It must be admitted that up to date they have maintained a bold and successful front but the strain is daily becoming more and more strenuous and the internal condition of affairs in the Fatherland must appal even the most optimistic, with commercial and financial disaster becoming daily more and more apparent. As for the Allies they are more determined than ever to have any settlement on their own say so. wears.

THE NEED FOR ECONOMY. In London a short time ago hotels which had announced their usual elaborate preparations for Christmas this winter. dinners, were called down by the authorities in short order. Now it is announced that the new Government is likely to adopt a card system with reference to food, and to introduce meatless days and other measures. Germany of course, took drastic action with regard to food supplies long ago, and other countries are taking similar action. For instance, over the Courier leased wire to-day comes the announcement that the Italian authorities will place the fresh meat supply under Government control after January 1st next and will permit the purchase of poultry on two days only. The fact is that with so many millions of producers engaged in the war struggle everything is bound to become more and more scarce at constantly advancing retail figures.

The position of affairs is one which should be recognized by Canadians generally, and has not been thus far, to any noticeable extent. The lesson is one which applies to the rich as well as the less well to do-more especially to the former, for it is the universal rule in all communities that those not possessed of so much wherewithal try to emulate those who are. STATUS QUO.

By Courier Leased Wire. Washington, Dec. 12.—Advices from Berlin to the German embassy indicate that Germany's peace terms, in general measure propose the re-storation of the status quo before the war with the exception of the establishment of independent king-doms of Poland and Lithuania. They are understood to propose the complete restoration of the occupied portions of Belgium and France in return for Germany's captured colonies and to dispose of the Balkan situation because of its ex-tremely complicated nature, in the ace conference.
