COLONIAL.

o'clock, P. M., a slight shock of an Earthquake was felt in Frederiction and its neighbourhood—
and for the Governor's residence. Mr Rubridge product for the source of the department of works, has also are of the country rests on the concurrent testimenty of the country rests on the concurrent testimenty of so many individuals not likely to be deceived, architect, the plans for the new edsce.— Quebe country of the typic many of the typic many in the bed or attribute and the many of the typic many in the bed or attribute and the many of the typic many in the bed or attribute and the many of the typic many in the bed or attribute and the many of the typic many in the bed or attribute and the many of the typic many in the bed or attribute and the many of the typic many in the bed or attribute and the many of the typic many in the bed or attribute and the many of the typic many in the bed or attribute and the many of the typic many in the bed or attribute and the many of the typic many in the bed or attribute and the many of the typic many in the bed or attribute and the many of the typic many in the bed or attribute and the many of the typic many in the bed or attribute and the many of the typic many in the bed or attribute and the many of the typic many in the bed or attribute and the many of the typic many in the bed or attribute and the many of the typic many in the bed or attribute and the many of the typic many in the bed or attribute and the many of the typic many in the many of the typic many in the bed or attribute and the many of the typic many in the many of the many of the typic many in the many of the many o that we have no difficulty in giving it to the put - Gazette. lic .- Head Quarters.

explored -16.

THE RAILWAY .- The prospects of the undertaking still appear promising. Mr. Burtis having been dispatched through that section of the country where it is expected the line will pass, for the purpose of explaining the subject to the farmers, forwarding its interests and obtaining a cession of the Right of Buy. Although he has been successful in the main, still he has had to encounter considerable difficulty in overconing the prejudices of many, more particularly those near town. This is not to be wondered at, as on conversing with some of them we find that not be of any benefit to them where they are al ready so short a distance from the City, and it is not likely that the cars will stop except at certain stations. In addition to which they may and consequently would be unwilling to give it | Greenwalle, St. Divids. away for nothing.

Cheering news have also been received from Portland, to the effect that the survey between been deprecated by the Medical Board. Calais and Bangor is completed, and that the inhabitants of these and the intermediate places have resolved to tax themselves and build their portion of the line from their own resources. which is confidently expected to be completed, with cars running on it, in three years .- St. J. hu . N. B. Courier, 9th.

New Vessels - A Brigantine, built at St. Martins, called the " F." is now fitting out here for sea. She measures 105 tons, was built by Messrs, J. & T. Berry, and is owned by Mr. Thomas Furnas, Jan. of this city. Another new Brigantine, called the "Trinm, h," was recently launched at Sickville, and is now fitting out here for the West India Trade, for which she is intended. She measures 144 tons, and was built by Mr. Charles Dixon, for himself and Mr. Mariper Wood, of Sackville .- 16.

A Squaen - We have seen a large Squash, weighing 157 lbs., grown up the Eiver by Mr. John Glazier, for John Poilek, Esquire, of this City. Although this production may not be the largest that has been grown in this Province, still in all conscience, it is large enough for all practical purposes. This is a great country for Squash.—16.

THE WEATHER during the last week or two has been delightful—more like summer indeed a donation to the McLeon Asylum of \$20,000; down \$3,000,000 in gold. than the month of November. On Wednesday with the view of creeting an additional wing to San Franca co, -also scar. Claremont, from St. last, however, we had a very heavy storm of the building, much wanted, wind and rain from the South West, which was The Boston Society for perhaps the heaviest blow outside that we have Purperism, within the last ten years, his supplied had this season. The steamer Maid of Eria, on | 24,574 girls and women with employment her usual trip to Eastport on that day, went not this number, 11,112 have been formshed with bly through the storm, although she took 111 places out of the city. On in average, nearly hours to do what she generally does in half that 22.20 places have been formshed, and more than time. We notice that in some parts of the Unit | 1000 applicates have been sentiate the country ed States, Canada, and Prince Edward Island. each yet.
