hold, that very stronghold which was begun by the Bourbon and carried forward by the first Napoleon as a protection against, and a menace to England.—By order, the French squadron was reduced to inferiority of numbers, guns, and tonnage to the British during the stay of the latter at Cherbourg. As far as this country is concerned, the famous apfian of Bordeaux has been released, and "the Empire is Peace."

ITALY.
The "Moniteur" states that the Pope is about to increase his army by 3,000 men. The fact is not as yet corroborated by an information emanating from a Catholic source. The "Moniteur" sees in the proceeding, which it attributes to the Holy Father, "a first effort to place himself in a position to provide for the internal safety of the Papal States when France shall have ceased to occupy Rome."

Various rumors are afloat in Florence regarding the sudden retirement from the Ministry of Signor Vacca, who was known to be opposed to the recent negotiations with Rome. The common idea was that at the instance of France the negotiations were to be at once renewed on a basis of more ample concession to the Pope and to reaction, and that therefore Signor Vacca felt himself bound to quit the Ministry to a totally different cause.

At Turin great uneasiness prevailed last an emette should arise out of the growing discontent at the degradation of the city from a metropolis to a provincial town. The Garibaldian and Mazzinian agents were straining every nerve to excite the people to insurrection by representing the dangers of a reconciliation with Rome and Austria.

News by Telegraph.
FROM THE STATES.
New York, Aug. 29.
The present strength of the United States army is 146,000.
It is reported from Mexico that the Liberals had been defeated near Puebla previous to the 4th inst.

A Washington dispatch says the order relative to the passports for paroled prisoners is the signal for a general emigration of permanent rebels led by Lee, who will go to London and there finish his history, his campaign. Among others preparing to go are General Longstreet, Ewell, Beauregard, D. H. Hill, Wheeler, Malone, Buckner and Gardner, and it is probable they will be accompanied by hundreds of other less rank. Edward B. Ketchum, the forger, was arraigned in New York this forenoon. At the request of the prisoner, a full hearing in the case was postponed until Monday next.—Meanwhile, he is committed to the tombs prison. An accident occurred on the Long Island Railroad this forenoon, by which five persons were killed and several injured.

The council for Writs withdrew from the case yesterday which caused considerable excitement, and the prisoner seemed to be affected by it.
Mrs. ex-Senator Hunter to-day received the promise from the President that her husband should be pardoned at an early day.
Alexander H. Stephens' brother also had an interview with the President on a similar mission. The result of the interview is understood to be as follows: The President will soon issue a proclamation for the admission of ammunition and fire-arms into the Southern States.

The Tribune's Brownsville (Texas) correspondent says Senator Robles, the Mexican Minister of Public Works, crossed the river on the 5th inst., and took dinner with Gen. Steele. Among the guests were General Edwards and Drayton.
Generals Ortega and Rimerio are said to be on their way to Brownsville. The visit of these distinguished officials was construed to point to some movement on the Rio Grande.

The Herald's Vera Cruz correspondent says that the town of Zongolica, the principal place in the State of Vera Cruz, has declared in favor of the Republic, and is defended by a force considered adequate to hold it. A force of Austrians marching against it was drawn into an ambush and put to flight, losing quite a number of men. The Austrians had also met with a reverse north of Puebla.

There was a very large attendance at the Writs trial case yesterday. The counsel who withdrew from the case of the military Commission, and the earnest solicitation of the accused.
Gen. Swain's telegraph from Georgia for a large military force to suppress attacks on freedmen in that State.

TORONTO, Aug. 23.
The international cricket match was concluded to-day; the contest was very close, the Americans being winners. The score stood as follows:—1st innings—Can. 78; Americans 63; 2nd innings—Canada 54; Americans enough to win. The Americans played throughout with one man short.

New York, Aug. 30.
The Herald's Charleston correspondent of the 26th says large stocks of cotton have recently come in from the interior, and the city experienced a very encouraging business revival.
It is estimated that the property in the State of South Carolina valued in 1860 at \$400,000,000 has been reduced 50,000,000.
Aug. 31.
In the Writs trial yesterday, Col. Persons, formerly Rebel Commander of the Andersonville prison, stated that when he was there the prisoners numbered from 18,000 to 20,000, and that the capacity of the prison was for 10,000, and beyond that number no more ought to have been placed on the ground—seven after the enlargement. Captain Wirtz was not to blame for the size of the prison; one of his reasons for desiring to abate the prison as a nuisance was the almost insufferable stench and filth in a part of the graveyard. The green flies were almost as thick as locusts.
Advices from the Mexican border to the 19th inst., represent a curiously fraternal state of affairs between our Generals on the Rio Grande, and certain dignitaries of Maximilian's government, who, it seems, have been hobnobbing together and treating each other in true convivial style, and our Generals are reported as expressing friendship for the Emperor.

The Herald's Fortress Monroe correspondent says there is no change concerning Davis, Clay and Mitchell. Each occupies the cell awarded him, takes his food regularly, reads daily the newspapers and other publications, mends his pipe and enjoys his hours in promenade. The impression that Davis is permitted the freedom of writing letters is erroneous. The letter to Mr. Gillis, one of his counsel, is the only one he has been allowed to write.

MELANCHOLY ACCIDENT.—We have been requested to call attention to the disastrous and dangerous state in which the Bridge over Beer's mill-pond, Montague, is. A lamentable and fatal accident happened there on Thursday the 17th inst. A girl named Margaret Gordon, about 20 years of age, attempted to cross the bridge, but owing to its shattered condition and want of repair, some part of the plank gave way and the unfortunate woman was precipitated into the mill-pond, where she met with an untimely grave. It is certainly discreditable to our Government that an accident of this nature should happen on one of our high roads. It is not certainly the want of money, for the sums annually voted for roads and bridges is sufficient and more than sufficient to place all highways in a respectable and passable condition. We trust that the matter will be inquired into by the Government at once, and if the accident has happened through the neglect or supineness of any official that he be immediately dismissed.

NEW BARRACKS.—The Government have purchased from Admiral Hayfield, about four acres of land on the Brighton Road. On this site the new Barracks will be erected. The price paid for the land is £400 currency. On Tuesday last, the tenders for the erection was opened at Council. There were but two tenders—one from Messrs. Lowe & Barnard, offering to perform the work for £5,800—another from Mr. Alley, offering to perform the same for £3,500. It is almost needless to add that Mr. Alley's tender was accepted. The buildings three in number, are to be ready for occupation by the 10th of October next. It is believed that the entire outlay for Barracks, fens, offices, &c., will not exceed £100,000. HORRIBLE DEATH AT SEA.—Captain McDonald, of the ship Ariadne, 231 tons, from Prince Edward Island, with 100 passengers and crew, which arrived at Greenock on the 21st inst., reports that, five days after leaving P. E. Island, one of the hands (J. Carmichael, of Charlottetown), engaged as cook and steward jumped overboard. Capt. McDonald at once ordered the vessel to be put to sea, and a boat was launched, to rescue the unfortunate man. The immersed person was ultimately observed to be making great efforts to reach the vessel, and was heard immediately thereafter to utter several dreadful cries, then to raise his arms wildly and disappear. As a shark was observed following the ship for several days, it is supposed that the monster had seized the unfortunate man, and dragged him down. The boat was as once pulled to the spot but no trace of him could be seen. Deceased was about 22 years of age, unmarried, a native of P. E. Island, and had recently been discharged from the U. S. Navy.

The master of the sch. Comet from Baltimore, reports that his vessel was run into on Thursday night, off Sarnbro, by the steamer Greyhound. By this collision the sch's foremast was carried away, her bows stove, and anchor and chain lost.—H. J. paper.

Harvesting operations are proceeding rapidly in most parts of the island. We regret to observe that the blight has again attacked the potato. In many fields the tops present quite a withered appearance.—

A good anecdote was related to a party of Americans in Montreal, by an Irish backslider the other day. An English Cockney, just arrived, stepped out of St. Lawrence Hill one Sunday, and entered a hack, driven by a Frenchman. "Haw, fellow!" said the Cockney, "drive me to Christ's church." Christ church is the Protestant Episcopal Church of England, place of worship. The driver, however, landed his fare at St. Patrick's Roman Catholic church, and the Englishman entered and found himself in the midst of the celebration of High Mass, retrograde, hastily, and angrily reproaching the driver, "and you bring me here." "To be sure I did," answered the driver, "and this is Christ's Church, you needn't look any farther; the devil is one of his churches will you find in Montreal." The Englishman finished his journey on foot.

HOLLOWAY'S PILLS.—The grand secret of attaining happiness is to secure good health, without which life is stripped of all its pleasures. The regularity of our system, and its health, and set right by appropriate doses of these fine purifying Pills, which strengthen the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance, restore its normal and natural power to every organ, without inconvenience, pain, or any other drawback.

A Fine Head of Hair.—Nature's own 'diamond and title to dignity is to-day the coveted treasure of every person, and it was in olden time the pride of Absalom and strength of Samson. It is the duty of all to cultivate the hair. You should be checked and set right by appropriate doses of these fine purifying Pills, which strengthen the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance, restore its normal and natural power to every organ, without inconvenience, pain, or any other drawback.

The New York Tribune says, "the reason why Drake's Plantation Bitters are so universally used and have such an immense sale, is that they are always made up to the original standard, of highly invigorating material and of pure quality, although the prices have so largely advanced." &c.
The Tribune just hits the nail on the head. The Plantation Bitters are not only made of pure material, but the people are told what it is. The Recipe is published abroad in all bottles, and the bottles are not reduced in size. At each twenty imitations and counterfeits have sprung up. They impose upon the people once more that's the last of them. The Plantation Bitters are now used in all the Government Hospitals, are recommended by the best physicians, and are warranted to produce an immediate beneficial effect. Facts are stubborn things.

"I owe much to you, for I verily believe the Plantation Bitters have saved my life."
REV. W. H. WAGGONER, Madrid, N. Y.
"I have had a great sufferer from Dyspepsia, and had to abandon preaching, &c. &c. The Plantation Bitters have cured me."
REV. J. S. CATHORN, Rochester, N. Y.
"Send us twenty-four dozen more of your Plantation Bitters, the popularity of which are daily increasing with the guests of our house."
Proprietors Willard's Hotel, Washington, D. C.
"I have given the Plantation Bitters to hundreds of our disabled soldiers, and they have all been cured."
G. W. D. ANDREWS, Superintendent Soldiers' Home, Cincinnati, O.

"The Plantation Bitters have cured me of a derangement of the kidneys and the urinary organs that has distressed me for years. It acts like a charm."
C. C. MOORE, 254 Broadway.
New-Bedford, Mass., Nov. 24, 1865.

DEAR SIR:—I have been afflicted many years with severe prostrating cramps in my limbs, cold feet and hands, and a general disordered system. Physicians and medicine failed to relieve me. Some friends in New York, who were using Plantation Bitters, prevailed upon me to try them. I commenced with a small dose—after dinner. Feeling better by degrees, in a few days I was astonished the coldness and cramps had entirely left me, and I could sleep the night through, which I had not done for years. I feel like another being. My appetite and strength have also greatly improved by the use of the Plantation Bitters.
Respectfully,
JUDITH RUSSELL.

If the ladies but knew what thousands of them are constantly relating to us, we candidly believe one-half of the weakness, prostration, and distress experienced by them, would vanish. James Marsh, Esq., of 169 West 16th St., N. Y., says, "he has three children, the first two are weak and nervous, his wife having been unable to nurse or attend them but that she has taken Plantation Bitters for the last two years, and has a child now eighteen months old which she has nursed and reared herself, and both are hearty, strong and well. The article is invaluable to mothers." &c.
Such evidence might be continued for a volume. The best medicine is to try them. They speak for themselves. Persons of sedentary habits troubled with weakness, indigestion, palpitation of the heart, loss of appetite, distress after eating, rapid fever, consumption, diabetes, &c., will find speedy relief through these Bitters.
Every bottle for exportation and sale out of the United States has a metal cap and glass label around the neck. Beware of imitations. See that the cap has not been mutilated. Any person pretending to sell Plantation Bitters, in bulk or by the gallon, is an impostor. We will not issue a receipt for such quantities. Sold by principal dealers throughout the habitable globe.

St. Dunstan's College.
Under the Patronage of His Lordship the Bishop of Charlottetown.
THIS INSTITUTION is situated on the Princetown Road, a mile and a quarter North of Charlottetown. The site is peculiarly beautiful, healthy, and far removed from the distractions and moral dangers of the city. The halls and rooms of the building are spacious, airy and comfortable.
The College grounds are large, affording ample room for games and athletic exercises.
The course of studies embraces all the branches necessary to prepare young men for the study of the learned professions or fit them for mercantile pursuits, such as History, Geography, the English, French, Latin and Greek Languages, Rhetoric, Mathematics, Philosophy, Chemistry, &c. Music—vocal and instrumental—is also taught.
The College possesses a large and well selected Library, as well as an extensive Philosophical Apparatus.
The Professors and Teachers reside in the Institution, forming but one family with the students, and exercising a constant supervision favorable to discipline, decorum and good morals.
Catholic students are carefully and frequently instructed in their holy religion, which they are required to practice. The most solicitous attention is paid to the morals of all; and whilst within the College enclosure, they are constantly under the watchful eye of one of the Teachers or Prefects. Students when entering must produce satisfactory testimonials of good character.
The College is visited regularly once a week by a Physician.

TERMS:
Per Quarter of 11 Weeks:
Board and Tuition, £5 0 0
Use of Library, " 0 1 8
Physician's Fee, " 0 1 8
Payments to be made half-yearly in advance.
The College furnishes board and maintenance; the students must provide their own beds and bedding, brushes, basins, towels, &c.
The Scholastic year commences on the first Wednesday in September and ends about the middle of July. Students are requested to enter the College on the first day of the opening of the classes.
For further particulars apply to
A. McDONALD,
St. Dunstan's College, Aug. 16, 1865.
