

Look Ahead a Few Months—

NEXT SPRING you will decide suddenly that the time has arrived when you cannot possibly get along without a tractor—a Titan 10-20 to be specific. This is the tractor you will want to buy for the simple reason that it operates successfully on kerosene and you get more real value for the new low price than in the purchase of any other tractor, to say nothing of our unexcelled repair service rendered through 16 branch houses and hundreds of agents.

So you go to your agent—and then, to your surprise and dismay, perhaps you find that the agent is sold out on Titans—that the demand has absorbed his entire Spring stock which he ordered some months previously. You may find that you will have to wait, perhaps indefinitely, for your tractor because the factory is oversold and the agent's quantity order will have to await its turn.

This very thing happened in hundreds of instances during the Fall of 1919.

Be forehanded. Don't take chances on over-demand, railroad or other industrial strikes that tie up production, or the quite likely possibility of the price of steel and all steel products going up. Order your Titan 10-20 now for earliest possible delivery. Then you will be sure to have it when you want it. The wise buyer always looks ahead.

International 15-30 speeding up seeding

If you need a larger tractor just bear in mind the International 15-30—50% more power than the 10-20—and it's a kerosene burner

International 15-30 is the ideal tractor for large farms

Let us mail you descriptive literature of the tractor best suited to your needs
