the affect road, where, finding no water, it had come to a halt, and dispatched some of the conductors in search of some wandering tribe to assist it out of its difficulty—many lives having been already lost from thirst and unprecedented heat. At length a purchase of the necessary element was concluded at the price of 200 piastres the camel load; but on a supply reaching the place of halt, not more than from fifteen to twenty human beings were found alive to partake of it. The Arabs had attacked those dying from thirst, and pillaged all the most valuable of the goods.

G. T. HASZARD.

WHITTEKIR & PURINTON,

They are an excellent article to be taken

In the Spring of the Year,

To Invigorate and give Tone to the System.

These Pills have a great advantage over other Sugar-coated Pills, in that they are put up in GLASS BOTTLES, well corked; consequently will keep for any length of time without injury, and are not affected by damp weather.

The Proprietor of these Pills has spared no expense in getting up an article that he trusts will meet the universal approbation of the public, and he does not doubt they will, when known, take a stand beside his well known and extensively appreciated AMERICAN ANODYNE LINIMENT.

They are purely Vegetable in their composition, are peculiarly

SWEDISH WOMEN.

The bedding every where along the road is of home-made linen, and I do not recollect an instance where it has not been brought out fresh and sweet from the press for us. In this, as in all other household arrangements, the people are very tidy and cleanly, though a little deficient as regards their own persons. Their clothing, however, is of a healthy, substantial character, and the women consult comfort rather than ornament. Many of them wear cloth pantaloons under their petticoats, which, therefore, they are able to gather under their arms in wading through snow-drifts. I have not seen a low-necked dress or thin shoe north of Stockholm.

"The dame of who trips at daybreak.

" The damsel who trips at daybreak, Is shod like a mountaineer

Yet a sensible man would sooner take such a damsel to wife than any delicate Cinderella of the ball-room. I protest, I lose all patience when I think of the habits of our American, especially our country girls. If ever the Saxon race does deteriorate on the American side of the Atlantic, as some ethnologists anticipate, it will be wholly their fault.—Bayard Taylor in North-

side of the Atlantic, as some ethnologists anticipate, it will be wholly their fault.—Bayard Taylor in Northern Europe.

VALUABLE DISCOVERY.

Dr. J. T. Barclay claims to have discovered certain means which, if adopted at the Mint, would insterially diminish the liability of coinage to be depleted or abstracted from; also a process of mintage by which successful counterfeiting will be rendered impracticable and unremunerative. He proposes, in addition, a plan for counteracting, in a great, degree, the natural abrasion to which coin is exposed in the ordinary round of circulation. The natural attrition of coin in a year is estimated at a quarter per cent. The Secretary of the Treasury, in his last report, estimates the amount of gold and silver in circulation for the fiscal year of 1855, at over \$250,000,000. According to the above estimate, then, the yearly loss from abrasion is about \$660,000. Dr. Barclay declares that this loss can be lessened very materially by the adoption of his invention. What the nature of the inventor's plan is, to realize such important results, does not appear; but if it has any merif, the sooner it is practically applied the better.

WONDERS OF THE MICROSCOPE

WONDERS OF THE MICROSCOPE.

WONDERS OF THE MIGROSCOPE.

The little insect known as the wood-mite, so common on the covers and leaves of old books, if viewed brough a miscroscope, its eyes will appear of a golden olor, and they can be drawn in or thrown out at leasure. The motion of the intestines will also be isible, and, what is still more wonderful, the motion of the brain can be observed. The mould on decayed ruit, stale bread, moist wood, and the like, is shown by the microscope to be plants, bearing leaves, flowers, and seeds, and increasing in a manner almost credible, so that a day produces many generations of them.

PERRY DAVIS' VEGETABLE

PAIN KILLER, STILL TRIUMPHANT!

A ND A FTER A THORD OUGH trial by innumerable living witnesses has proved itself to be THE MEDICINE OF THE AGE. Although there have been many medicinal preparations brought before the public since the first introduction of Perry Davis' Vegetable Pain Killer, and large amounts expended in their introduction, the Pain Killer has continued steadily to advance in the estimation of the world as the best family medicine ever introduced. As an internal and external remedy it is truly a source of JOY TO THE WORLD.

One positive purpol of its efficace is, that the sales have

an internal and external remedy it is truly a source of JOY TO THE WORLD.

One positive proof of its efficacy is, that the sales have constantly increased, and upon its own merits, as the proprietors have not resorted to advertising to gain for it the rank-vit now holds among the great number of preparations of the present time. The effect of the Pain Killer upon the patient, what taken internally in cases of Colds, Coughs, Bowel Complaints, Cholera, Dysentery, and other affections of the system, has been truly wonderful, and has won for it a name among medicinal preparations that can never be forgotten. Its success in removing pains, as an external remedy, in cases of Burns, Bruises, Sores, Sprains, Cots, Stings of insects, and other causes of suffering, has secured for it such a host of testimony, as an almost infallible remedy, that it will be handed down to posterity as one of the greatest medical discoveries of the nineteenth century. The magical effects of the Pain Killer when taken or used according to directions are certain. You have only to be sure that you buy the genuine article and adhere to the directions in its use, and you will admit its wonderful medicinal properties.

The segming Parry Davis' Pain Killer is now out no in peacl

THOS. B. TREMAIN. Sold by WILLIAM R. WATSON, and dealers generally.

THE THEN ONE OF US PLEASE HIS NEIGHBOR, FOR HIS GOOD TO EDIFICATION," Box, N. 2.

THE STREET HIS ASSESSMENT STREET, THE STREET HIS ASSESSMENT STREET, THE STREET,

HOLLOWAY'S OINTMENT.

CIRCULAR TO THE SICK. THE FIRST HOSPITAL SUR-THE FIRST HOSPITAL SURgeons and medical publicists of Europe, admit the unparslelled anti-inflammatory and healing properties of this Ointment;
governments sanction its use in their naval and military services;
and the masses in this country and throughout the world repose
the utmost confidence in its curative properties. It penetrates
the sources of inflammation and corruption which underlie the
external evidences of disease, and neutralize the fiery elements
which feed and exasperate the malady.

RHEUMATISM, SCROFFULA, ERYSIPELAS.

These are among the most terrible and agonizing diseases, yet in their worst forms, and when seemingly incurable, they invariably disappear under a persevering application of this soothing, healing, antidote to pain and inflammation.

KING'S EVIL, FEVER SORES, STIFF

JOINTS.

*In cases of King's Evil where medicinal water, lotions, and every recipe of the pharmacopæia have proved useless, the Ointment will accomplish a thorough care. Fever Sures heal quickly under its influence, and its relaxing effect upon contracted sinews is truly wonderful.

DISCHARGING ULCERS.

A most remarkable and happy change is produced in the appearance of malignant ulcers, after a few applications of this Ointment. The surrounding redness vanishes, and gradules of healthy flesh begin to take the place of the discharged matter. This process goes on more or less rapidly, until the oridice is filled up with sound material and the ulcer radically cured. A WORD TO MOTHERS. The young are the most frequent sufferers from ext rnal injuries, and therefore every mother should have this healing preparation constantly at hand. It is an absolute specific for sore breasts, and quickly removes the encrusted sores which sometimes disfigure the heads and faces of children.

This Ointment is universally used on board the Atlantic and Pacific whaling fleet as a cure for scorbutic affections and as the best possible remedy for wounds and bruises. Large supplies of it have recently been ordered by the Sultan of Turkey for hospital purposes.

ULCERS, SORES AND TUMORS. The effect of this univalled external remedy apon Scrofula, and other virulent ulcers and sores, is almost miraculous. It first discharges the poison which produces supparation and proud flesh, and thus the cures which its healing properties afterwards complete are safe as well as permanent.

WOUNDS, BRUISES, BURNS AND SCALDS. In cases of the fracture of the bone, injuries caused by steam explosions, Bruises, Burns, scalds, Rheumatism, stiffness of th Joints, and contraction of the sinews, it is employed and warmly recommended by the faculty. This marvellous remedy has been introduced by its inventor into all the leading Hespitule of Europe, and no private household should be without it.

Both the Ointment and Pills should be used in the follow

Letter from the Rev. DR. CLAY to the Editor of the Christian Visitor. Carleton, St. John, N. B., Nov. 11, 1856. Carleton, 84. John, N. B., Nov. 11, 1850.

Mer Editor: Eleing desirous that the production of our own citizens should be patronized, rather than those of foreigners, I take the liberty of stating that the people of our Provinces need not use Tahnstock's, Mec Lean's, or any use Fahnstock's, Olec Lean's, or any other "Vermifuge," while they can get Pellons Norm Lacences, prepared in our own city. I was induced to try Fellows' Lozenger, having had a number of children under my care whose somads were so irritable the ordinary medalis were so irritable the ordinary medalis. icines could not be retained a moment, and the success that followed their use was so complete, that I can recommend them as one of the most pleasant and medicines that can be administered!

EDWIN CLAY, M. D. Fellows' Worm Lenenges are sold by all Apotheca

olesale and retail, by W. R. WATSON, Druggist scary, and Agent for Perry's Celebrated Hungarian the Hair. Sept. 23, 1857.
