

Building? Yes.
Then it's a question of material.
Wood shingles you have found to be short-lived and disappointing. Prices have gone up, and you do not like to pay a big price unless you are sure of what you are getting.
We know what you want, and we have it.

This is an age of steel, and metal-covered buildings will be the buildings of the future. By their superior merits they have overcome prejudice, until to-day they are springing up all over the country, to the admiration and satisfaction of all.

Lightning proof, fire proof, weather proof, beautiful and durable. "A thing of beauty and a joy forever," or at least for twice as long as wood-covered buildings, and at much less cost.

Read What Others Say:

If I had another barn to roof, and could get wood shingles for nothing, would prefer to use your Corrugated Sheets. Signed, FRANK NAGLE, Delaware, Ont.

I am very much pleased with the Metal Ceiling. It looks fine, and I thank you for the kind way you tried to please me. Signed, ROBERT WOOD, Onondaga, Ont.

I am much pleased with the Safe-Lock Shingles on my house. I consider that I have an A1 job, and have not the least hesitation in advising anyone wanting roofing to go to Preston, as you gave us a first-class article and used us well. Signed, THOS. HAGGARD, Scotch Block, Ont.

Quality holds our trade, and our prices are as low as they will go. Write us for our catalogue, and let us quote you prices. What years have taught us is at your service.

Box 136.

LAST MOUNTAIN VALLEY

THE HEART OF THE GREAT

Saskatchewan Wheat Plains
of Western Canada

READ WHAT PROF. THOS. SHAW SAYS ABOUT THIS DISTRICT

Speaking of Last Mountain Valley, he writes after personal inspection: "This rich and beautiful farming section lying east of Last Mountain Lake, embraces one of the finest areas in the Northwest. The land is undulating in this region, mostly open prairie. The soil is a rich black vegetable loam, from one to two feet deep, and is underlaid with a clay subsoil. Frost to injure the wheat is virtually unknown. Being thus favored so highly by nature, it is not surprising that the production of wheat in this region is phenomenally high; in several instances forty to forty-five bushels per acre having been reaped. Oats, Barley, Flax and all small grains yield relatively as good as those of wheat. Potatoes grow most luxuriantly. Two or three years ago there were not more than thirty-five settlers in the entire area, now there are over three thousand and others rapidly coming in."

BUY YOUR TICKETS TO STRASSBURG
via Winnipeg by the Soo Line

In this section you can see two Transcontinental Railways actually building. Write us for maps, prices and handsomely-illustrated booklet descriptive of this rich region.

American Fence Talks

A AMERICAN FENCE is standard of the world. More miles of it are in use than all other fences combined.

It is made of steel that is exactly fitted for it. A woven-wire fence can be made of wire too soft or too hard. It must be exactly right to render good service.

The structure of the American Fence is perfect. It is built of big, solid, galvanized wires, all No. 9 gauge if you prefer it, with the upright or stay wires hinged; in all heights and for all purposes.

American Fence and Gates are for sale by dealers everywhere, or write us direct and we will send you a catalogue free, and tell you where you can get the fence and save money.

Manufactured by
The Canadian Steel & Wire Co., Limited,
HAMILTON, ONTARIO.

THE "NEW WAY" AIR-COOLED GASOLINE ENGINE.

3 to 7 h.-p., perfectly cooled by fan-blast. No over-heating. No water to freeze. No dangerous gasoline pump. It goes and goes right always. One oil-cup to oil all parts. Send for catalogue.

Don't you want the agency?
