PRACTICAL EXPERIENCE OF DB. GRIES IN CONSUMPTION Magiebourg, fold Sept, 1553.-MJ wife, having suffer ed for years from a pulmonary complaint, became so seriously ill at the beginning of this year, that I looked drily for her dissolution. The remedies which hitherto had relieved her remained now withoutly fifet, and the ulcerations of the lange and night sweaks debutinted her feurfully. It was in this, evidently the last and hopeless stage of pulmonary consumption, when every medicine remained powerless in even affording temporary relief-that I was induced by a medical brother from Hanover, who makes pulmonary consumption his special study

I have given them to my clididen for worms, which had become effects. They were promptly cured. I recommended them to a friend for costiveness, which had troubled him for momths; he told me in a few days they had enred him. Your CATHARTIC PILLS have entirely cured use from a dysepsia and cotiveness, which has grown upon me for some years, --indeed this cure is much more important, from the fact that I had failed to get relief from the best Physicians which this section of the country affords, and from any of the numerons remedies I had taken.
