(By Canadian Associated Press.)

ADVOCATES CASH BONUS TO SOLDIERS

Liberal Candidate in Temiskaming Would Give \$1.05 a Day to Overseas Men.

(By Canadian Associated Press.)
Halifax, N. S., April 5.—At a meeting here Saturday night in the interests of A. C. Slight, the Liberal candidate in the Temiskaming federal bye-election, Mr. Slight charged Sir James Loughheed, Senator, with inefficiency in the handling of the returned soldiers. Mr. Slight declared himself as in favor of a cash grant to the returned soldiers.

"I advocate the payment of \$1.05 to every man for each day he served in France," said Mr. Slight, "sixty cents for each day served in England and thirty cents a day for each day in Canada."

This plan, he admitted, would cost the country about \$300,000,000, but "it would settle the matter, once for all," in his opinion.

Fred Pardee, M. P. for West Lambton, supported Mr. Slight. He said that neither he nor Mr. Slight was a free trader.

"Theoretically we are," he added, "but practically we are not, for the reason that we know that a reasonable measure of protection must be provided for the making of a new and young country."

They Know at Halifax

IN Halifax, you may learn much about ships, but nothing more important than the value of surface protection.

Immense quantities of paint are used on ships—usually three coats all over, amounting to several dozen barrels to a ship. This expenditure for surface protection, however, is not incurred merely to make ships look well, although, naturally that is one result. The main object is to preserve all surfaces against the sea, the storms, and the sun of every climate into which ships sail.

And what is true of ships is true of everything else. If it has a surface it needs surface protection.

If you will keep the surface of your house, your barn, your office-building, protected with Paint and Varnish inside and outside,

you will keep it safe against weather and wear, almost for all time—a wonderful result for small expenditure.

Remember that wood, metal, stucco and often concrete, must have surface protection if they are to be preserved in their original strength and beauty.

THIS ANNOUNCEMENT is issued by the Canadian Surface Protection Commission, for the purpose of educating the public in the Preservative and Protective value of Paint, Varnish and Allied Products for the Conservation of Property, and has received the approval of the Canadian Trade Commission in the following words:

"The realization of the above objects will lead to employment during the Reconstruction Period and bears our entire approval."
