BACHELOR'S CONSOLATION. A Romance of the Needle. BY ROCKAFELLOW.

n a snug little cot, not a thousand miles off, Lived a lonely, contented old "bach." Who cooked his own grub and dined by himse And had no one to sew on a patch.

So he oft went with holes in his clothing. There no doubt were misses and maids qui near Who would fly to relieve his distresses, But he oft had declared he could never abide The appearance of hoopskirts and dresses.

IV.

Now, this lucky old bachelor heard by a friend,
Or read in his morning journal,
of the wonderful stitching of sewing machines,
And considered the matter nocturnal. Having fully determined to get a machine, He spent a whole day in inspection, For an hour or so would never suffice To select from so large a collection.

For some thought the "Wheeler & Wilson" the best.

And others the "Wilcox & Gibbs."
While others affirmed that the agents of both Were too much inclined to tell fibs.

And a few for the "Florence" were ready to fight.
While most liked the "New Family Singer;"
Another one swore the "Osborne" was best,
The last one, I think, was a shaker. So first to the "Wheeler & Wilson" he went,
Where he found them making a shirt,
At the end of each seam they used needle and
thread.

SUMMER STOCK! And by experience he knew they would hurt

IX.

Then down to the agent of "Florence" he went,
And told him the part that was slack,
to the "Florence" a certain advantage had
gained By the feed that could make it sew back. But our Bachelor friend was dissatisfied still, For the "Florence" so complicate seemed, He feared the minutiæ might "get out of fix," And could never be wholly redeemed.

Then they told him another advantage they had
Over other machines in the West,
That four different stitches with it they could
make. And from four he might sure get the best. ur hero replied, "What's the use of the our I If one of the stitches is best, Vhy that is the right one to use all the time, And what will you do with the rest?" The "Howe" and the "Wilson" both vainly he tried,
The "Domestie" and "Osborne" as well,
But the "Howe" was too heavy, the "Wilson"

too light. And the "Osborne" broke down on a fell. The "Finkle & Lyon" or "Victor" he tried,
The "Ætna," "Blees," "Leavitt" and "Weed,"
Till worried and vexed with his fruitless research,
He scarce hoped in the end to succeed. After trying in vain many other Machines, Without any hope of success, He called where the "Singer New Family"

And they quickly relieved his distress. TVI.

For here half a dozen machines were engaged
In stitching of different sorts,
Which they did so complete, and with so little He acknowledged the truth of reports.

In lightness of running, in stillness and speed,
In construction so simple, yet strong,
Sure none but the "New Family Singer" would Though he'd soarched through the infinite

Then the stitch was so neat, so elastic, so strong
That he vainly endeavored to break it,
And so many advantages in it combined
That he quickly decided to take it. J. D. LAWLOR, Manufacturer of the New Singer Family, feb 25 40 King street.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannan, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive de-rangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS as they will speedily remove the dark-colored viscid matter with which the colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.
