LET US REASON TOGETHER

HOLLOWAY'S PILLS.

WHY ARE WE SICK?

It has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are especially adapted to the relief of the WEAK, the NERVOUS, the DELICATE, and the INFIRM, of all climes, ages, sexes and constitutions. Professor Holloway personally superintends the manufacture of his medicines, and offers them to a free and enlightened people, as the best remedy the world ever saw for the removal of disease.

THESE PILLS PURIFY THE BLOOD.

These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

DYSPEPSIA AND LIVER COMPLAINTS.

Nearly half the human race have taken these Pills. It has been proved in all parts of the world, that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to those organs, however much deranged, and when all other means have failed.

GENERAL DEBILITY.—ILL HEALTH.

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses. Learned Colleges admit, that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

FEMALE COMPLAINTS.

No Female, young or old, should be without this celebrated medicine. It corrects and regulates the monthly courses at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint; consequently no family should be without it.

Holloway's Pills are the best remedy known in the world for the following Diseases:—

Ague	Dropsy	Inflammation
Asthma	Dysentery	Jaundice
Bilious Complaints	Erysipelas	Liver Complaints
Blotches on the skin	Female Irregularities	Lumbago
Bowel Complaints	Fever of all kinds	Piles
Cholera	Fits	Rheumatism
Constipation of the Bowels	Goat	Retention of Urine
Consumption	Head-ache	Scrofula, or King's Evil
Debility	Indigestion	Tumours
Sore Throat	Stone and Gravel	Various Affections of the Urinary System
Secondary Symptoms	Tic Doloureux	Weakness, from whatever cause, &c.
Ulcers	Various Affections of the Urinary System

WM. B. DAWSON.

October 20.

The British Periodicals

AND THE
FARMER'S GUIDE.

GREAT REDUCTION IN THE PRICE OF THE LATTER PUBLICATION.

1. Scott & Co., New York, continue to publish the following leading British Periodicals, viz.:

1. THE LONDON QUARTERLY (Conservative).
2. THE EDINBURGH REVIEW (Whig).
3. THE NORTH BRITISH REVIEW (Free Church).
4. THE WESTMINSTER REVIEW (Liberal).

5. BLACKWOOD'S EDINBURGH MAGAZINE (Tory).

The great and important events—Religious, Political, and Military—now agitating the nations of the Old World, give to these Publications an interest and value they never before possessed. They occupy a middle ground between the hastily written news-items, crude speculations, and flying rumours of the newspaper, and the ponderous tome of the historian, written long after the living interest in the facts he records shall have passed away. The progress of the War in the East occupies a large space in their pages. Every movement is closely criticised, whether of friend or of foe, and all short-comings fearlessly pointed out. The letters from the CRIMEA and from the BALTIC in Blackwood's Magazine, from two of its most popular contributors, give a more intelligible and reliable account of the movements of the great belligerents than can elsewhere be found.

These Periodicals ably represent the three great political parties of Great Britain—Whig, Tory, and Radical,—but politics forms only one feature of their character. As Organs of the most profound writers on Science, Literature, Morality, and Religion, they stand, as they ever have stood, unrivalled in the world of letters, being considered indispensable to the scholar and the professional man, while to the intelligent reader of every class they furnish a more correct and satisfactory record of the current literature of the day, throughout the world, than can be possibly obtained from any other source.

EARLY COPIES.

The receipt of ADVANCE SHEETS from the British publishers gives additional value to these Reprints, especially during the present exciting state of European affairs, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

TERMS.

	Per ann
For any one of the four Reviews	\$3 00
For any two of the four Reviews	5 00
For any three of the four Reviews	7 00

For Blackwood and the four Reviews	10 00

Payments to be made in all cases in advance.

The Farmer's Guide

To Scientific and Practical Agriculture. By HENRY STEPHENS, F. R. S., of Edinburgh, and the late J. P. NORTON, Professor of Scientific Agriculture in Yale College, New Haven. 2 vols. Royal Octavo. 1600 pages, and numerous Wood and Steel Engravings.

This is, confessedly, the most complete work on Agriculture ever published, and in order to give it a wider circulation the publishers have resolved to reduce the price to

FIVE DOLLARS FOR THE TWO VOLUMES!!
LEONARD SCOTT & CO.,
No. 54, Gold Street, New York.
HASZARD & OWEN, Charlottetown, P. E. I.

Gleanings from late Papers.

PROMOTION.—Fifth or Royal Elthorne Light Infantry Regiment of Middlesex Militia—Ensign Robert Hensley to be Lieutenant, vice Jaquet, appointed to the 23d Fusiliers.

"Omar Pacha has arrived at Constantinople. Great mortality amongst the French in the Crimea. Health of the French at Constantinople was improving. Fortifications at Nicolaieff are being strengthened. Gen. Luders had ordered officers on furlough to return."

It is calculated, from statistical tables, that the number of children born on the 16th of March, to all of whom the Emperor and Empress is godfather and godmother, must be about 2500. Each child is to receive a gift of 300 francs. All the boys are to be named "Luis Eugene;" all the girls "Eugene Louise."

SAN FRANCISCO, March 5.—Afflicting accounts have just reached us from Klamath Co. on the North California coast, where about 30 families have been slaughtered by the Indians, and the small coast settlements burned.

The country is in a panic. There are no arms, and an express just arrived here for aid reports that the people there are entirely defenceless, and with no other means of escape. Preparations are on foot for their relief.

Advices from Oregon and Washington Territories are to 29th ult. At Rouge River, the Indians have resumed hostilities, and the little settlement of Wailes at the mouth of the river, had been burned. At Unea Creek, seven of the inhabitants had been killed, and the place is depopulated. Among the victims was the well known trapper and mountain guide, Ben. Wright, and the late sub-Indian Agent for Southern Oregon.

We regret to be informed that Doctor Davidson was drowned by the upsetting of a boat in Musquash River on Thursday night. He had been called to visit a patient on the opposite side of the River, and was on his return home when the unfortunate event occurred.

The deceased was a brother of Messrs. James, Thomas and Hugh Davidson, St. John, N. B.

In this month nature begins to smile, and the buds to burst out laughing, after the dulness of winter. The birds once more present their bills, and their notes are renewed.—Punch's Almanack.

GUM ARABIC.—In Morocco, about the middle of November, that is, after a rainy season, which begins in July, a gummy juice exudes spontaneously from the trunk and principal branches of the acacia tree. In about fifteen days, it thickens in the furrow, down which it runs, either in vermicular (or worm shape, or commonly assuming the form of oval and round tears, about the size of a pigeon's egg, of different colors, as they belong to the white or red gum tree. About the middle of December, the Moors encamp on the border of the forest, and the harvest lasts six weeks.—The gum is packed in very large sacks of leather, and brought on the backs of bullocks and camels to certain ports where it is sold to the French and English merchants. It is highly nutritious. During the whole time of the harvest, of the journey, and of the fair, the Moor of the desert lives almost entirely upon it, and experience proves, that six ounces of gum are sufficient for the support of a man twenty-four hours.
