

Bumper Products of Potatoes and Other Roots

Fear Expressed by Census Bureau That Tubers May Rot—Less Fall Ploughing Than Usual Owing to the Extreme Rainy Season.

Ottawa, Nov. 17.—A bulletin issued yesterday by the census and statistics office contains estimates of the yield, quality and value of the root and fodder crops in Canada during the past season, based upon returns from agricultural correspondents at the end of October.

Upon total areas for potatoes, turnips, mangolds, etc., hay and clover, alfalfa, fodder corn and sugar beets, amounting to 8,732,000 acres, as compared with 9,100,000 acres last year, the total value of the products is \$102,000,000, compared with \$102,700,000, a decrease in value of \$700,000.

This decrease is caused by the diminution, both in area and yield of hay and clover crops which is less than last year in area by 420,000 acres, in yield by 2,000,000 tons, value \$13,500,000; of sugar beets, 204,000 tons, value \$1,700,000 and of alfalfa, 210,000 tons, value \$3,600,000.

In quality all these crops are marked high, the standard percentage being about eighty-seven, excepting for turnips, etc., which are ninety-three, and for fodder corn which is eighty-two.

Fear Rot in Potatoes.
A word of caution is necessary with regard to potatoes, for whilst yield and quality are generally good at harvesting, there are numerous reports of rotting in the cellars, the produce of the heavier soils having been considerably affected by the constant rains.

The areas estimated to be sown to fall wheat in five provinces of Canada, this season aggregate 1,085,000 acres, as compared with 1,136,000 acres the year last year. This represents a net decrease of 70,000 acres, or six per cent. In Ontario the acreage sown is 600,000 acres compared with 700,000 acres the year last year. This represents a decrease of 101,200 acres or 12.5 per cent. In Alberta the figures are 312,000 acres, as against 300,700, an increase of 11,300 acres of three and three-quarter per cent, and in Saskatchewan the area sown is 72,000 acres against 53,000 acres, an increase of 19,000 acres of thirty-six per cent. Smaller areas in Manitoba and British Columbia complete the total.

The decrease in area is due to the persistent rains which have hindered ploughing and sowing operations. The condition of the crop on October 31 was 92.67 per cent of the standard for the five provinces. It was above ninety in each province, except Manitoba, where the small area of about 4,000 acres had a per cent of eighty-eight and one-half.

The percentage of fall ploughing completed upon land intended for next year's crops ranges from forty-five to seventy-seven in Prince Edward Island for the year, and from twenty to thirty in Alberta, and thirty-eight in British Columbia for the year.

It is remarkable that both this year and last year the seasons in the three northern provinces have been adverse to fall ploughing and less than about twenty-five per cent of such ploughing has been possible in both years, as compared with a more normal percentage at the same date of from fifty to seventy-five.

WOULD MAKE CHURCH MARRIAGE DECREE A CRIMINAL OFFENCE

E. A. Lancaster, M. P., Reported to Have Scheme to Get at Ne Temere Order Through Amending the Code.

Ottawa, Ont., Nov. 16.—It is understood that E. A. Lancaster, the father of the Lancaster marriage bill, which received its death blow at the hands of the British privy council last summer, has evolved a new method to insure that the measure or similar decrees shall have no effect in Canada.

Mr. Lancaster has been unwillingly convinced by the ruling of the privy council that it is not within the power of parliament under the British North America act to enact a universal marriage law. He is further convinced that any attempt upon his part to have the constitution changed would have little hope of success in the face of opposition from one of the provinces of the confederation.

The scheme, which it is said he is determined upon, is one which contemplates no change in the constitution. In brief it is to amend the criminal code so as to declare that anyone promulgating or seeking to make operative the ne temere motto proprio, or any other ecclesiastical decree of the kind purporting to override civil law, shall be guilty of an indictable offence.

There are many in Ontario, it is said, who would prefer such an amendment to the criminal code to a universal marriage law, and it is said that if Mr. Lancaster does not undertake to submit such a bill there are several other Ontario members who are ready and anxious to do so.

Mr. Lancaster believes that there is an imperial precedent for such a measure in the present home rule bill which is now before the British parliament.

FEAR GRAINS BLOCKADE AGAIN

Great Congestion at Buffalo and Lake Ports Reported

A WORD TO FARMERS

Prominent Winnipeg Dealer Deplores the Wild Rush of Growers to Market Their Crops—Says It Forces Prices Down—Not Enough Ocean Steamers to Handle the Trade.

Winnipeg, Nov. 17.—What is going to happen in the shipment of grain through the lake and ocean outlet yet this fall is hard to predict, according to a statement by James Carruthers, one of the most prominent grain men in Canada. Mr. Carruthers says:

"It is a fact that the terminals at Buffalo are already so badly congested, that it takes ten days to get a vessel loaded. The bulk of the wheat consumed all through the New England and the eastern states and practically all the export wheat of the United States goes through the port of Buffalo. In addition to this thirty-five per cent of the export grain from the Canadian west goes through that port. The American railways east of Buffalo are already congested and they have recently increased the rate on grain."

"I was over in England only a short time ago and asked prominent vessel owners why more vessels are not available for ocean freight, and especially grain, as the rate on the latter is so good. They replied that rates are good everywhere and it is impossible to get vessels to carry all the ocean tonnage offered. This is the case of the fact that every shipper is filled with orders."

"If farmers would only consider that every fall when they rush their grain to the market and expect the railways to move such vast quantities in such a short time they are simply taking the most direct course to force down the market they would see that they had granaries and all the grain as the market absorbs it. The great quantities of grain moved by the railways in the Canadian west this fall has had the effect of reducing prices. The lake grain is moving to the head of the lakes faster than it can be taken from there to its destination."

BOSTON GIRL DIED IN BATHTUB OF HEART DISEASE

Autopsy on Marjorie Powers' Body Discloses No Evidence of Foul Play—Employer Released.

Boston, Mass., Nov. 16.—Satisfied after an autopsy on the body of Miss Marjorie E. Powers, who was found dead in a bathtub in a hotel yesterday, that death was caused by heart disease, Joseph C. Palmer, district attorney, ordered the release today of her employer, Arthur T. Cummings, president of the A. T. Cummings Company, produce dealer, with whom she went to the hotel on Wednesday.

The district attorney gave out the following: "Dr. George Burrill, medical examiner, performed an autopsy in the case of Miss Marjorie E. Powers and has reported to me that it is his opinion that death was due to natural causes, viz: Pericarditis, myositis and distention of the heart. There is no indication of drowning and no physical condition signifying suicidal intent."

"After consulting with Dr. McGrath and Captain Armstrong, I am of the opinion that there is no evidence of any criminal act and no evidence on which to base criminal proceedings."

Dr. McGrath made no official comment on the finding of a glass which had contained gin in the room in which the girl died, or to the presence of mustard in the water in which she was found. Cummings went to his home at Winthrop after his release.

"I knew my husband was innocent," said Mrs. Cummings tonight, "and I hope we have heard the last of the terrible affair."

C. P. R. PROMISES BETTER SERVICE TO FREDERICTON

Fredricton, Nov. 15.—The transportation committee of the board of trade in response to complaints of train service between St. John and Fredericton, have a communication from acting superintendent Cronin, stating that in future the branch train would stop at the junction five minutes for the C. P. R. from Halifax. This train has missed connection several times this week and patrons complain. Provincial Secretary McLeod, who has been laid up for several weeks by an attack of nervous indigestion, is improving.

The case of MacDonald, administrator, vs. Warner & Co., was taken up in the supreme court this morning. Mr. Taylor, for the defendant, moved to set aside the verdict for a new trial. D. Mullin, K. C., contra. The case is still before the court. This is the last on the docket. The court will likely adjourn until next week.

DESPERATE BATTLE NEAR CONSTANTINOPLE

Bulgarians Pound at Defences

Allies Acknowledge Receipt of Peace Proposals and are Arranging Terms—Cholera Raging in Turkish Capital With Thousands of New Cases Daily.

London, Nov. 17.—The negotiations for an armistice have failed and the Bulgarians today opened the attack against the Turks all along the Thracian lines. The heavy artillery duel continued throughout the day.

It appeared to be a Bulgarian preparation for an infantry attack. The Turkish fleet participated vigorously in the defence at the Marone end of the line, and presumably Turkish warships assisted at the Black Sea end also.

Nasim Pasha, the Turkish commander-in-chief, in a despatch this evening claims to have repulsed the Bulgarian attack and destroyed three Bulgarian batteries.

No news of the battle has been received as yet from Sofia and no information as to the strength of the forces engaged on either side.

The Bulgarian government organ, Mir, reverts to the subject of peace and plainly intimates that the allies are prepared to consider the question of an alliance with Turkey, provided the latter promptly accepts their terms, which would give territory to be a neutral state and making friends of her conquerors.

The Balkan states clearly have in mind the formation of such an alliance as a means to defy European interference in the disposition of the spoils of war. Every day brings fresh despatches regarding the terrible spread of cholera. It is now stated that there are a thousand cases daily with a mortality of fifty per cent, which the Turkish authorities are impotent to take any measures to prevent its further spread.

Terrible Condition at Constantinople.

Constantinople, Nov. 17.—(By indirect route).—There are now over a thousand cases of cholera daily in and around Constantinople. The death rate has reached 50 per cent. The refugees are quite unable to cope with the situation.

On Thursday last 4,000 cholera patients arrived by train at San Stefano. They were taken to the quarantine station. If they had been of the lower order of animals they could not have been more neglected.

Yesterday a foreign doctor, assisting in the military hospital, discovered by accident that five soldiers dying of the cholera had been placed among the wounded. He ordered their removal. Bearers took up the dying men on their shoulders, but their condition was such that he ordered the bearers to drop them. They literally died, and the unfortunate were left lying in the mud for an hour, growing and in convulsions, before they were removed to the morgue.

An extraordinary feature of the conditions behind the Turkish lines at Thessalonika is the indifference of the army to the presence of unauthorized visitors. Any foreigner wearing either a fez or European hat may hire a vehicle and drive to the Turkish entrenchments and inspect the troops.

Several foreign officers, who visited the lines on Thursday and Friday report the situation hopeless. The trenches are only partly dug. A huge pile of barbed wire is stacked near the entrenchments, never having been put to use. The troops for the most part are unable to work, because cholera-infected soldiers are keeping watch in the earthworks.

Unnumbered sick lie groaning in the fields in the rear, some of them in their last agonies. Countless cholera-infected fugitives are struggling back on the fan-boats, and converging on Hadzidere from the outer forts. Thousands of patients and hundreds of dead lie on the ground around Hadzidere.

At Kerkira Lake, the sick sources of Constantinople's water supply, there was a guard of soldiers. But twelve of them died and fifteen others were stricken with cholera on Thursday night. There is a great fear that the whole waterworks will be contaminated, involving Constantinople in the gravest danger.

The three physicians at Kerkira have been unable to do more than bury the dead. Turkish officers regard further resistance impossible but that it is equally impossible for the Bulgarians to occupy the Turkish position without endangering the whole Bulgarian army through cholera.

Great Battle On.
Constantinople, Nov. 17 (10.45 p. m.).—The great battle between the Bulgarians and Turks is on along the line of the Thracian fortifications. Nasim Pasha, the Turkish commander-in-chief, sends the following despatch:

"The battle which commenced this morning with an attack by the Bulgarian infantry lasted until an hour after sunset. The enemy, who advanced chiefly facing our right wing and our centre, was repulsed by our infantry and artillery fire. Three Bulgarian batteries were destroyed."

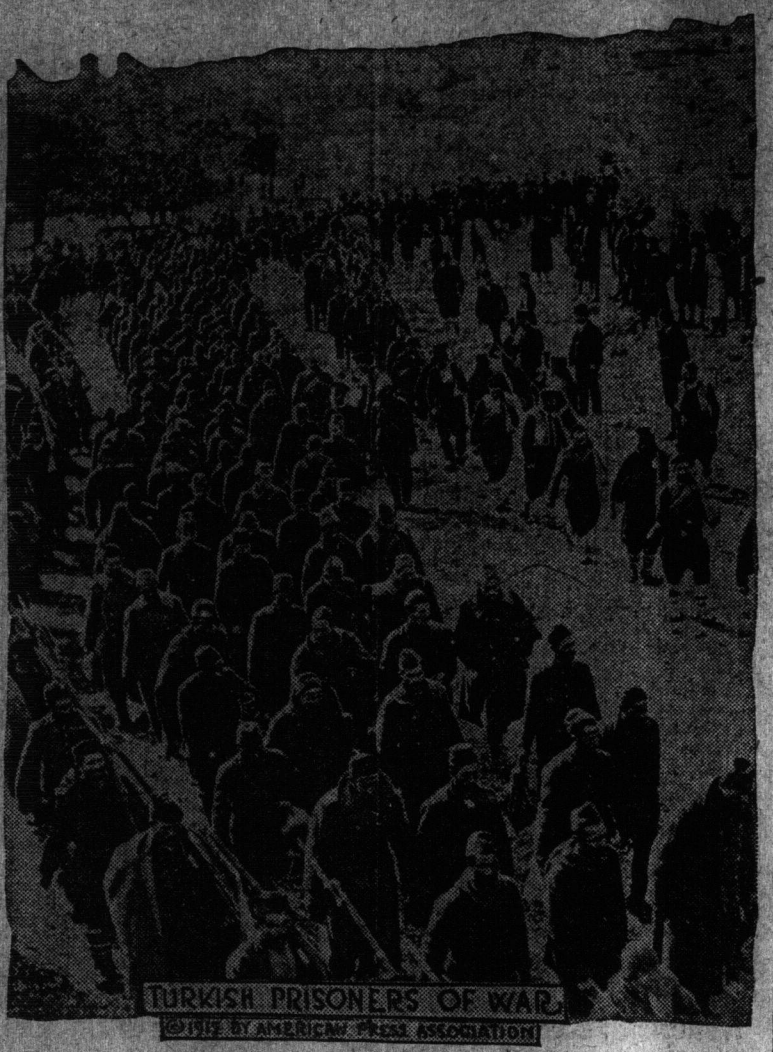

All through the day the sound of the heavy guns booming distantly was heard in Constantinople. It ceased only with darkness.

The firing along the entire line was evidently preparatory to an infantry attack.

Plot to Restore Abdul Hamid.

Constantinople, Nov. 16.—Several leading young Turks were arrested in Constantinople today, including Sulaiman Nasif, ex-nephew of Bagdad and Muli Eddin, editor of the newspaper Tanin, for complicity in an alleged plot to upset the government. Other arrests are impending in connection with the plot.

TURKISH PRISONERS OF WAR UNDER GUARD OF BULGARIAN SOLDIERS

This is an actual picture of a batch of Turkish prisoners of war under the guard of Bulgarian troops at Stara Zagora. The allied forces have suffered few losses through capture, and the Turkish prisoners taken must remain in military prisons or under guard until hostilities cease, as there is no opportunity for an exchange.

CROWN MINISTERS CHARGED WITH GRAVE OFFENCES

Petition Against Return of Tory Member for MacDonald Alleges That Hon. Robert Rogers, Premier Roblin and His Attorney General Ordered the Arrest of Liberal Workers in Recent Bye-Election.

Winnipeg, Nov. 17.—A petition signed by John Ernest Woods, of Somerset, father, and by Dr. Andrew W. Mills, of Trebrer, dentist, against the return of Alexander Morrison for the constituency of MacDonald, making the usual charges, has been filed. The petition, however, involves Hon. Robert Rogers, then minister of the interior in the government of the Dominion of Canada, and now minister of public works; Hon. Sir Rodmond P. Roblin and Hon. Colin H. Campbell, and W. H. Sharpe, alleging that they gave instructions to magistrates and police officials to imprison certain persons soliciting votes for R. L. Richardson.

BULLET-PROOF ARMOR INTERESTS MILITARY MEN

Constantinople, Nov. 16.—The porte has received an acknowledgment of its communication respecting direct negotiations with the Balkan States. The allies at present, and by Dr. Andrew W. Mills, of Trebrer, dentist, against the return of Alexander Morrison for the constituency of MacDonald, making the usual charges, has been filed.

TO PROBE TORIES' ELECTION METHODS

MacDonald Contest to Be Aired

Liberals Will Bring the Matter Up in Parliament

Premier Roblin and Hon. Robert Rogers Will Be Important Witnesses—Men Arrested Without Cause, to Tell Their Stories—Coercion of Voters in Richelieu Also to Be Inquired Into.

Ottawa, Nov. 17.—The irregularities disclosed in the aftermath of the election of Alexander Morrison, Conservative candidate in the federal bye-election of MacDonald, will come up for investigation before the privileges and election committees of parliament early in the coming session.

A prime fact case of the perversion of justice and interference with the freedom of the elector will be submitted by one of the members at an early period of the session and it will be moved that the methods by which Mr. Morrison gained his seat in the house be investigated before the committee and that witnesses be called to testify to the irregularities alleged.

Among the witnesses who will be called to give evidence will be Hon. Robert Rogers, and probably Sir Rodmond P. Roblin, together with Magistrate McKen and several of the Manitoba government's semi-judicial and departmental officials. In addition there will be called to testify witnesses whose names have been wrongfully arrested and kept in custody until after the election without any evidence being adduced against them.

The legal advisers of these latter will be called. It is the firm intention of the opposition to have the matter thoroughly investigated and the "men higher up" in the irregular election transactions revealed to parliament.

An investigation before the privileges and election committee, may, if necessary, endure for the life of a parliament and it is the intention that the forthcoming investigation continue as long as there are witnesses to be heard and testimony to be submitted.

It is considered probable also that an investigation may be held in connection with methods employed on behalf of the government candidate in the Richelieu bye-election, the particular features being the alleged intimidation of voters among the government employees in the Sorol shipyards.

At the close of the sermon in Wesley Memorial church this evening, a resolution was unanimously passed by the congregation expressing confidence in Chief of Police Rideout and the city council as regards their attitude toward Scots' Act enforcement. The resolution declared that partisans of the liquor traffic in Moncton were in league against law and order, and are making attempts to establish open houses and secure the dismissal of valued city officials by methods, fair or foul.

CAMPBELLTON MEN HELD ON BURGLARY CHARGE

Campbellton, N. B., Nov. 15.—At the police court, before Judge Judge Matheson, four young men named Daniel Dugay, Joseph Dugay, Warren Lavigne and Angus Dugay, were charged with breaking into the store of Joseph Duncan on the evening of Nov. 8, and stealing goods to the value of more than \$700.

The crown withdrew the charge against Daniel Dugay, with the consent of complainant. On the names of the other three being called, Warren Lavigne and Angus Dugay took their place before the magistrate. E. R. Richard prosecuted and after the charge was read, Joseph Duncan gave evidence of looking the store at 6.30 p. m. on Friday evening, and on entering it Saturday morning he found that the place had been entered through a broken pane of glass in a back window. He identified the goods which were produced in court. Some of the goods were recovered by himself in Robert Duncan's field behind a pile of brush, on the afternoon of Wednesday, the 12th inst.

Daniel Dugay, being called to the stand, gave evidence of seeing the accused on the evening in question. Wedge told the witness he was going to make a haul of money. The three accused left his house about 12 o'clock at night, returning between 1 and 2 o'clock with an armful of plunder each. Wedge said he got the stolen goods in Dugay's collar and went back for another load. They had since removed the goods, witness telling them they must remove the things, as he did not wish them round his house.

Witness identified the goods as being similar to the ones he saw the accused with. He heard Wedge say he broke in the back window.

The case since left Campbellton on a schooner sailing from here for American ports. Mrs. Lizzie Dugay, wife of the last witness, corroborated her husband's story.

On being asked by the magistrate if they had anything to say, the prisoners pleaded "not guilty," and elected to give evidence on their own behalf.

Their story bore out the testimony of the witness, Dugay, they claiming that Wedge broke into the store and he called them from the sidewalk to give him a hand to carry the stuff.

The magistrate committed them to stand trial at the next term of the supreme court. The capture of the burglars was a clever piece of work on the part of Chief Hughes and the local force. Being engaged on the lumber camp murder, they were unable to get properly working until Wednesday, when a good piece of detective work placed the police in possession of the knowledge of where the stuff was hidden.

The accused will be tried at the next sitting of the court.

Alma Hunters Successful.

Chatham, N. B., Nov. 15.—Snow fell all day yesterday. Last night the fall was light and this morning it is almost rain. So far about six inches of snow has fallen. Sleights are out.

Alma Hunters Successful.

Alma, N. B., Nov. 15.—Yesterday, Peter Thomas killed a fine moose and a large deer.

Edgbert Elliott killed a deer yesterday.

AGED MAN KILLED BY H. & S. ENGINE

David Gowan, of Acadia, Hadn't a Mark on His Body and Doctor Concludes Shock Was Fatal.

Yarmouth, Nov. 17.—David Gowan was killed last night at Acadia by a Halifax & Southwestern engine. The driver of the engine saw Gowan, who was eighty-five years old, walking on one side of the track, but thought as the train drew near, that he would step to one side.

The aged gentleman, being deaf, did not hear and started to cross the track. The emergency brake was immediately put on and the train stopped, only striking him enough to throw him overboard. The train hands picked Gowan up and carried him to a house a short distance away, where he died in fifteen minutes. The doctor said death was due to shock, as there was not a bruise.

TAKING MATTER OF GOOD ROADS VERY SERIOUSLY

Saturday, Nov. 16.

Plans for a vigorous good roads campaign were discussed by the executive of the St. John City and County Good Roads Association yesterday afternoon in the board of trade room. It was decided to endeavor to increase the membership of the local association and also to try and induce people in other parts of the province to organize for the campaign. A circular letter will be sent out to people in different parts of the province. Membership pins are to be secured and everything possible is to be done to increase the interest in good roads. It is likely that the good roads convention will take place in St. John at the time of the automobile show, in order to take advantage of the reduced railway rates. The date will probably be fixed for some time early in February.

One of the indications that the members of the St. John City and County Good Roads Association have taken the matter seriously was that only one member of the executive was absent from the meeting yesterday. A publicity committee was formed to include the following: W. F. Burditt, R. B. Emerson, G. Fred Fisher, P. W. Thomson, R. D. Patterson, Senator Daniel A. W. Thorne, M. W. Doherty, L. Hising, T. P. Regan, Maurine T. W. Tennant, F. W. Coombs and W. J. McAlary.
