"The Farmer's Advocate."

This Farmer Shows How Good Roads Benefit

MR. J. J. HOUSTON, who lives on a road that has lately been improved, in Lauderdale County Mississippi, makes the common-sense statement which follows:

"I have never made an investment for which I have gotten as much financial returns and satisfaction out of as I have out of this road. The advancement in property alone has been sufficient to four or five times pay the whole cost of construction, and I don't think the county could make any investment that would bring in as much returns as to build a network of them all over it. It is such a good thing that I want every man in the county to have one just like it, and I am willing to pay my part of the taxes to help him get it."

Build Concrete Roads

Then your road taxes will be *invested* and not merely *spent*. They will return many times the amount they cost, and those returns will show in the increased valuation of your property, the lessened cost of marketing your produce, the longer life of your horses and vehicles, the greater conveniences and general prosperity of your community.

Concrete roads outlast all other kinds of roads and require practically no repairs for many years. They are safe, clean, permanent and passable every day in the year.

Write for, free, Good Roads literature and learn how good roads will better your conditions. Address:
