### TILBURY EDITOR DISAPPEARS

Tilbury, August 15 .- Nothing has afternoon of last week, and it is feared that he has met with some mis hap, probably during a temporary lapse of memory due to nervous

Mr. Shaw is sixty-one years of age, reighs 165 lbs. and is about five feet eight inches in height. He is very slightly stooped and does not use his left limb quite as freely as the right when walking. He has blue eyes, light hair, slightly grey, is partly bald and smooth shaven. He possesses a very nervous temperament. When last seen before leaving town e was wearing a brown cap, no lar or tie, a two-piece dark grey fine checked suit, a white shirt with fine colored stripes, black shoes, and gold ring with red stone on third linger of left hand.

### UNUSUALLY DRY WEATHER

The continued dry weather throughout the country is becoming a serious matter, especially to farmers. Many farmers are feeding their stock and are short of water. Nearly all surface wells are dried up. Those who have rock wells are in luck. People who have traveled about the country state that they have seen several large areas of stubble and meadow burnt over hav ing caught fire from sparks from passing trains or ignited by careless smokers or other causes

### HOW TO KILL AN ASSOCIATION

1 Don't come to the meetings. If you do come, come late.
 If the weather doesn't suit you-don't think of coming.

4 If you do attend a meeting find fault with the work of the officers and other members.

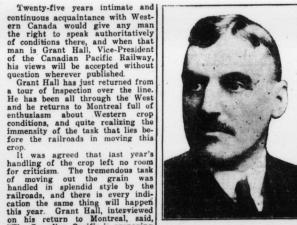

5. Never accept office as it is easier

o criticise than do things.

6. Nevertheless get sore if you are nct appointed on a committee, but if you are, do not attend committe

7. Hold back your dues as fong as ossible, or don't pay at all.
8. Don't bother about getting new nembers. Let George do it.

"The Maiden's Prayer" is now etter known as "Mendelssohn's better known as Wedding March."

immensity of the task that lies before the railroads in moving this crop.

It was agreed that last year's handling of the crop left no room for criticism. The tremendous task of moving out the grain was handled in splendid style by the railroads, and there is every indication the same thing will happen this year. Grant Hall, interviewed on his return to Montreal, said, "The Canadian Pacific is preparing to move the grain and we expect to keep up to all our previous good records in that line."

It was fortunate for Canada that the company months ago decided to largely add to its rolling stock. The Canadian Pacific is this year building 36 engines and 2,000 new freight cars or practically forty freight trains of fifty cars each, enough equipment to have moved the entire western crop of a very few years ago. This new equipment will be on hand to do its share of the work this year.

Mr. Hall makes no prediction as to the actual yield but of the genal conditions he says:—"In the long term of years in which I have watched the development of the grain crop I feel safe in saying that never have I been quite so enthusiastic about the prospects. Generally at this time of year there are many reports of damage by did harvest this year."
