Solicitor.  
Opp. Grand Opera House, Chatham.

Money to Loan  
— ON MORTGAGES —  
\* 1-2 and 3 per cent.  
Liberal Terms and privileges to borrowers. Apply to

LEWIS & RICHARDS

The Only  
White Front Cafe.  
Fifth Street, Chatham.  
Regular Meals on short order. Oysters in any style. Night Luncheon.

JAMES MCCORMICK

"The YELLOWSTONE NATIONAL PARK  
Is something absolutely unique in this world."  
— President Roosevelt.

The popular route to this delightful spot is via Union Pacific to Monida, thence by stage to all points in the park.

The stage ride from Monida, by the splendid Concord Coaches of the Monida & Yellowstone Stage Co., through scenery hardly inferior to the park itself.

Very low rates during June, July, August and September.

Inquire of  
F. B. OHDATE, G. A.,  
128 Woodward Ave.,  
DETROIT, MICH.

## HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. Cheney & Co.,  
Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

Walding, Kinnaird & Martyn,  
Wholesale Druggists,  
Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

## Countess Grey Accepts.

Ottawa, Jan. 11.—On behalf of the National Council of Women, Lady Laurier and Lady Ritchie waited upon the Countess of Grey and asked that she accept the honorary presidency which she very graciously consented to do. The countess will be present at the executive meeting of the council in Ottawa on Friday.

## WHAT IS CATARRH?

It is an inflammation of the mucous lining of the throat, bronchial tubes and nasal passages, excited by germs that can only be destroyed by fragrant, healing Catarrhazone, which is breathed direct to the seat of the disease, and has never yet failed to cure. Pleasant to use, absolutely certain to cure, Catarrhazone always gives satisfaction. "I suffered from nasal catarrh so badly that I couldn't breathe through my nostrils," writes G. K. Wilmet, of Meriden. "I used Catarrhazone for a few minutes and was relieved. It cured in a short time." There is no other remedy just like Catarrhazone, it's the best. Two months' treatment \$1.00; trial size 25c.

## Festivities and Matheson.

Winnipeg, Jan. 11.—On the fourth ballot, the Synod of Rupert's Land selected Archbishop Matheson as Moderator and his, together with the name of Bishop Matheson, will be recommended to the House of Bishops as the successor of the late Archbishop Machray.

## A STUDY OF OLD AGE.

Reveals the fact that the blood is usually thin and lacking in the strengthening properties of young folks' blood. If you want to fill your blood with the fire of youth, build up your strength, restore your nerves, just use Ferro-China. It's the most potent tonic known and will give you the flickering flame of an aged life by imparting nourishment to enfeebled organs. Ferro-China fortifies weak systems, feeds the blood, brain and nerves with new life. Try Ferro-China. Price 50c. per box.

## Real Play Suspended.

Montreal, Jan. 11.—The body found in the river ice near the Lachine Rapids has been identified as that of Maria Labatt of Woodford, Ont., a young landscape artist. Nothing but papers were found in the clothing, and the body was badly disfigured from having been in the ice for some time. The police are looking into the possibility of there having been foul play. The deceased arrived in Montreal in the latter part of October, 1934.

"NOT IF IT COST TEN DOLLARS  
A bottle would be without Nelson's Nervine," writes J. A. Rath, a farmer living near Toronto, Ont. "Nervine is the best household liniment I know. We use it for stomach troubles, indigestion, headache and summer complaint. I know of nothing better to take in hot water to break up a cold, or to rub on for rheumatism or neuralgia." Every farmer should keep a few bottles of Nervine handy and have smaller bottles for the family. Large bottles 25c. at druggists.

## Takes Guns to Hong Kong.

Victoria, B. C., Jan. 11.—The steamer Keeman is loading two heavy guns, 9.2, and some other smaller guns, which have been held in reserve at Esquimalt, and are being shipped to Hong Kong in consequence of the abandonment of the naval station by the British Admiralty.

## IT IS HIGHLY INJURIOUS.

To use a cheap drastic physic. Safest remedy for constipation and torpid liver is Dr. Hamilton's Pills of Mandrake and Butterbur, which loosen the bowels without gripping pains. Use only Dr. Hamilton's Pills. Price 25c.

## There's enough of everything in the world to go around except perpetual motion.

There's enough of everything in the world to go around except perpetual motion.

## TAKE NOTICE.

We publish simple, straight testimonials, not press agent interviews, from well-known people. From all over America they testify to the merits of MINARD'S LINIMENT, the best of Household Remedies.

## C. C. RICHARDS &amp; CO.

A little charity to the living is worth a wagonload of flowers to the dead.

## Sore Throat and Coughs

A simple, effective and safe remedy for all throat irritations found in

## FIRES IN ZERO WEATHER.

Had Blazes At Windsor, Woodstock, Southampton and Winnipeg—Bullets Cracked in the Windsor Fire.

Windsor, Jan. 11.—Fighting fire amid the crack of bullets and the occasional report of a can of powder, was the strenuous task of the Windsor fire department yesterday morning at a bad fire in Nelson & Bros. hardware store.

The whole stock and building were entirely destroyed, as well as stocks in adjoining stores. The damage amounts to about \$80,000.

The firemen and their apparatus were coated with ice, and a strong wind helped the flames. Assistance was summoned from Detroit and Walkerville, and the fireboat and firemen from Detroit succeeded in subduing the fire, which at one time threatened to destroy many places of business in Windsor's downtown district.

The loss caused by the fire is estimated between \$50,000 and \$60,000, fully covered by insurance. The Nelson stock was valued at \$10,000, while the building, which was owned by the Nelson estate, was valued at \$10,000. Mr. Moore, the bookkeeper, said the firm carried about \$40,000 in insurance on stock and building. G. B. Lodge carries a stock value of \$8,000 or thereabouts, covered by insurance. The building was owned by F. H. Mann, who placed the valuation at \$10,000, and says he is fully insured.

## \$150,000 Fire At Woodstock.

Woodstock, Jan. 11.—For a period of over four hours yesterday morning the business section of Woodstock was threatened with entire destruction by fire, causing a loss of \$100,000. The conflagration originated in the basement of the store of Gardner & Co., the largest hardware store in the city, and rapidly spread to all parts of the building. As a result the entire hardware stock, valued at \$35,000, was consumed, together with the new four-story building valued at \$45,000.

The fire also spread to the three dry goods stores of John White Company, Limited, and the dry goods store of Campbell Bros., adjoining on the east, and the Calisher House on the west. The stock of the dry goods stores represents in value about \$150,000, and practically all the goods were damaged by smoke or water, and thus the loss will be enormous. It is as yet impossible to estimate the loss to the dry goods firms.

## Caught Fire From Furnace.

Southampton, Jan. 11.—The extensive plant of the Sauguen Mineral Water Co. was completely destroyed by fire Monday night. Fire was left in the furnaces to keep the buildings warm, and the flames spread and ignited the plant. The fire was fanned by a fierce blast, and spread to this section of the country, and efforts to extinguish it proved futile.

## Overall Factory Burned.

Winnipeg, Jan. 11.—Hoover & Company's overall manufactory was badly gutted by fire yesterday morning. The loss will amount to \$29,000, but the building is insured.

## STEEL RAILS FOR THE G.T.P.

Large Orders Placed in Great Britain Within Past Few Days.

London, Jan. 11.—(C.A.P.)—The Canadian Press learns that the G. T. P. have placed large orders for steel rails during the last few days with prominent firms in Great Britain.

## Don't Think It True.

Toronto, Jan. 11.—President Warren of the Soo industries, doubts the report that the G.T.P. are placing large orders for rails in England. "The company is at present negotiating with us, and I have no doubt but that we will be able to fill all their requirements," he said. "Yesterday we booked an order of 7,000 tons of rails for the Pere Marquette Railroad."

## Horse Thieves Punished.

McLeod, Alberta, Jan. 11.—At the sitting of the criminal court, presided over by Justice Harvey, a number of cases of horse stealing were disposed of with the result that the convicted parties will spend various terms in McLeod jail. The sentences were as follows: Ron Daley, two years; Percy Steele, two years; Black White (Indian), year and a half; Mrs. Percy Steele, one year; Joseph Shaput, bound over in two thousand dollar bonds and released on suspended sentence for receiving stolen horses; and Hungry Crow, bound as a witness against Tom Spotted Bull, who will be tried on the 23rd for stealing horses.

## BOATS WITH GLASS BOTTOMS.

The boatmen at the various seaside towns on the Pacific coast have hit upon a novel method of amusing visitors. They have constructed a number of glass-bottom boats which enable passengers to see not only fish, but all kinds of submarine growth in the Pacific Ocean.

These "interesting" craft resemble in design pleasure launches. They hold about a dozen or more persons who sit round the well of the ship and gaze through its glass windows into the ocean below.

It is surprising, too, what can be seen from these glass-bottom boats, particularly those that operate in the smooth waters of the numerous bays on the Californian coast. The water is so clear that one can see for quite a great distance. Until one has taken a journey in one of these novel boats he has no idea of the beautiful vista of submarine scenery obtainable. Darting fishes are always springing into view, but more attractive still is the lovely coral beds, sea flowers, and other kinds of marine growth which may be detected as the boats glide along.

scholar, who one is not surprised to be told, was greatly interested in marine zoology. The first boat constructed was propelled by a man who sat forward and rowed, also acting as a guide, pointing out the wonders of the deep with an unshakable imagination. As the fame of the glass-bottom boat spread, new and time-saving methods were adopted, and the motor glass-bottom vessel may now be seen in many parts of the Pacific coast.

What if the glass breaks? you ask. Well, it has done so and many people have nearly lost their lives. The glass-bottom boats in use to-day, however, are designed in the form of a well so that if by chance the glass gets smashed the ship would not sink. The water would rise in the well to the same height as at the sides of the vessel, but the passengers would be perfectly safe and secure.

## WILLOW HOUSES

There used to be an old saying to the effect that "When houses were made of willow, the men were made of oak."

One neat way of describing the healthfulness of the old days, and the immunity of the "men of oak" from many diseases, especially those diseases due to cold and exposure, is the entire body was insured to cold, and therefore immune to the attacks of such germs.

It is only within the last fifty years that Catarrh has become so common.

And only within the last ten that, after careful, scientific study of its cause and treatment, a cure has been discovered—Stuart's Catarrh Tablets.

Until it was thoroughly understood that this disease was due to microbial poisoning, which generally began with the local attack of the deadly microbe on the weak respiratory tract—nose, throat, mouth, etc.—attempts to cure were guess work.

But when the actual microbe, which causes the disease, was discovered, and studied under the microscope, a means was found, by scientific methods, to destroy it. This means of destruction and therefore cure was called Stuart's Catarrh Tablets.

These tablets are meant to slowly dissolve in the mouth, so that their cathartic action begins right in the part where those pernicious germs are most active.

The juice from the dissolved Tablet acts directly on these microbes, and immediately stops their work; while, at the same time, it has a wholesome, healing effect on the swollen, inflamed and raw surfaces of the parts involved, which bear witness to the dangerous work of the germs.

Further down, the dissolved Stuart's Catarrh Tablet, which you have swallowed, gives up other portions of its ingredients to the work of toning up any other mucous membranes, which, as very often happens, may be sympathetically inflamed, such as those of the stomach, bowels, etc.

By preventing and curing any inflammatory conditions from gaining ground in these parts, Stuart's Catarrh Tablets positively prevent, if taken in time, all the dangerous diseases resulting from such inflammation, such as gastritis, peritonitis, appendicitis, and all the conditions of internal disease not known by the name of CATARRH, whether of Stomach, Liver, Kidneys, Bladder, or any other internal mucous membranes of the body.

Stuart's Catarrh Tablets cure Catarrh, by methods beyond the reach of any other remedial measure.

Sold by all druggists at 50 cents a box.

He who commits injustice is ever more wretched than he who suffers it.

Nothing in the world is sweeter than a girl's attention to her parents.

"Cleanliness is next to godliness." Dirt and depravity go hand in hand. This is just as true of the inside of the body as the outside. Constipation clogs the body and clouds the mind.

Constipation means that corruption, breeding in the body, poisoning the blood with its foul emanations, befogging the brain with its tainted exhalations. Constipation is the beginning of more diseases than, perhaps, any other single disorder. The consequences of constipation are legion. Headache, pain in the side, shortness of breath, undue fullness after eating, coldness of the extremities, nervousness, indecision, lassitude, dizziness, shyness, flatulence, and a score of other ailments are directly caused by constipation. Cure constipation and you cure its consequences. The quickest cure of this evil is obtained by the use of Dr. Pierce's Pleasant Pellets. They are small in size but wonderful in result. They cure permanently. They contain no injurious ingredients. The use of them does not beget the "pill habit." Ask your druggist for them.

Send 31 one-cent stamps, the expense of mailing and customs, and receive Dr. Pierce's Common Sense Medical Adviser, in paper covers. This work contains 1008 pages and 700 illustrations. For 50 stamps it can be had in substantial cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

There's no love so expensive as that of a mother.

—Coughs, colds, hoarseness and other throat ailments are quickly relieved by Crescote Tablets, ten cents per box. All druggists.

A widow says a husband is better late than never.

## WINTER RESORTS.

Consult your nearest Grand Trunk Agents, or address J. D. McDonald, District Passenger Agent, Toronto, if you desire information regarding the delightful Winter Resorts of California, Mexico or Florida. Unexcelled service and equipment.

Minard's Liniment Cures Colds, etc.

## ODDITIES IN LAKES

One of the most singular lakes in the world is the celebrated pitch lake of the island of Trinidad. This lake spreads over an area of ninety-nine acres, and its surface is composed of one great floating mass of asphaltum, sealed with veins of clear water.

From it and a similar lake in Venezuela, the world's supply of asphaltum is drawn.

The pitch lake is a vile place, as far as smells are concerned, for the air all about it is heavy with noxious vapors, and from the centre of the lake gushes a fountain of liquid asphaltum, in which there float and break bubbles containing most horrible gases.

The workmen go out on the surface of this lake and out great slabs of asphaltum, which are carried away. But the next morning the hole they left is filled up again with the pitch which has risen during the night, so that the supply seems to be inexhaustible.

Another curious lake was discovered by Sir Walter Raleigh, when he landed in Trinidad, in 1595, on his way to the mouth of the Orinoco in search of El Dorado.

Another strange lake is situated on a peninsula which juts out into the Caspian Sea. The whole surface of this lake is covered with a crust of salt so thick and strong that a man can ride across it on horseback without any danger of breaking through.

## AN ESKIMO SALMON-TRAP.

The Eskimos along the Yukon River have an odd method of catching salmon, which is described by Mr. Jeremiah Lynch in "Three Years in the Klondike."

The Eskimos take boards a foot wide and an inch thick, and nail them together lengthwise in a triangular shape, a little wider than a good-sized salmon. This is submerged in five feet of water a foot from the surface and twenty yards from the shore.

The salmon, swimming along the side of the shore against the strong current, go straight into this simple trap and cannot get back, and those in the rear press on those in front.

We saw eighteen large salmon taken from one of these spots in a few minutes, and the Indians say they caught scores every day while the run continued.

At an old Russian settlement we observed how the natives live and prepare for the winter. The fish were running plentifully and every fadlan, even to the little children, was busy bringing them up from the bank, opening them and hanging them on the trees, or temporary scaffolds, or tops of huts and cabins, in every conceivable place where a salmon could be put to dry out of reach of the dogs.

The run lasts about six weeks, and at that interval the natives must provide food for their families and their dogs until next season. Very few wild animals exist on this lower Yukon, and with the addition of geese and ducks, salmon is the only food that the country provides for its inhabitants. No grain is cultivated. The Indians buy flour and light supplies from the traders, pay in dogs and furs, for they trap all through the winter.

## THE OLDEST TOY IN ALL THE WORLD.

Excavation in a cave in Switzerland in which there once lived human beings who existed before the light of the oldest child's toy in the world. It is a whistle made of the bones of a reindeer, and it is still in good condition, although it was made at least 15,000 years ago.

The modern discoverer who found it blew through it and it gave out a shrill, clear whistle. That was the first sound it had sent out since its child owner dropped it. When that child blew it, its sound may have frightened the cub of the cave bear and the young of the mighty aurochs. The child that played with it was dressed in rude skins and cowered for the fire in a cave, while it waited for his savage father and mother to return home with slain animals for food. Now the toy will be put into some museum for modern children to see. Cleveland Plaindealer.

## THE CASTLE BY THE SEA.

Has't thou seen the lofty castle  
The castle by the sea,  
Where the bright clouds, red and golden  
Float 'er 't fair and free?

The turrets bow and mirrored are  
In clear waves rolling by;  
Then struggling, rise again to kiss  
The glowing evening sky.

I have seen the lofty castle,  
Its grandeur well I know;  
Flooded in moonlight far above:  
Enwapt in mists below.

Did not the undulating waves  
And wafting breezes all  
Give unwavering audience to the song  
From out the festal hall.

The billows and the waves were hushed  
And lay in deep repose,  
While from the hall deep sounds of grief  
And lamentations rose.

Didst thou see about the castle  
The noble king and queen?  
Didst see their waving mantles red,  
Their gold crown's radiant sheen?

Guided they not with heartfelt joy  
A beauteous maiden there?  
Glorious as the shining sun,  
With gleaming golden hair?

I looked upon the parents  
But no flashing crowns were there  
For all were clad in robes of woe  
For that young maiden fair.
