

# Chrysler = Excitement, No matter how you Say It

There is perhaps no more effective way in which to illustrate, at a glance, the broad scope of Chrysler Outboard export business than to show these pages from the nine overseas catalogues produced for our distributors and dealers 'round the globe.

Executed and printed in the same manner, style, and color as the well-received domestic '66 Premiere Catalogue, the overseas brochures were created with the cooperation and help of Messrs. B. Furugard, A. B. Motorkraft, Stockholm (Swedish); S. Blucher, Sverre Nielsen Jr. A.S., Oslo (Norwegian); L. Plans, Fomento De Mercados Exteriores S.A., Madrid (Spanish); A. Wiese, August Wiese Marine Import, Cologne (German); Dr. U. Marchi, Nautirama, Rome (Italian); F. La Grouw, N. V. Jafranc Handelsmaatschappij, Amsterdam (Dutch); E. Helkama, Helkama Oy, Helsinki (Finnish); J. Cornu, Societe Nouvelle I.M.B.P., Paris (French-Europe). Their counsel and translation help was invaluable in the production of these catalogues.
