& STEPHENSON - Proprietor. THURSDAY, JUNE 8, 1905.

JUNE 6, 1891,

Fourteen years ago Tuesday the greatest Canad an of the nineteenth century ded at Ottawa after year was particularly bitter. Then to compel this country to sue for annexation to the United States developed, in the form of a plea for unrestricted reciprocity. Then it was that Hon. Edward Blake sickened of the Cartwright-Laurier program and left the Liberal ranks. Then it was the 75-year-old Premier uttered the memorable words, "A British subject I was born; a Bgitish subject I will die," Having routed the forces that opposed him, the old chieftain sank the weight of his great exertions and closed his earthly career. But the impress of his life will remain for all generations. No Canadian can speak of the Confederation without thinking of Sir John Mac-donald, all Canadians who ride over the Canadian Pacific will remember the man who was hurled from power on a "Pacific scandal" cry, and who retired into opposition humiliated, yet never relinquished his purpose of a transcontinental railway. After a parliamentary term of disaster to the country under Mackenzie and Cartwright and Laurier, the people renewed their confidence in Sir John and returned him to power by an overwhelming vote. The inaugurator of the national policy, which started Canada on her prosperous career, passed away, but his works follow him. And "British connection" is as strong a sentiment in Canada to-day as it was then.

PAVEMENT INVESTIGATION.

Editor Planetz

Sir.—What has scruck Chatham that we actually have an investigation into Pavement Promotors Proceedings.

How differently such things were disposed of when the Park street pavement proposal was pushed through. At that time the initiative was taken by the Council for asphalt block. A petition against this was declared by the City Clerk, to be sufficiently signed ten days before the meeting of the Council. Then on Council night when he again announced this fact, the then chairman of the Board of Works moved that action on the petition be deferred till the following Wednesday night; this was agreed to, and on Tucsday night the local Factotum of the Asphalt Block Company went burrowing amongst the petitioners, huying signers to have their names taken off that petition by declaration before the County Judge. Two men came before the then Mayor and made affidavit that they had been offered \$55 each to have their names taken off. After taking their affidavits the Mayor asked us "what we were going to de about it," and when asked if such bribery by promotors would not invalidate the pavement proceedings, replied it did not, and that nothing could be done. How is it that things are so different now? On Murray street it is paying to get names on a petition for a pavement to be put down; on Park street it was paying to get names off a petition so that apavement could be put down. It is a case where 'on' and "off" mean the same thing.

These things all appear to work on the principle of the white man's division of the lish with the Indian—you take head and tail and I'll take the body or, I'll take the body and you take the bead and tail.

The taxpayers seem to be the fish.

Where Disease Germs Breed

No Need to Fear "Germs" if the Stomach Be Healthy.

The ideal breeding place for disease germs is a weak stomach and digestive system. The food, instead of being assimilated, turns into a sour, slimy, fermenting mass, causing gases, distress after eating, bloating, nausea and flatulency. The poisonous germs that are given off from this andigested food enter the blood pimples, boils, and blotched skin is the result. Nervonaness and sleeplessness come more often from weakened digestion than from any other one cause. Rheumatism and gout are directly caused by an acid condition of the stomach.
