

Why you should consider

For Career Opportunities

- 1 Cominco is a progressive, expanding and diversifying Canadian enterprise primarily engaged in metal mining and the production of metals, chemical fertilizers, heavy chemicals, and hydro-electric power.
- 2 Cominco participates in a growing range of other activities including the potash, die-casting, plating, metal fabrication, electronic materials and shipping industries.
- 3 Cominco's operations and interests extend across Canada, into the United States, and into other countries.
- 4 Cominco has aggressive exploration and research programs.
- 5 Cominco needs progressively-minded engineering graduates who seek a challenging, satisfying and rewarding future.

Armstrong Elected CUS President

HALIFAX (CUP) — A 1966 graduate from Carleton University was elected to the position of president-elect of the Canadian Union of Students here Sept. 9.

Hugh Armstrong, full-time president of the union's Ontario region and a graduate in political science and history, beat out Don Mitchell of University Saskatchewan Regina campus and Wayne Hankey of King's College, for the job.

Armstrong said he will spend the coming year learning about CUS in his role with ORCUS, and during his term of office will strive for universal accessibility to post-secondary education.

International affairs will be of a much lower priority, he said, because of "our limited resources and lack of expertise, but not because of principle."

The 30th CUS Congress also chose regional representatives to the CUS board of directors for the coming year. They are: David Saunders, council president at the University of Manitoba, western region; George Anderson of Queen's University, Ontario region and Lawson Hunter, council president at the University of New Brunswick, Maritime region.

No representatives from the Quebec region was elected, because the possible withdrawal of Bishop's University from CUS would leave only one member — McGill — in Quebec.
