A Woman's Right To Good Health

Most Troubles Afflicting Women are Due to Poor Blood

To every woman belongs the right to enjoy a healthy, active life: yet nine out of ten suffer from some form of bloodlessness. That is why one sees on every side pale, thin cheeks, dull eyes and drooping figures—sure signs of headaches, weak backs, aching limbs and uncertain health. All weak women should win the right to be well by refreshing their weary bodies with the new, rich, red blood that promptly transforms them into healthy attractive women. This new, red blood is supplied by Dr. Williams' Pink Pills, which reaches every organ and every nerve in the body. Through the use of these pills thousands of women have found benefit when suffering from anaemia, indigestion, general weakness and those ailments from which women alone suffer. Among the many women who tell of the good Dr. Williams' Pink Pills have done them is Mrs. L. Hicks, Round Hill, N.S., "I became very much run down in health; my blood was weak and watery, my strength failed, and I was so easily tired that my work was a burden. I had often read about Dr. Williams' Pink Pills and decided to try them, and I can truly say that after using three boxes I found myself gaining, and under a further use of the pills all my old-time energy and vitality was restored. Out of my own experience I can strongly recommend this medicine".
You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

St. John, Feb. 4—The official ruling with reference to Stanley and Wilfred Veno, formerly of Chatham, is as follows:
Official bulletin, M. P. B. A. A. U. of C. No. 17—
That these men, by their removal to Moncton and their transfer to the Moncton team with the consent of our registration committee makes them ineligible to again play with Chatham for one year from date of transfer, and that on account of our residence rule, which is that a player must be a resident of a town sixty days prior to entering competition, they are therefore ineligible to compete as members of the Moncton team in the Eastern Amateur League. Train Derailed At Bridge

Bathurst, Feb. 4—The crew of a special train on the Caracquet branch came near having a close call recently while the train was on its way to Bathurst, when a split rail on the Scott bridge, the structure rebuilt recently after the old one had burned down, threw the snow-plow crosswise of the bridge and stopped the engine just a few inches from the edge. Had the engine gone on for a second longer it and the car following it would have gone over the bridge into the brook, a drop of about fifty feet.

FEDERAL OFFICERS DOUBLED ON THE U. S. BORDER

Detroit, Feb. 4—Federal prohibition enforcement officers in the Detroit region will be doubled in number on July 1, in an effort to prevent smuggling of liquor from Canada into Michigan.

Frank B. Richardson, supervising special prohibition agent for the central division, said yesterday upon arriving here from Chicago, he declared Sault Ste. Marie would receive more attention from federal agents than any other city in the state, charging liquor was being smuggled into that city from Canada by train, ship and airplane.

One Thing More.

A pretty girl fattered over to her neighbor's house Sunday last to borrow some writing paper. She had an important letter to write and mail, and she was out of stationery. About half an hour later she returned for an envelope, and a little later still came back for a stamp. "Well, I hope that's all she wants to borrow today," said the disgruntled neighbor woman as she slammed the door after the pretty girl. "She needs a little 'split' to make the stamp adhere," said the neighbor woman's husband, "and she'll be over after that in a minute."—Arkansas Thomas Cat (Hot Springs, Ark.).

Insurance Against Tuberculosis.

Dr. P. J. Menard outlines in the Presse Medicale a plan for universal compulsory insurance against tuberculosis, the funds from which would serve for the fight against tuberculosis. His scheme is something like compulsory social insurance against sickness, but the tax or insurance dues imposed would include all classes of society, not merely the wage earners. He protests that the fight against tuberculosis should not be left to charity or private initiative.

Unduly Apprehensive.

"I hope they'll make some exceptions in taxing luxuries," remarked the plain person.
"Are you expecting to be hit?"
"I ought to be. One of the greatest luxuries I know of is sitting around the house in my shirt sleeves and reading the paper."
