Ayer's Cherry Pectoral, A MONG the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact that Cherry Provonza, will and does relieve and care the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its tower; and cases of cine. The most dangerous affections of the Pulmonary Organs-yield to its tower; and cases of
Consumptions, cured by this preparation, are
publicly known, so remarkable as hardly to be
believed, were they not proven beyond dispute.
As a remedy it is adequate, on which the public
may rely for full protection. By curing Cougha,
the forerunners of more serious disease, it saves
unnumbered lives, and an amount of suffering
not to be computed. It challenges trial, and convinces the most scoptinal. Every family should
keep it on hand as a protection against the early
and unperceived attack of Pulmonary Affectious,
fixurable, and too often futal, if neglected. Tender lungs need this defence; and it is unwise to
be without it. As a safeguard to children, amid
the distressing diseases which beset the Throat
and Chest of childhood, CHERRY PROTORAL is invaluable; for, by its timely use, multitudes are
rescued from premature graves, and saved to the
love and affection contered on them. It acts
speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one
will suffer troublesome Influenzas and painful
Eremachitis, when they know how easily they
