[From the Moncton Times.]

The Story of a Dorg.

A Lesson in Natural History.

HUNGRY.—The *Times* complains that it did not receive a present of moose-meat the other day from a gentleman who was distributing, as presents to his friends, parts of a carcase brought to Moncton from Nova Scotia. It is to be hoped that such a carrion-crow of the press will not be looked upon as a fair sample of the profession. Whenever anything is being given away, Stevens may be heard squeaking out, "me too, me too!"

No one need be told that the above is from the Chatham *Advance*, and it will be equally unnecessary to say that our little passing pleasantry about moose meat did not contain substance enough to tempt any but an *exceedingly hungry* whelp to snap at.

We have great sympathy for Mr. Snowball, M. P., because we know how it is ourself. We once had a little waggy, dumpy, "yaller" dog that made himself a source of great annoyance to the community by his persistant and cowardly habit of snarling and nipping the heels of those who came in his way. He was exceedingly meddlesome too; would anytime go to the shiretown to mix in a row, and was always interfering in disturbances that did not concern him. The history of the animal was wrapt in obscurity, but he was "no purp" when he came to us and report said he had been dropped by a band of strolling players (the Black Crook, if we remember rightly) who passed through town about this time and whom our list of uncollected printing bills has kept fresh, if not green in our memory. In our presence the brute, whom we called Crabby (to indicate his disposition) was docile as a lamb, but if we happened to go to England, or to Barbibogue, or any other neighboring town, the beast would strut about the office platform and put on as many airs as if he owned the whole plantation. Sometimes the cur got a basting, as on one occasion when he had the temerity to attack a Fish man from St. John; but the lesson inflicted was only temporarily beneficial and "Crabby" was soon as saucy as ever. Once upon a time a gentleman with a Surveyor's rod in his hand came along, and though Crabby had made it a steady business for a long time previously to snarl and growl at this gentleman, the sight of the rod on this occasion had a surprising effect in taming him down and converting him into a cringing, crawling, fawning, sycophantic, cur, that it was not in human nature to avoid despising. The surveyor did heartily despise him and refused to give him a piece of moose meat or anything else to satiate his ravenous appetite, though "Crabby" manifested every disposition to bark for him, if encouragement was offered, as loudly as he had previously barked against him. Another individual that Crabby had an antipathy for was a certain medical gentleman, whom he was constantly seeking to annoy, but one day—if we mistake not it was the 17th September—the unfortunate whelp got under the Doctor's carriage wheels and had the bark completely peeled off, besides sustaining other serious injuries. After that he was very docile and well behaved—to the Medicine man—and went crawling around where he was, hoping to get a little of the loose grease from the axle wheels, a good many of which are run by the medical gentleman. "Crabby" did not wait to be told "to help himself," he just "reached for" what he wanted—same as some newspapers take Intercolonial Railway and other Government advertisements hoping that when the facts were discovered he would be allowed to enjoy his repast without molestation.

Well "Crabby" at last became such a nuisance that we gave him away to an Indian—not because we had anything against the Indian, but because we surmised that a return to his predatory habits and wandering life might make a better puppy of him. Mr. Snowball can do as he likes, of course, but that is what we did with our dog.

[St. John News, Feb. 20.]

The *Advance* is laboring just now under a severe attack of Venning on the brain. The disease has broken out with very aggravated symptoms. No paper in the Province can copy an article on the fisheries from its local contemporaries of Chatham and Newcastle without coming under the ban of D. G. Smith. No correspondent can give a statement of facts—no editorial allusion can be made to these, than straightway the *Advance* asserts that they are either written or inspired by Venning. In his opinion Venning also writes all the hundreds of articles on the fisheries of Nova Scotia that have teemed from the press of that Province during the last four years.—According to the *Advance*, Venning is an authority on fish-ways, a censor of his superior officers, and a mentor to Collectors of Customs. Then, if the *Advance* is to be believed, Venning is retained as Fishery Editor of the *Sun*, the *News*, the *Telegraph*, the *Moncton Times*, the *Advocate* and the *Gleaner*. According to the *Advance*, Venning was sole editor of the *New Dominion* until its suspension, and the writer of the "Open Letters" to Sir A. J. Smith. All this time, if the *Advance* is to be believed, Venning was continually travelling to various parts of the Province, attending to the correspondence and details of his office, taking charge of elections, directing caucus meetings of the Conservative party, and in short running everything.

Here in St. John, where Mr. Venning's retiring manners and his exclusive attention to the pressing duties of his office are so well known, all this only excites a smile of contemptuous pity in every one who chances to read the *Advance*'s stupid outpourings of malice and disappointed hopes.—All we have to remark is, that if Mr. Venning is so great and universal a genius as the *Advance* describes him, Smith will best consult his own interests by letting him severely alone.—For the past four years Smith has been *gnawing at this file*, but the columns of the provincial press, which contained Mr. Venning's answers over his own signatures, abundantly prove that he is more than a match for his malicious antagonist, and that in attempting to measure pens with him he is only playing another of his "losing games."

Very Sensible.

Horse dealers who are supposed to know what effects their interest, purchase "Darley's Condition Powders and Arabian Heave Remedy" by the dozen, and feed it to their horses for the purpose of improving their condition, which it always does—others should profit by their example—Remember the name and see that the signature of Hurd & Co. is on each package. Northrop & Lyman, Toronto, Ont., proprietors for Canada. Sold by all medicine dealers.

[Items from Saturday's "Gleaner."]

Y. M. C. A.

At the annual meeting of the above Association held last Monday evening the following officers were elected for the ensuing year:—

President—Geo. Whittaker.

Vice-Presidents—W. S. Loggie, A. W. Paterson, J. Y. Mersereau, Samuel Irvine, Wm. Rae.

Recording Sec.—James Creighton.

Corresponding Sec.—J. Nicol.

Treasurer—W. S. Loggie.

Librarian—Wm. Simpson.

The Secretary in his report stated that the Receipts from all sources were $129 56 and the expenditure $150.13.

DRAMA, MUSIC, FUN.—A very large and respectable audience greeted the amateurs of the R. C. Total Abstinence Society at their entertainment in the Masonic Hall, on Monday evening last. The Orchestra, led by Mr. T. Harrington, rendered some capital music, and their performances on the occasion were favorably commented upon. Mr. James Connors' recitation. "The death of Marmion," was well received. The "Skidmore Guards" took the house by storm, and caused many open countenances to be exhibited. The whole performance was well carried out, and would do credit to any *corps* of amateurs. We are glad to know that the entertainment pleased the audience and was profitable to the Society. After Easter "another of the same" would be acceptable.

FIRE.—The house of Mr. Wm. Fitzpatrick at Douglasfield near the school house, was destroyed by fire on Sunday morning. The inmates consisting of Mr. Fitzpatrick, his wife and two children barely escaped with their lives. We are informed that the fire had obtained such headway before it was discovered that the family were not able to save even sufficient clothing to cover them from the biting cold.

Why Will You

Allow a cold to advance in your system and thus encourage more serious maladies such as Pneumonia, Hemorrhages and Lung troubles when an immediate relief can be so readily attained. *Boschee's German Syrup* has gained the largest sale in the world for the cure of Coughs, Colds and the severest Lung Diseases. It is Dr. Boschee's famous German prescription, and is prepared with the greatest care, and no fear need be entertained in administering it to the youngest child, as per directions. The sale of this medicine is unprecedented. Since first introduced there has been a constant increasing demand and without a single report of a failure to do its work in any case. Ask your Druggist as to the truth of these remarks. Large size 75 cents. Try it and be convinced. E. Lee Street, agent for Newcastle.

IN THE WOODS.—From conversation with lumbermen from the Miramichi, and the head waters of the St. John we learn that the winter thus far has been very favorable for parties working in the woods, and that large quantities of logs are being hauled to the different streams. The operations carried on in various sections of the Province are of a limited character as compared with former years.

The prevailing influenza has reached the camps in all directions, and the men are more or less affected by it.—*Fredericton Reporter.*

Call at the first Drug Store and procure a bottle of Gray's Syrup of Red Spruce Gum for coughs, colds, &c. We recommend its purchase at Drug Stores of respectability, as there is an attempt to place in the hands of the public an article under a similar name, put up in a similar style, but of a white milky appearance—the genuine being of a dark brownish-red colour. It is a wretched imitation, and should be at once rejected. feb. 26-1m.

London, Feb. 23.—The British *Medical Journal* prints the following: "A letter by Dr. Jdekauer, Court physician to the Czar, states that the plague is nearly extinct. On the 11th inst there remained one case at Selitreno. Although the epidemic was purely local, and did not go beyond the villages of Wetljanka, Selitreno and Michaelowka, yet the mortality was over 80 per cent. The Government feels, therefore, called about to enforce the strictest quarantine and other sanitary measures."

FELLOW'S DYSPEPSIA BITTERS speedily removes any symptoms of Indigestion and in cases of long standing of this dreadful disease, a permanent cure may be effected by persevering in the use of this wonderful medicine. It imparts a healthy condition to the system generally, and furnishes it with new life, restoring all the parts to health by thoroughly purifying the blood. Many living witnesses may be referred to who had drawn out a miserable existence for years from Indigestion, and who were entirely cured by the use of this extraordinary medicine. Let those who are affected try it and prove its healing properties. Price 25 cents per bottle.

NO MORE COUGHS.—All that is asked to make the above saying true is the Universal use of that wonderful cough medicine. Fellow's Balsam of Coltsfoot and Liverwort. The sale of this medicine is increasing every day, and in time it will eclipse all other cough medicine. Try a bottle price 25 cents.

DEPOSITS OF CUSTOMS RECEIPTS.—The Collector of the Port of St. John was instructed yesterday to deposit in the various banks any notes or checks upon such banks which may be taken for duties. All deposits of Customs receipts have hitherto been in the Bank of Montreal. This will greatly relieve the other Banking institutions, and is evidence of the watchful care of the Ministers of Finance and Customs over the interests of the business centres, so far as they can be advanced by the Government.—*Sun.*

Ear ache, tooth ache, head ache, neuralgia, and deafness can be instantly relieved and finally cured by *Johnson's Anodyne Liniment*. Get a bottle and read directions.

The editor of an agricultural paper says there is absolutely no cure for hog cholera, but that *Sheridan's Condition Powders* given occasionally will certainly prevent it. Be sure to get Sheridan's. The other kinds in *large* packs are trash.

The following are the statistics of the trade of Prince Edward Island for the year 1878:—Exports—oats, 1,853,685 bushels, value, $705,507; potatoes, 1,367,121 bush., value, $533,521, eggs, 453,103 dozens, value, $41,599. The total value of goods exported during the year was $1,971,307; during the same time the value of the imports was $1,059,001; entered for home consumption, $1,090,708; total duty collected, $200,634.45.

PACIFIC RAILWAY CONTRACT.—"The contracts for the remaining of the Pacific Railway, between Winnipeg and Thunder Bay, was awarded to-day. Morse, Nicholson and Marpole, Toronto, received the contract for the Western Section of 67 miles, and Marks & Conway, associated with Purcell, Ginty & Ryan, received the contract for the Eastern Section of 118 miles, the lowest tender being accepted in each case."—*Sun.*

OLD AGES.—Below we give the names and ages of five persons, brothers and sisters, who were raised in this vicinity. Mrs. James Taylor, of Cornwallis, 98; Mr. Benjamin Foster, of Berwick, 97; Mr. Samuel Foster, of Hampton, 95; Mrs. Frank Tupper, of Cornwallis, 93; Mr. Philip Foster, of Cornwallis, 77; making a total of 420 years. The grand-mother of the above died at the age of 105 years.—*Bridgetown N. S., Monitor.*

Correspondence.

(TIM AND DAVY.)

Chatham, 24th Feb'y, '79.

MESSRS. EDITORS:—I am a very plain man, and I just want to write a few plain words about the way D. G. Smith writes of Tim Chapman in his last paper. He calls me a person of weak intellect, and a poor creature. Well, I may not have as much brains as D. G. but I have still brains enough to prove D. G. the liar he is when he says that Mr. Wyse employed me to collect the small bass at all, and if I had been able to have prevented him he would not have got them; and, in the second place, I may not be a much poorer man than D. G., at any rate not poor enough, nor mean enough, to carry a hat box. Smith also speaks of my memory being assisted in making my affidavit, but my memory is pretty good, good enough at any rate to have a rememberance about proving a bigger man than Smith a liar at the election of 1874, before he had D. G. to lie for him.

Smith wants to make it appear that my oath was illegal; but how about another oath that he with an assistant induced a fisherman some time ago to make about the fall bass fishery, at any rate, no *rum* was required to have my affidavit made. Can D. G. say as much about the other. Well, Messrs. Editors, I am a poor writer but even if my intellect is weak, as D. G. says, perhaps my arm may yet be strong enough to cram the lies down his throat, and serve him as he was once served, in a pugilistic encounter by a Water Street merchant, and at another time at Sussex Corner, K. C.

Yours &c.,

JAMES CHAPMAN.

Tracadie, February 18, 1879.

MESSRS. EDITORS.—With your kind permission I wish to publish a few facts through the columns of your paper. John Doran, Esq, of Shippegan, lately deceassed, kept the Post Office in that Parish for the last forty years. Mr. Doran died a few months ago, and his family got up a petition, signed by the business men of the Parish, and many of the influential men of the County, praying that the office be left with them. For several years previous to Mr. Doran's death, his sight was failing and one of his daughters, a very competent person, kept the books and performed the duties of the office. No complaint was ever made against Mr. Doran or his family with regard to the manner in which the business of the office was conducted. The family were always kind, courteous, and highly respected by those who were acquainted with them. When the Parish Priest heard that the Doran family had applied for the Post Office, he doubtless considered that it was a good time to show the people that he held the patronage of the Parish in his hands; he made application, praying that a friend of his, only a short time resident in the Parish, be appointed.—His request was granted and the Office taken from the Doran family, (who were old and respected inhabitants of the Parish) and given to a stranger.—Now I think that if our clergymen in this part of the country attended more to their religious duties, instead of continually dabbling in our public affairs, it would redound more to their credit.

JUSTICIA.

I. C. R., Feb. 24, '79.

Editors Advocate.

DEAR SIRS:—It was made known to us this day (pay day) by Trackmaster M'Lellan that Paymaster Finlay is about severing his connection with the I. C. R. A demand has been made on all the section men between Campbellton and Moncton to give one dollar each to purchase Mr. Finlay a gold watch. Of course it won't do for us to refuse our superior's request, but there are some of us can ill afford to spare the dollar. We have paid it to our foreman, who I presume will hand the amount over to the Trackmaster immediately.

Messrs. Editors, it is about time a stop was put to this way of well paid officers exacting money from those under them to make valuable presents to one another at our expense.

A SECTION MAN.

P. S.—I am told that seventy dollars were raised in the round house at Campbellton towards the gold watch. The best thing the railway authorities can do is to discountenance the transaction, and to have the money refunded to each man.

S. M.

Black Brook, 22nd Feb. 1879.

To the Editors Advocate.

DEAR SIRS:—I saw a communication in the *Miramichi Advance* of Thursday, stating that there was illegal fishing in Overseer Russell's District.

Now, Messrs. Editors, if the "One Who Knows" had stated the honest truth that there was illegal fishing in Overseer Perley's District, also since the 14th of February, he would have been right. There has also been illegal fishing carried on every night since the 14th from West Point to Napan Bay.

Now, Messrs. Editors, while parties from Chatham down along the Main River to West Point, in the most public places have to comply with the Law, while others in more secluded places are carrying on the fishing, when the law says that there shall be no fishing carried on after the 14th of February.

Since the Overseer is asleep and don't look after this, I would suggest that the Inspector of the Province should send him an assistant.

A SOUTHSIDER.

Blackville, February 15th, 1879.

Editors Union Advocate.

SIRS.—Among the benefits we would receive from dividing the County of Northumberland, would be the securing for this section of the province, an additional representative to Ottawa. The next census of the Dominion, is to be taken in 1881, and the increase of population will no doubt entitle this province to at least one additional representative. Now if the parishes named in my last letter, were organized into a separate County, we in that County would have a stronger claim than any other section of the province, for such representative; and I have not the least doubt, if we can obtain such a division in time, that our claim will be recognized, and each county formed into a separate electoral district, thus giving that section of country now known as the County of Northumberland, two Dominion representatives, instead of one, as at present.

Yours &c.,

A VOTER.

SCHOOL FESTIVAL.

On Friday evening Feb. 7, a very entertaining festival was given to the pupils of School District No 5 and Sunday School thereto attached, by their teacher Miss Wilkinson. A number of the parents were present who also took part in the evening's sport. After tea, which was joyfully partaken of by the children first, and seniors afterwards, a number of games were played and thoroughly enjoyed. A dialogue was very nicely rendered by four of the little girls present. Each child then went forward to a large box that was concealed in a corner of the School Room, and from therein drew forth a bag of sweet-meats. Great and loud was the laughter upon the production of one, the contests of which told the owner he was doomed to be an old bachelor. After the singing of two carols and the national anthem all dispersed much pleased with the evening's pleasure. Miss Wilkinson does indeed deserve credit for the great interest she has manifested in the children of this district, not only in her daily duties as their teacher, but also in the getting up of the large and well attended Sunday School in connection with St. John the Evangelist's Church, the duties of which devolve upon herself alone. It is rumored that she purposes withdrawing her services at the expiration of the present term but we feel safe in saying that in parting with her Bay du Vin will lose a teacher of countless value and talents.

VISITOR.

Bay du Vin, Feb. 11, 1879.

Newcastle, N. B. Feb. 25, 1879.

Messrs. Editors.—Please accept the thanks of Newcastle Fire Company for your handsome donation of magazines, reviews &c., to our Reading Room.

Yours truly,

WM. FENN,

Sec'y Newcastle Fire Co'y.

THE VITALIZING NUTRITIVE-TONIC QUALITIES of Robinson's Phosphorized Emulsion of Cod Liver Oil with Lacto-phosphate of Lime would indicate its great value as a *Restorative* and *Invigorator* in that low condition of the system prevailing in patients recovering from *Fevers*, especially in those of a *Typhoid* character; while, if taken when the first premonitory signs of *lassitude* and *weakness* appear, it would have a tendency to *prevent* the attack, or *lighten* it and *shorten* its duration. The cases in which it has been used fully bear out this hypothesis.

It stimulates the enfeebled powers and builds up and gives fresh life and vitality to the whole system.

For sale by Druggists, and General Dealers. Price $1 per bottle; six bottles for $5. Prepared by J. M. Robinson, St. John N. B. feb. 26-4w

INVALIDS, do you wish to gather flesh, to acquire an appetite, to enjoy a regular habit of body, to obtain refreshing sleep, to feel and know that every fibre and tissue of your system is being braced and renovated? If so, commence at once and use the Quinine Wine prepared by Northrop & Lyman of Toronto, and in a short time you will feel the whole system invigorated and strengthened. It is a well-known fact that Quinine has been acknowledged by the medical faculty for many years as the best appetizer and tonic known. And for general debility, this combination will be found superior to all other preparations. And combined as it is with fine sherry wine and choice aromatics, it is made an agreeable and pleasant invigorator to the whole system. The properties of Quinine are a febrifuge tonic and antiperiodic. Small doses, frequently repeated, strengthen the pulse, increase muscular force, and invigorate the tone of the nervous system. The peculiar operation of this medicine in general debility and as an appetizer, has undergone long and close observation, and it is believed it will never fail, if properly and judiciously administered, unless other diseases predominate of a different character. Persons of weak constitution may take it without the least difficulty, as it strengthens the stomach and digestive organs, and seldom require more than one or two bottles to effect a decided benefit, as it contains nothing injurious to the most delicate constitution. Remember to ask for the "Quinine Wine prepared by Northrup & Lyman, Toronto," and we are sure you will be satisfied that you have full value for your money.

Sold by all Medicine Dealers.

READ THIS TWICE.—Five to thirty drops of THOMAS' ECLECTRIC OIL, will cure common Sore Throat. It never fails in Croup. It will cure a Cold or Cough in twenty-four to forty-eight hours. One bottle has cured Bronchitis of eight years' standing; recent cases are cured in three to six days. It has restored the voice where the person had not spoken above a whisper in five years. As an outward application in all cases of pain or lameness, nothing like it has ever been known. One bottle will cure any case of Lame Back or Crick in the Back. For diseases of the Spine and Contraction of the Muscles it is unequalled. In Rheumatic or any other pain the first application does you good. It stops Ear Ache and the pain of a Burn in three minutes, and is altogether the best and cheapest medicine ever offered to the people—the cheapest, because it takes so little to do you good. It is composed of six of the best oils known, and nothing but oils. Is worth its weight in gold. Why not buy it to-day?—A. B. DES ROCHERS, assistant postmaster, Arthabaskaville, P. Q. writes.—"Thirteen years ago I was seized by a severe attack of rheumatism in the head, from which I have nearly constantly suffered. After having used 'Thomas' Eclectric Oil' for nine days, bathing the forehead, I have been completely cured, and have only used a half a bottle. This I can certify under oath if you wish."—Rev. J. Mallory, of Wyoming, N. Y., writes, "Dr. Thomas' Eclectric Oil cured me of Bronchitis in ONE WEEK.

BEWARE OF IMITATIONS.—Ask for Dr. Thomas' Eclectric Oil. See that the signature of *S. N. Thomas* is on the wrapper, and the names of Northrop & Lyman are blown in the bottle, and *Take no other.* Sold by all medicine dealers. Price 25 cts.

NORTHROP & LYMAN,
Toronto, Ontario,
Proprietors for the Dominion.

NOTE.—*Eclectric*—Selected & Electrized. Sold by E. Lee Street, Hamilton & Fish, Moses M. Sargeant, Newcastle; Dr. Pallen, Chatham. jan. 15-2m

NOTICE OF SALE.

To John E. O'Brien, of Bathurst, in the County of Gloucester, and Province of New Brunswick, and Catherine his wife, and to all others whom it may in anywise concern.

Notice is hereby given, that under and by virtue of a power of sale contained in an Indenture of Mortgage, bearing date the tenth day of October, in the year of our Lord, One Thousand Eight Hundred and Seventy Seven, made between John E. O'Brien, of the Parish of Bathurst, in the County of Gloucester and Catherine his wife, of the One Part, and Matthew H. Cochrane, Charles Cassils and Abram Spaulding, of the City of Montreal in the Province of Quebec, Merchants, of the Second Part, and duly registered in the office of the Registrar of Deeds, in and for the County of Gloucester in volume Twenty-Six of Records at pages 69, 70, 71, and 72 and is numbered 43 in said Volume, and for default in payment of the principal monies and interest secured, by the said Mortgage, there will, for the purpose of satisfying the said money, be sold by

PUBLIC AUCTION,

on Saturday, the Eighteenth day of January next, at eleven o'clock, in the forenoon, in front of the Office of Adams & Lawlor, Bathurst, the Lands and Premises described in the said Mortgage, viz:—"All that part of Lot number one, situate in the rear of the Town of Bathurst, in the County and Province aforesaid, originally granted to Michael Larrigne, and bounded as follows:—Beginning at a stake placed on the East side of the Road leading from Bathurst to the Pabineau, three hundred and fifty-nine feet distant from the South West corner of the land occupied by George Smith, formerly by the late Joseph Read; thence along the said road southerly to the West line of a piece of said lot number one, conveyed by Tranquille Larrigne to the said John E. O'Brien; thence along the said North line of the piece last mentioned to the rear of the Grant; thence along the said rear line Northerly to the South East corner of a piece of said lot number one, owned and occupied by Michael Larrigne; thence along said Michael Larrigne's Southerly side line Westerly to the North East corner of a piece of said lot, conveyed by said Edward Larrigne to one Luke Young; thence along rear line of said Luke Young's holding Sixty feet to a stake; thence Westerly along Luke Young's Southerly side line to the road or highway at the place of beginning; being the same piece of land as was conveyed to the said John E. O'Brien by Edward Larrigne and wife by deed bearing date the Twenty-fourth day of April, A. D., 1878, as by reference thereto will fully appear."

Also, all that other piece or parcel of Land and Premises,

situate in the said Parish of Bathurst, and known as part of Lot number one, bounded as follows:—Commencing on the Southern line at an angle formed by the highway leading up the Big Nepisiguit River, and a lot of Land owned by Edward Dunn; thence Easterly by the said line and land owned by John White, to land owned by the Assignees of Hon. Joseph Cunard; thence North by the said line twenty-one Rods; thence down the said lot to the said highway, being the place of beginning, being twenty Rods fronting the said Road, containing fourteen acres more or less, and being the piece of Land conveyed to the said John E. O'Brien by Tranquille Larrigne and wife by deed bearing date the fourteenth day of November, A. D., 1866, as by reference thereto will fully appear.

Terms made known on application to the Undersigned.

Steam Saw Mill For Sale.

THE subscriber offers for sale his VALUABLE MILL PROPERTY, situate in the Town of Newcastle, Miramichi. The Mill was built in 1877 and adapted for two gangs (one of which is complete, with double edger, etc., etc.,) and is erected only fifty feet from the deep water terminus of the I. C. Railway. The depth of water near the wharves is from 22 to 25 feet at low water. The Mill Boom will contain about one million feet of logs. This is a rare opportunity to purchase one of the best and most modern Mills on the Miramichi River, as it is situated so conveniently for the shipping of lumber, etc., by water or rail, and will be sold cheap. For terms and particulars, enquire of the undersigned.

C. C. HAMILTON.
Newcastle, Miramichi, Feb. 14, '79. 4w.

MATTISON'S

PANCREATIC EMULSION OF COD LIVER OIL

—WITH—

LACTO-PHOSPHATE OF LIME,

—FOR—

CONSUMPTION, COUGHS, COLDS, HOARSENESS, BRONCHITIS, SKIN DISEASES, GENERAL DEBILITY, CHRONIC RHEUMATISM, RICKETS, DISEASES OF THE BONES, SCROFULA, IRRITATION OF THE MUCOUS MEMBRANES AND DIFFICULT EXPECTORATION, WASTING DISEASES OF CHILDREN AND ADULTS, NERVOUSNESS AND PROSTRATION, AND WHENEVER IT IS NECESSARY TO INCREASE THE VITAL FORCES AND BUILD UP THE SYSTEM.

In offering this beautiful Preparation to the consideration of the public, we do so confident that if they will give it a fair and impartial trial it cannot fail to give satisfaction.

The beneficial effects of Cod Liver Oil in all Lung troubles and Scrofulas affections are too widely known to need any comments from us; and Dr. Dobell, of London, Eng., has proved by a series of experiments that Pancreatic Emulsion is even of greater benefit in Consumption than Cod Liver Oil, as it is much more readily retained by the Stomach.
