son, 4.
Ewe, shearling—McKay, 1 and 2;
Allison, 3; Jasper, 4.
Ewe lamb—Allison—1 and 4; McKay,
2 and 3.
Ewe, any age—McKay, 1; Allison, 2.
Pen three lambs—McKay.
Pen, ram, two ewes and two lambs—
McKay.

SHROPSHIRE.

Ram, two shears—W. L. Trann, Cry-
stal City, 1.
Ram shearling—A. J. Turner, Cal-
gary, 1 and 2.
Ram, lamb—Turner, 1; Trann, 2, 3
and 4.
Ram, any age—Trann, 1.
Ewe, aged—Trann, with Prairie
Home stock, 1, 2 and 3; Turner 4.
Ewe, shearling—Trann, 1, 3 and 4;
Turner, 2.
Ewe, lamb—Turner, 1; Trann, 2, 3
and 4.
Ewe, any age—Turner.
Pen, ram, two ewes and two ewe
lambs—Turner, 1; Trann, 2.
Pen three lambs—Turner, 1; Trann,
2.

OXFORD DOWNS.

Oxford Downs. Ram two shears or
over—T. R. Todd, Hillview, 1.
Ram, shearling—P. B. McLaren;
Clearwater, 1, 2 and 3.
Ram, lamb—P. B. McLaren, 1; T. R.
Todd, 2 and 3.
Ram any age—P. B. McLaren, 1.
Aged ewe—P. B. McLaren, 1, 2 and 3;
T. R. Todd, 4.
Ewe shearling—P. B. McLaren, 1, 2,
3 and 4.
Ewe lamb—P. B. McLaren, 1 and 2;
T. R. Todd, 3 and 4.
Pen, ram and two ewes, and two
ewe lambs—P. B. McLaren, 1; T. R.
Todd, 2.
Pen, three lambs—P. B. McLaren, 1.
Best yearling ram—P. B. McLaren, 1.
Best pen of four lambs either sex—
P. B. McLaren, 1.

MUTTON SHEEP.

Wether or shearling—P. B. McLaren,
1; Trann, 2.
Three shearlings—P. B. McLaren, 1.
Three lambs—Trann, 1.
No grade sheep were entered for com-
petition.

ANGORA GOATS.

Buck—J. B. Jickling, Carman.
Doe—J. B. Jickling, 1 and 2.
Kid, male—J. B. Jickling, 1.

Questions and Answers

UN SOUND MARE.

A purchased from B a mare rising
nine for \$110 in February last. After
A had owned the mare a few weeks, he
was told that the mare had the staggers.
A used the mare quite steady all spring,
but failed to see any sign of staggers till

about a month ago, and since hot
weather she has an attack quite fre-
quently.

1. Is B in any way liable to A, as he
did not in any way guarantee the mare
unless the price received guarantees her?
2. Can B be forced to take the mare
back and refund the money, or make
any amends if it can be proved that she
had these attacks while in his possession?

A SUBSCRIBER.

Ans.—1. No.

Ans.—2. No.

RINGWORM.

Could you give me a remedy for ring-
worm on calves, as we have tried every-
thing that we know of, and I would like
to know how they are affected?

W. G. P.

Ans.—Ringworm is a contagious dis-
ease, due to a fungus found on man,
horses and cattle. The parasite often
affects the skin around the eyes of cattle
and in some cases will spread over the
neck, or on other parts of the body.
Many different remedies have been pre-
scribed, but in our experience the simple
mixture of lard and sulphur has invari-
ably been successful, say one part sul-
phur to five or six of lard or sweet oil.
A little coal-oil added to the mixture
is helpful in stubborn cases. To get
the quickest results, it is well to first
wash the parts with warm soft water
and soap to remove the dead scales, but
usually the ointment well rubbed in and
repeated in a few days effects a cure.

COLT WITH SHORT JAW.

Colt, one week old, appears to have
lower jaw about two inches or quite a
bit longer than the top. Will it ever
become perfect?

SUBSCRIBER.

Ans.—No; but it may not seriously
affect its usefulness. We have known
sheep similarly handicapped that made
good use of their food, and kept in good
condition.

PEDIGREES OF TROTTING-BRED HORSES.

1. What is the difference between a
purebred trotting stallion and a Stan-
dard bred.
2. To the inexperienced breeder, how
can he distinguish a good and genuine
pedigree from a "made-up affair" of
pedigree?
3. Has a Standardbred, or what
breeds have to have their ancestors regis-
tered and numbered?
4. What is the distinguishing feature
between a purebred and a Standard-
bred in description of pedigrees?
5. Have genuine pedigrees their sires
numbered?
6. Where or how did the Standard-
bred originate?
7. Where can one obtain a general
knowledge of Standardbred horses
without a too exhaustive research?

SUBSCRIBER.

Ans.—1. The requirements to entitle
to registration in the American Trotting
Registry Association, the only registry
of this class, differ from those of other
pedigree records in that no fixed number
of crosses by registered sires is stated
and that records of performance of
ancestors are accepted instead. There
is, therefore, no such thing, strictly
speaking, as a purebred trotting horse.
The breed originated in the United
States, and has been established by selec-
tion and mating of fast-trotting mares
with fast-trotting stallions, they and
their progeny being developed by per-
sistent and intelligent training.

2. Only by the fact of the pedigree
bearing a registration number in the
recognized record of the breed, and
such knowledge of the character and
performance of the animal and its ances-
tors as can be obtained of these from
published records.

3. All breeds purporting to be pure-
bred, and of which official records are
kept, must have registered numbers, and
in order to this the sire and dam also
must bear registration numbers in the
case of all breeds, except that of

TROUSERS
To Order
By Mail **\$3.50**
We guarantee a perfect
fit, good materials, proper
workmanship.
Patterns to please all
tastes in Worsted, Tweeds,
Serges or Homespuns.

Bone Spavin
No matter how old the blemish,
how lame the horse, or how many doctors
have tried and failed, use
Fleming's
Spavin and Ringbone Paste
Use it under our guarantee—your money
refunded if it doesn't make the horse go
sound. Most cases cured by a single 45-
minute application—occasionally two re-
quired. Cures Bone Spavin, Ringbone and
Sidebone, new and old cases alike. Write
for detailed information and a free copy of
Fleming's Vest-Pocket
Veterinary Adviser
Ninety-six pages, durably bound, indexed
and illustrated. Covers over one hundred
veterinary subjects. Read this book before
you treat any kind of lameness in horses.

**Lost Strayed or
Stolen—One Cow**
That is about what happens each year
for the man who owns five cows and
does not use a **Tubular** cream sepa-
rator. He loses in cream more than the
price of a good cow. The more cows
he owns the greater the loss. This is a
fact on which Agricultural Colleges,
Dairy Experts and the best Dairywomen
all agree, and so do you if you use a
Tubular. If not, it's high time you
did. You can't afford to lose the price
of one or more cows each year—there's
no reason why you should. Get a **Tu-
bular** and get more and better cream
out of the milk; save time and labor and
have warm sweet skimmed milk for the
calves. Don't buy some cheap rattle-
trap thing called a separator; that
won't do any good. You need a real
skimmer that does perfect work, skims
clean, thick or thin, hot or cold; runs
easy; simple in construction; easily
understood. That's the **Tubular** and
there is but one **Tubular**, the **Sharps**
Tubular. Don't you want our
little book "Business Dairymen," and
our Catalog A-186 both free? A postal
will bring them.
