FROM CUBA TO BAHAMAS

Terrible Devastation Caused by Wednesday's Hurricane

Many Lives Lost on Land and Sea and Incalculable Damage Done to Property all Along its Path

Washington, Oct. 19.—The tropical hurricane which swept from Cuba to the Bahamas now appears to be raging with full force about 200 miles out in the Atlantic. Its only shore effect tonight being a falling barometer and a 25 mile wind blowing off the South Carolina coast.

New York, Oct. 19.—A special cablegram from Havana to the Evening Telegram says:

"Over 100 are dead today from the worst cyclone that has ever visited this city. The whole American fleet was menaced and the cruiser Brooklyn torn from her moorings and thrown upon the shore."

"Ninety-four of the fatalities are confined to natives while 16 foreign residents are reported killed. More than 1000 tents in camp Columbus have been blown to atoms, houses unroofed and one trooper probably fatally hurt."

"Fortunately the storm gave everybody half an hour's warning and when the blast arrived the mines on shore had sought shelter in the warehouses. All but the Brooklyn rode out the storm. These ships include the Minneapolis, Texas, Denver and Prairie."

"When the tempest reached its height buildings were shaken as with an earthquake, street cars were washed from their tracks, windows were blown in like paper, and roofs and doors swept away."

"Several of the smaller frame houses were blown from their foundations and were wrecked. These were situated in the poorer districts and were the cause of a mass death among the natives."

"It is estimated that the loss of life and damage would have been greater had it not been for the timely warning given by Father Leve at Gnoita. He is a noted weather observer of Berlin county, Va. He saw the cyclone coming at 7 o'clock, one hour before the storm descended, that a cyclone was coming and his warning was immediately heeded."

Washington, Oct. 19.—Secretary of the navy Bonaparte has been unofficially notified that the cruiser Brooklyn has been floated and is all right.

Havana, Oct. 19.—A storm of unprecedented severity accompanied by a torrential downpour of rain, swept over Havana and Pinar del Rio provinces Wednesday night and today, causing deaths in this city and the serious injury of a dozen or more persons. The damage is estimated at \$2,000,000. The dead are all Cubans of the poorer class.

The United States cruiser Brooklyn dragged her anchor until her stern grounded in the mud off La Regia. She got off this morning without injury.

The storm caused havoc and confusion among the shipping interests. Many buildings were badly damaged and nearly all the trees in the city and suburbs were uprooted. The two thousand American soldiers and marines at camp Columbia were put to great inconvenience. Nearly all the four hundred tents in the camp were blown down, but there was little actual damage. Harry Fordick, steamer, with the 28th infantry from Sioux City, sustained probably fatal injuries. He was crushed by a tree which fell through the barracks in which he was sleeping. Fred Suttle, of Fort Snelling, had his head seriously injured and Thomas Sonant, of Reading, Pa., sustained serious injuries to his back.

One hundred and fifty tobacco barns in the Aquilar district have been destroyed. The recently planted tobacco crop has been seriously damaged. Serious damage is reported from Guira section, the centre of the banana and plant growing industry. The shops are said to have been practically destroyed.

Many small farmers have lost their lands and are in great distress. Matanzas city was practically unharmed, only a few houses there sustained damage. No loss of life has been reported from outside Havana, but five persons were injured at Nuevitas, the university of Havana sustained damages amounting to many thousands of dollars. The light wooden structures over the sea baths at Vedado were badly wrecked. The great unoccupied brick building covering the old united railroad wharf near La Regia was demolished. The principal loss of life occurred in a tenement house in Inquisidor street occupied by many poor families. The projecting upper portion collapsed and then three floors fell. Eight of the inhabitants were killed and five others injured. The other fatalities resulted from falling signs and cornices, contact with live wires or drowning.

During the height of the storm there was great alarm among the guests of the hotels and other hotels. Doors, windows and skylights were blown in

and the rain flooded the rooms. The destruction of trees was a most remarkable feature. Throughout the length of the Pardo, scarcely one tree remains standing. Havana has thus lost one of its chief beauties for it will be many months before they can be replanted. The parks are now desolated.

San Salvador, Oct. 19.—A tempest has raged incessantly for ten days throughout the republic flooding the rich valleys, principally that of Madrid, some resulting in great loss of life and the destruction of cattle and crops. The Salvadorean man of war Izalo was lost at Acutipa. Buildings have fallen, burying their occupants in the ruins, and the iron bridges over the principle rivers have been carried away. Up to Wednesday 16 million tons of water had fallen. The aqueducts and electric light plants at Sonsonate and Salvador have suffered heavy loss. Today the storm is abating. The railroads, telegraphs and commerce are paralyzed, but traffic is being restored in some towns of the republic. The water mains at some places have disappeared, the rivers are bringing down the bodies of persons drowned in the storm and the carcasses of cattle, and the slight of these tends to increase the terror of the people. The losses are incalculable.

Miami, Fla., Oct. 19.—The steamer Lucia, Captain Bravo, has sunk off the Florida coast. One of the excursion steamers arrived in port tonight bringing 60 wounded, who were taken to the hospital and it is said there are 28 dead bodies which will be brought up tomorrow. It is believed that a portion of the Florida Fish and Produce company's fleet was destroyed. Manager Adams sent out one of their boats this morning to look for the men and boats and on their return they reported no sign of the fleet.

Captain Bravo says that he anchored on the leeward side of Elliott Key, 28 miles south of Miami, yesterday morning and that soon after a tidal wave engulfed the island. He says there were 28 residents on the island all of whom were lost. The St. Lucia was crushed by the same wave and of the hundred persons on board 25 were killed. Captain Bravo was injured. A cargo containing 100 is said to have been blown away from its moorings at Elliott Key and afterwards picked up near the Bahamas islands.

Jacksonville, Fla., Oct. 19.—Passengers arriving here from Miami tonight report that the damage done there by the hurricane was nothing like as serious as reported. All the hotels at Miami and other east coast points escaped damage, there being no damage of consequence anywhere north of Miami. At Miami the greatest damage was to small houses and fences.

San Juan, Porto Rico, Oct. 19.—The Red Line steamer Philadelphia, from La Guayra, Venezuela, for New York, arrived here today. The captain reports that a Dutch steamer was lost in the cyclone between Curacao and La Guayra.

The Philadelphia encountered the cyclone upon leaving the harbor of La Guayra on Monday. She was blown ashore and slightly damaged. This and the heavy weather accounted for her delay in reaching here.

As a result of the disaster of the Philadelphia, the Independent Democratic League and money has been demanded of them. Our men refused to give up, and it was only then that the League put up opposition candidates. The men who demanded money were not ordinary individuals belonging to the League, but representatives of that organization. If we had paid what they asked there would be no League ticket in the field against us.

The Royal Dutch West Indian mail service, whose steamers are called "Dutch steamers" on the Venezuela coast, has two steamers, which according to their schedule, should have been in the vicinity of Curacao when the Philadelphia reported the disaster. One is the Prinz Wilhelm II, 1150 tons, which should have left Curacao October 13 for Puerto Cabello, and La Guayra on the 16th day of this month. The Prinz Wilhelm V, captain Metz, 1190 tons, should have left La Guayra October 18, Puerto Cabello on the 19th and Curacao on the 20th. These steamers carry passengers and freight.

EAST INDIAN MINING EXPERT Greatly Impressed with Alnsworth Campaign Would Prosecute Mayor Buscombe

Nanabhal D. Dhuru, who has been examining the mines in the Alnsworth district for the Indian government, on a general survey of the country to ascertain the methods employed in Western Canada, returned yesterday afternoon to Nelson. Mr. Dhuru is much pleased with what he saw and says that if the showings at Alnsworth were in his country, with its supplies of labor and capital near at hand, very much more would be made of them than is apparently being done in this district.

Mr. Dhuru said he saw mineral showings of more than average value, judged from an Indian standpoint, apparently neglected. He has come to the conclusion that the average prospector of the west is missing more than half which he sees and many a good thing he is apparently missing altogether because he does not see it and is merely searching for the local mineral of the district, whatever it may chance to be.

As to Alnsworth district, the Indian visitor considers it to be a wonderful country and one that is destined to play a much larger part in the mineral fortunes of the Kootenay than it apparently has done in the past.

Referring once again to the question of Hindu immigration, Mr. Dhuru said that only twice in his sojourn in Canada has his point of view been correctly represented in the public press on this to him important matter, the first occasion being in Montreal by the Star of that city and quite recently again here by The Daily News of Nelson. He regrets extremely the attitude assumed by the mayor of Van-

couver and thinks the first citizen of British Columbia's first city has overstepped his official prerogative in assuming powers which Mr. Dhuru declares, in his opinion, only belong to the Canadian government. "In fact," said Mr. Dhuru, "I am so convinced that mayor Buscombe has done that which is wrong that were I one of your minded men of the west, of whom we have heard so much in the orient, I would at my own charges, prosecute him on behalf of the poor people whom he is oppressing. If these men have arrived of their own volition there is no more reason to oppress them than for expressing any other European that arrives. If somebody has invited them and has done so wrongfully, are you afraid to prosecute that person?"

JUDGE DUFF'S SUCCESSOR

Ottawa, Oct. 19.—It is rumored that county court Judge W. H. P. Clement, of Grand Forks, formerly of Dawson, is to be elevated to the bench of the superior court of British Columbia, vice Mr. Justice Duff.

Mr. Clement is recognized as an authority on British constitutional law.

SPLIT IN HEART CAMP

TAMMANY LEADER TELLS HIS STORY TO GRAND JURY.

INDEPENDENCE LEAGUE MEN DENY THE ALLEGATIONS

New York, Oct. 19.—Charles F. Murphy, the leader of Tammany Hall, today appeared before the grand jury in response to a summons from the district attorney's office, to tell upon what he based his statement of yesterday that the managers of the Independence League were attempting to "hold up" Tammany candidates for money, promising to withdraw League tickets in districts where the alleged demands were met.

It is understood that Mr. Murphy was questioned for thirteen minutes and that as a result of his testimony subpoenas were subsequently issued for a half dozen other persons, including representative Joseph J. William S. Chanler, and Joseph Pendergast.

Later Mr. Murphy had nothing to add to his original charges. Representatives of the League, who were denied emphatically by any of the authority in the organization had been guilty of the practices attributed to them.

Murphy charged that certain Independence League managers had demanded money for the withdrawal of their candidates in congressional, senatorial and assembly districts where a third ticket had been put in the field. He added, however, that William R. Hearst, the Independent Democratic candidate for governor, knew nothing of this.

"It is a fact," said Murphy, "that many of our candidates for congress and the legislature have been approached by representatives of the Independence League and money has been demanded of them. Our men refused to give up, and it was only then that the League put up opposition candidates. The men who demanded money were not ordinary individuals belonging to the League, but representatives of that organization. If we had paid what they asked there would be no League ticket in the field against us."

DISCOUNT SIX PER CENT

BANK OF ENGLAND'S MOVE TO PROTECT RESERVES.

VERY HEAVY GOLD WITHDRAWALS MADE RECENTLY

London, Oct. 19.—The Bank of England raised its discount rate to 6 per cent this morning.

As the directors of the bank separated yesterday without changing the rate of discount, it is assumed that they have since received information of unexpected impending gold withdrawals from the bank's reserve, which has steadily declined during the last two months and is now in such position that the directors consider it necessary to stop further depletion to any considerable extent. Reserves have been about \$45,000,000 during the past six weeks. The board of trade returns show that gold shipments to the United States were nearly \$20,000,000 for the first nine months of the present year. It is this steady outflow which the increased bank rate seeks to check.

DEADLY WEDDING FEAST

GUESTS ARE POISONED BY CHICKEN COOKED IN COPPER POTS

TWO HAVE SINCE DIED AND SEVERAL ARE SERIOUSLY ILL

Hamilton, Ont., Oct. 19.—Two weeks ago Mr. and Mrs. Hector Foster of Oneida township, near Caledonia, celebrated their silver wedding, 30 of their friends being added to the feast. Among the good things served was chicken with green dressing, which had been cooked in copper pots. Soon after eating 85 of the guests were taken ill. It was first supposed to be epidemic typhoid fever, until it was discovered that the five persons, who alone had not eaten chicken, were not sick. Then the illness was diagnosed as ptomaine poisoning. The facts were kept quiet at the time, but have come out since the death of two of the participants, Mrs. Foster, mother of Hector Foster, and Mrs. Ferguson, wife of Rev. Mr. Ferguson. Hector Foster, his wife and two children are still critically ill.

RUSSIAN JEWS FOR CANADA.

Toronto, Oct. 19.—Investigation of the prospects in Canada for Russian Jews is being made by Karl Tser, of Odessa, who has arrived in Toronto. He is visiting this continent on business for his firm, which has branches at Odessa and Moscow. At the same time he is looking into conditions in America. He has not as yet seen much of Canada, but Toronto is the first city of the dominion he has visited, but what he has observed has impressed him favorably, and he will study the country further. He is of the opinion that these Russian Jews will emigrate to Canada will devote themselves to agriculture. Those who desire to settle in cities will go to the States.

SHOWED GOOD BENSE

Lawrence, Kan., Oct. 19.—The board of regents of the university of Kansas has unanimously voted down a proposition made by chancellor Strong, to ask Andrew Carnegie for money with which to build a \$300,000 fine art building.

BUCKINGHAM STRIKE RIOT

Evidence at Inquest Now in Progress is Very Conflicting

McLarens and Detective Picard Swear That Strikers Fired First Shots—Witness Renard Swears to the Contrary

Buckingham, Que., Oct. 19.—The inquest into the strike riot shooting case was continued this morning. The first witness examined being F. Smith, a Buckingham farmer, who was a witness of the riot. He swore positively that the rioters fired the first shot and that he saw shots fired by George Robinson, Colbert Bastin, Thomas Belanger and Hal-lare Charette. The latter he identified positively and the identification is most important for detective Picard, who followed Smith on the stand, swore that he would be received in the first case from a shot fired by this man Charette.

Picard also testified in his evidence that previous to the riot Belanger, who was killed, came to him and said: "You are taking the bread out of our mouths. We will not allow you to move the logs." Picard advised him to be careful and warned him that the police were armed. Belanger answered: "No logs will go down or we will stop them."

He then called his chief's attention to the fact that Belanger had a revolver and advised his arrest, whereupon Belanger, who had been looked up in one of the cells the night before for creating a disturbance in the down town hotels, had escaped, and has not since been seen. An examination showed that a window in the jail room had been opened, the cell door unlocked, and that the fire had been started in the bedding of the cell, having eaten its way almost through the wooden partitions and ceiling, and other matters explained. There are two sets of cell keys, one kept by chief of police Flood and the other kept in the city hall in a place supposedly known only to chief Flood, officer Deckert, who is also fire chief, and to N. Lemieux, who sometimes acts as jailer.

PRISONER BREAKS JAIL

BEFORE LEAVING SETS FIRE TO PHOENIX CITY HALL

HAPPILY NO GREAT DAMAGE WAS DONE TO BUILDING.

Phoenix, Oct. 19.—Yesterday morning between three and four o'clock a prisoner was discovered to be on fire, but the flames were extinguished in a short time, with damage estimated at \$300. N. Lemieux, J. O. Church and Bert Senoworth were sleeping in the building at the time, and their first intimation of fire was the filling of the building with smoke.

At the same time it was discovered that a prisoner, Howard Martin, a miner, had broken out of his cell in the city hall, and had set fire to a disturbance in the down town hotels, had escaped, and has not since been seen. An examination showed that a window in the jail room had been opened, the cell door unlocked, and that the fire had been started in the bedding of the cell, having eaten its way almost through the wooden partitions and ceiling, and other matters explained. There are two sets of cell keys, one kept by chief of police Flood and the other kept in the city hall in a place supposedly known only to chief Flood, officer Deckert, who is also fire chief, and to N. Lemieux, who sometimes acts as jailer.

TO SETTLE THE STRIKE

CONFERENCE PROPOSED BY MICHEL LOCAL NOT HELD

BELGIAN FEMALE PUGILIST DOES UP THREE MEN.

(Special to The Daily News)

Michel, Oct. 19.—The strike situation remains unchanged, and the men have put forth by members of the local union to arrange for a conference between officers of the Crow's Nest Pass Coal company and the district officers of the miners' union, which have, however, so far been a failure. A general committee from the locals at Fernie and Michel was to be present at the proposed conference. A meeting held last Monday failed on the case by county coroner officers in this city. Bain was injured by an explosion of gun powder placed in a threatening machine engine by some malicious persons last Saturday morning. The engine was on the farm of John Oldham, near Haldimand postoffice, and the explosion occurred when Bain started the fire about 6 o'clock.

FOOTBALL IN THE BOUNDARY

(Special to The Daily News)

Phoenix, Oct. 19.—Considerable interest has been taken here this fall in football, a club having been organized among the lovers of the game. Yesterday, being the annual Thanksgiving day, the Phoenix aggregation went down to Grand Forks and played a game with the club of the Smelter City. The result was 3 goals to 0 and the visitors so that they were a costly treaty by the members of the club at the Forks. The game was hotly contested throughout and a large number of spectators were present to witness the first game of the kind played there in some four years. A return game is to take place here next week. There is some talk of organizing a Boundary football league.

loss to the banks is estimated at from \$5,000,000 to \$7,000,000.

The present conditions of the Bank of England has its latest parallel in the period following the outbreak of the Boer war in 1899. After raising the official rate to 5 per cent in November the rate went to 8 per cent on the last day of November. This action was not immediately effective in the open market in London nor on the exchange rate in New York, but in the course of December the rate began to go out from New York and withdrawals continued in spite of the acute stringency in the money market which finally ran the rate up to 186 per cent at the stock exchange in the third week of December. Drastic liquidation in the stock market was forced before the stringency was broken.

Practically no other subject was considered in the market here today. All other considerations were swallowed up in the dominant effect of the response in the money markets to the Bank of England's action.

The stock market was quiet and free from general pressure during the latter part of the week. Recoveries from the low points were inconsiderable and the closing tone was heavy. Bonds were weak. Total sales per value \$2,244,000.

United States bonds were unchanged on call.

WILL BE BURIED TODAY

FUNERAL OF VICTIMS OF THE CARMEL SHOOTING AFFRAY

MURDERER DALE FORMERLY WORKED IN PHOENIX MINES

(Special to The Daily News)

Greenwood, Oct. 19.—A double funeral will be held here tomorrow morning from the Catholic church, when the services will be held for the late Peter Godeaux and Joseph Cella, the two men murdered at Carmel.

PROSPEROUS PROVIDENCE

Another Boundary Property That is Making Good Returns

Annual General Meeting at Greenwood—Net Earnings for Year Equal 20 per Cent on Capital Stock Issued

(Special to The Daily News)

Greenwood, Oct. 19.—The Providence Mining company finally closed their annual meeting here last night. President Matt F. Madden presented his report for the year ending Sept. 30. The members of the company present were Mark F. Madden, president; Dr. Frank Byrnes, vice-president; H. J. ... chairman of the board of directors; Judge J. H. Eldred; and P. D. Dill.

The president's report showed a most satisfactory record for the year especially in view of the fact that shipments of ore have been made only during the past four months. During the balance of the year the efforts of the management have been directed toward thoroughly developing the mine and placing it in a condition where it would be possible to extract large quantities of high grade ore at little cost. The report stated that 285 feet of development work has been accomplished during the year of which 168 feet was drifting and raising and 213 feet sinking. Of the latter work 25 feet was in the shaft going down from the 200 to the 400 foot level. In prosecuting the work in the shaft the company was fortunate in being able to follow the ore all the way to the 600 foot level. Shipments of ore were begun in the month of June and until Sept. 30 427 tons were treated, giving gross returns of \$17,237.74. Only for shipments covering a period of only four months is gratifying indeed and the company is to be congratulated upon the results. In addition to the cash on hand they have paid a 10 per cent dividend, representing a cash payment of \$15,000.

During the year permanent improvements of an important character were extensively made. New ore bins were erected and a new road with viaduct built to them. A new spur of the C.P.R. was secured by which it is possible to load the ore cars by chutes from the new bins, thus doing away with the expensive method of hauling the ore in wagons to the C.P.R. yard and loading the cars by shovels. A new office was erected and comfortable quarters for the employees. A new powder house was built, also a stable and other permanent improvements made. The working of lower levels and the continually increasing output are making heavy demands on the machinery equipment and the purchase of a larger supply of machinery is necessary for the most satisfactory working of the mine. The company experts in the near future to install all equipment of all necessary machinery.

OF DRIBDAUGHT TYPE

Admiralty Ordered Three Other Such Vessels to Be Built at Once.

London, Oct. 19.—The success of the trials of the British battleship Dreadnaught has led the admiralty to give orders for the construction, without delay, of three other such vessels. One is to be built at Portsmouth, one at Devonport and one in a private dockyard.

DOUBLE DROWNING DISASTER

St. John, Oct. 19.—A telephone message from St. George, N.B., says that John Riddan, aged 20, and William Goodell, aged 22, both stone cutters of St. George, were drowned in Mill lake, a few miles back there, last night. They had spent the day hunting and were returning by boat when the stern rowlock broke capsizing the craft. Both men started to swim to shore, but sank before reaching it.

FOR CHAIR OF EDUCATION

Montreal, Oct. 19.—At a meeting this evening of the provincial teachers' association, Rev. Dr. Barclay, chairman, announced that Sir William Macdonald had added to the list of his many benefactions to McGill by giving an amount sufficient to endow a chair of education, and that principal Peterson would soon announce the name of the first occupant.

CAMILLE MARRIES HER LORD

London, Oct. 19.—It has been learned that Hon. Lord Lyndhurst Bruce, eldest son of Lord Aberdare, and Camille Clifford, an American actress, were secretly married on October 11. Her marriage has made no interruption in Miss Clifford's appearance in the "Belle of Mayfair" in a local theatre.

of claiming the champion female pugilist of the province in the person of a Mrs. Michael Gauder, of Belgian nationality. Yesterday, while angered over a family dispute, she ousted three representatives of the male sex. She chased them out of the house and then put them out of business with her bare knuckles. All attempts to quiet her proved futile until the men disappeared from the scene of battle. The combat was witnessed by a large crowd of people who evidently enjoyed the spectacle. No names were broken but some of the combatants are sporting swollen heads as the result of too close contact with the lady's fists.

This blood is thicker than water was demonstrated last Monday when Enoch Sprlog, a Slav miner, proceeded to take his vengeance on Thos. Wicklum, fire boss at No. 8 mine, because Wicklum had beaten Martin Rapp, a brother of Sprlog. Although armed with a heavy iron coupling pin Sprlog was easily worsted by Wicklum and took to his heels. He was, however, arrested for raising a disturbance on the coal pit and fined \$10 and costs by Justice of the peace J. B. Steadman. Mr. Wicklum was arraigned on a similar charge on Tuesday and fined \$1 and costs in the police court.

WILL BE BURIED TODAY

FUNERAL OF VICTIMS OF THE CARMEL SHOOTING AFFRAY

MURDERER DALE FORMERLY WORKED IN PHOENIX MINES

(Special to The Daily News)

Greenwood, Oct. 19.—A double funeral will be held here tomorrow morning from the Catholic church, when the services will be held for the late Peter Godeaux and Joseph Cella, the two men murdered at Carmel.

PRISONER BREAKS JAIL

BEFORE LEAVING SETS FIRE TO PHOENIX CITY HALL

HAPPILY NO GREAT DAMAGE WAS DONE TO BUILDING.

Phoenix, Oct. 19.—Yesterday morning between three and four o'clock a prisoner was discovered to be on fire, but the flames were extinguished in a short time, with damage estimated at \$300. N. Lemieux, J. O. Church and Bert Senoworth were sleeping in the building at the time, and their first intimation of fire was the filling of the building with smoke.
