

**4 H.P. Cushman Weighs Only 190 lbs**  
**8 H.P. 2 Cylinder Only 320 lbs.**

Cushman Engines are the lightest weight farm engines in the world, yet they are even more steady running, quiet and dependable than most heavy engines, because of Throttle Governor, perfect balance and almost no friction nor vibration. The simple Cushman Governor releases just enough fuel to take care of the load at any moment, thus avoiding the fast and slow speeds at which most engines run. While Cushman Engines are only about one-fourth the weight, per horsepower, of most other stationary engines, they will deliver as much or more steady, reliable power, per rated horsepower, than any other farm engine made.

Note the Many Special Advantages Not Found On Other Engines.

**Cushman Light Weight Engines**  
**For All Farm Work—4 to 20 H. P.**

Are not cheap engines, but they are cheap in the long run, as they do so many things heavy engines cannot do. May be attached to machines such as binders, balers, etc., to save a team. Easy to move around. Moving parts enclosed and run in bath of oil. Run at any speed—speed changed while running. Direct water circulating pump prevents overheating. Schebler Carburetor and Friction Clutch Pulley.

**The ONE Binder Engine**  
 The Cushman 4 H. P. is the one practical binder engine. Its light weight and steady power permit it to be attached to rear of binder. Saves a team during harvest.

**Farmer's Handy 4 H. P. Truck**  
 Easy to Move Around from Job to Job. Same Engine Used on Binder.

Dave Linton, Ransom, Ill., says: "I can do everything with the 190-lb. Cushman that I could with an engine that weighed 1000 lbs., and do it better and with a lot less noise."

**1 1/2 H.P. Horizontal Hopper Cooled**

This engine built specially for small jobs around the farm and in connection with our intermediate pulley takes care of the churning, washing, pumping, etc. Being mounted it is easily moved from place to place.

Read this letter received by Canadian Engines, Limited, from their Eastern Sales Agents

The Frost & Wood Co., Ltd., St. John, N.B. Clifton, Gloucester, Co. N.B., Dec. 13th, 1915.

Dear Sir—In regard to the Monarch Engine purchased through you, I would like to say a few words as I may not have a chance again. I have used it two years now, and every day I run the machine I like it better. In fact I think it's the best thing I ever saw. I threshed six weeks this fall, and I just kept a record of its work for fun. In the six weeks I just made an average of 403 bushels a day, on an average of 2 gallons of gasoline a day, and the engine never missed an explosion in the six weeks. If this can be beat by any of the other makes of engines I am ready to eat my shirt.

I am entirely satisfied with the engine and would not take my money back to-day. You can publish this letter in any of your engine catalogues, and I am ready to prove what I said any old time.

Yours, (Sgd.) Jas. G. Powers, Clifton, N. B.
