## A WORTHY REPRESENTATIVE.

The Farmers' Sun, of Toronto, in a recent editorial pays a glowing tribute to Phil. H. Bowyer, East Kent's honest and conscientious representative in the Legislature. During the recent session of the House Mr. Bowyer conducted himself in a creditable manner, and the stands he has taken upon the various issues have stamped him in the eyes of his colleagues as "the man who keeps his word."

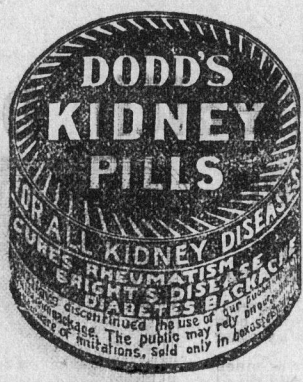

Mr. Bowyer did not go to Toronto to support the Whitney Government, he went there to support the Canadian farmer according to the dictates of his conscience. Although he was elected as the Conservative candidate, he has on many questions disagreed with the Government, and he has not been backward in expressing his opinions. As a result, he has proven himself a power at Toronto. He is a Radical, and has upon several occasions found it expedient to advise the Government to enter more extensively into the proposed reforms. In all cases his objections have received the earnest consideration of the Government, and Mr. Bowyer has had the satisfaction of knowing that in a few instances at least he has been able to influence the Government in accepting his ideas of reform. His constituents have noted with approval that he has had but one speech both for the hustings and for the floor of the House.

The Sun, in speaking of Mr. Bowyer, says: "When Mr. Bowyer was appealing for election in East Kent he pledged himself to oppose all land grants and subsidies, and to work for the fair taxation of railway and other corporations. Mr. Bowyer has made good his pledge. He was the one man to raise a voice against the two railway subsidies which passed the House, and on the matter of railway taxation he not only spoke boldly himself, but by his lead encouraged others to do the same. The people of East Kent made no mistake in the choice of their representative."

## A MODEL GOVERNMENT.

The Whitney Government has been but fifteen months in office, and already it has justified the action of the people in electing it, says the Mail and Empire in a recent editorial. We now have a purer political atmosphere and a more aggressive and more popular policy.

While the Ministry itself commands the admiration of the Province, the individual Ministers have surprised the public. Mr. Whitney stands forth as a man of constructive skill, and of absolute indifference to any argument save that which is based upon justice, honor and common sense. Sir Oliver Mowat was reputed to be a man of severe rectitude. He would not have been more scrupulous than Mr. Whitney. In his colleagues the Premier is fortunate. Mr. Foy is a model Attorney-General, bold in his administration of the law, and thoroughly impartial, while Mr. Hanna is possibly the best Provincial Secretary we have had. It was predicted of Col. Matheson by his opponents that he would not be a successful Treasurer, but he is a first class occupant of that office, and has all the details at his fingers' ends. Messrs. Monteith and Reaume have conducted their departments, both in and out of the Legislature, with skill and success. Dr. Fyne was another Minister of whom it was alleged that he would not occupy his position with credit. The Minister of Education, it turns out, is one of the best administrators the department has had. It is true that he does not pose as an educationist of large experience; but, at the same time, he has shown that he can study an educational question, and propounded a

solution that is wise. The Crown Lands Department is in good hands. Mr. Cochrane is a forceful administrator, and, withal, a man of independent will. The members of the Government without portfolio are active workers. Dr. Willoughby is a sound adviser, and Mr. Hendrie and Mr. Beck have shown that they are advanced thinkers. The settlement of the railway question by Mr. Hendrie was a work that will always rebound to his credit; while Mr. Beck's power legislation is a measure that receives universal commendation.

## BEAUTIFY THE CITY.

In order to add to the beauty of Denver, Col., the mayor has recently issued a proclamation to the citizens, calling upon them to follow out a practical plan which he has mapped out. Here are his suggestions:

If your store front, residence, or fence is dull or dingy, order it painted, and get a new one.

If your sidewalk, fences or gate needs repairing, fix it.

Destroy the young weeds that are starting on your property, and on your neighbor's property!

If your advertising sign is old or faded, take it down and paint it.

Resolve never to throw paper in the streets.

Take all dandelions out of your lawn—they spoil the beauty.

Earn all the rubbish possible; allow no one to throw it on the streets, alleys, or vacant lots.

Promise not to spit on the sidewalks.

Organize a block improvement society on sidewalk area or vacant property in your block.

Inspect the size of your store in the business section.

Every effort put forth or dollar spent to improve the city's appearance will be returned twofold.

It is claimed that these suggestions have been cordially carried out by the people, and that they are perfectly delighted with the result.

## SPEEDY CURE BY CUTICURA REMEDIES

"I suffered with humour for about three years, off and on. I finally saw a doctor and he gave me remedies that did me no good, so I tried Cuticura when my limb below the knee to the ankle was as raw as a piece of beef. All used was the Cuticura Soap and the Ointment. I bathed with the Soap every day and used about six or seven boxes of Ointment. I was thoroughly cured of the humour in three weeks and haven't been affected with it since. I use no other Soap than Cuticura now. I remain, yours respectfully, H. J. Myers, U. S. N., U. S. S. Newark, New York, July 8, 1905. 'P. S. Publish if you wish.'"

## AULD LANG SYNE

FROM PLANET FILES OF HALF A CENTURY AGO

From The Planet files of Jan. 12 to 19, 1865.

"Within the past few days our farmers have been bringing in to the market great quantities of well-fattened pork, for which high prices have been readily paid. Mr. John Jenner, of the Township of Raleigh, brought in one hog which alone weighed 664 pounds, and brought in cash \$54. Mr. Robert Lowe, of the Kent Mills, being the purchaser. This hog was bred by Mr. Par-do, of Raleigh, and fed by Mr. Jenner. He weighed 657 pounds, for which he was offered \$41.61. Kent forever!"

The volunteer militia, who had just returned from active service, were expecting the paymaster to arrive with their back pay.

Mention was made of a scheme, which an endeavor was being made to promote. An American company were talking of inaugurating a marine railway around Niagara Falls, whereby all and steam vessels could be transported around the cataract.

"We learn that our old friend, Mr. David Bryson, will assume his former position as night station master at the Chatham G. W. R. station, while Mr. George Frazer will take his old place as day telegraph operator, and Mr. John Frederick will go to Komoka."

A notice appeared announcing that the Provincial lunatic asylum at Toronto was full, and that no more patients could be accommodated there.

## Inspector's Annual Report.

The thirty-eighth annual report on the lunatic and idiot asylums of Ontario shows that there were 6,213 patients certified insane Sept. 30, 1905, an increase of 632 for the year, during which 1,130 patients were admitted. On Sept. 30, 1905, the number of patients was 4,613. The total cost of maintenance for the year was \$768,204, a weekly cost per patient of \$2.23. Revenues from paying patients amounted to \$114,915.

Dr. Forbes Winslow is quoted as saying that "alcohol must be given the first place as a cause of insanity," with tobacco, especially cigarette-smoking, as a potent factor in lunacy. In the British asylums intemperance is assigned as the cause of one-quarter of the cases of insanity, while in Ontario only 6 1/2 per cent. of the cases are attributed to drink.

Uniformity in the manual of service is recommended for the different institutions which have shown a disposition to live apart instead of working in sympathy. The lunatic system among officials is considered a helpful one.

A review was made of cases registered against the commitment of insane persons to jail. It is pointed out that the word "asylum" in connection with the insane is becoming obsolete. Hospitals is the proper name for institutions devoted to the care of the insane.

Next to York county, which furnished 250 lunatics last year, comes Middlesex with 63; Wentworth and Frontenac had 48 each; Carleton, 46; Leeds and Grenville, 45; Simcoe, 41, and Northumberland and Durham, 40. Of the total number of patients 1,097 had from York county, 351 from Middlesex, 238 from Wentworth, 253 from Simcoe, and 245 from Carleton.

As many as 443 patients have been in residence twenty years and upwards. There were 315 discharged cured during the year, one of these after twenty years. The number of deaths for the year were 343, a percentage of 5.97. Tuberculosis was the cause of 43. Senile decay and epilepsy were the next chief causes.

Of the occupations of insane persons the great bulk of them come from four classes. Housekeepers had the largest number, followed by farmers, with 4,368, and domestic servants, with 3,725. The enormous difference is apparent when it is noted that the next two classes are wives with 650 cases, and carpenters with 471.

Patients were given employment in the asylum to the number of 4,431, with an average number of 298 days for each patient.

The Only Boss That Doesn't. They were busy cutting ice on the Big Pond. An intuitive visitor to the scene noticed that all were hard at work with the exception of a party in a bull-skin overcoat and a corduroy cap. "Why isn't he working?" inquired the inquisitive stranger. "Oh, he don't cut no ice," was the reply. "He's the Boss!"—The Khan.

There was rumor of Great Britain sending out large bodies of troops to Canada, the object being that England and France's intentions were to recognize Mr. Lincoln as president only of those states of the Union by which he was elected, thus effectually affirming the distinction of the former United States; the article goes on to say:
